*What Sort of Man* Breton Dukes, 2021-02-16 A young father high on Ritalin longs to leap into the tiger enclosure. A teacher who has been stood down for accessing porn on a school computer wants to re-establish contact with his teenage daughter. A carer out on a day trip is desperate to find a working toilet for his adult charge. *What Sort of Man* is a potent collection of stories that goes head to head with the crisis of contemporary masculinity, and is as exhilarating as it is harrowing. 'These are finely focused stories, done with the confidence of a writer who knows precisely what he wants to show, and how to show it. Their telling, and their method of telling, is confidently his own.' —Vincent O'Sullivan, *Landfall* Review Online 'Life is a series of isolations, now more than ever, and the way that Dukes captures, with photo-perfect detail, the soul of a person in isolation, is not just excellent, but relevant. We're not at our most alone when we're not around other people, we're at our most alone when we can't even sit with ourselves.' —Sam Brooks, *The Spinoff*

**Classroom Language: What Sort (RLE Edu O)** Jill Richards, 2012-05-04 The acquisition and use of language are just as vital to children's learning when the newer classroom methods are being employed as ever they were when the more traditional approaches were being used. Child centred learning has increasingly influenced language use and language work in the classroom – mainly in the primary sector, but also in the teaching of English, and indirectly in the teaching of other subject areas including the sciences. Interest in school learning and the special language it requires, compared with the language demands of everyday life, have recently developed in answer to the concern about allocation of the time available within the school timetable for each subject-based learning experience. In this volume the author focuses mainly on the language of subject learning in the secondary schools. She looks critically at some current notions concerned with language and learning and examines their

translation into classroom practice. She then develops a picture of the language demands made by other subject areas using collected language material and finally, in the light of this evidence, she attempts to identify the range of language in everyday use in schools, goes on to draw conclusions and then makes recommendations.

*What Sort of Life is this* ,2017 Since 2009, Danish photographer Albert Elm (born 1990) has pursued his curiosity about human existence with a restless energy and intrepid wanderlust, crossing far-flung time zones, boarding the Trans-Siberian Railway, traveling alone in Dubai, China, India, or just walking through his neighborhood in Copenhagen.

*Sorted* Jackson Bird,2020-08-04 An unflinching and endearing memoir from LGBTQ+ advocate Jackson Bird about how, through a childhood of gender mishaps and an awkward adolescence, he finally sorted things out and came out as a transgender man in his mid-twenties. When Jackson Bird was twenty-five, he came out as a transgender to his friends, family, and anyone in the world with an internet connection. Assigned female at birth and raised as a girl, he often wondered if he should have been born a boy. Jackson didn't share this thought with anyone because he didn't think he could share it with anyone. Growing up in Texas in the 1990s, he had no transgender role models. He barely remembers meeting anyone who was openly gay, let alone being taught that transgender people existed outside of punchlines. In this "soulful and heartfelt coming-of-age story" (Jamia Wilson, director and publisher of the Feminist Press), Jackson chronicles the ups and downs of growing up gender confused. Illuminated by journal entries spanning childhood to adolescence to today, he candidly

recalls the challenges and loneliness he endured as he came to terms with both his gender and his bisexual identity. With warmth and wit, Jackson also recounts how he navigated the many obstacles and quirks of his transition--like figuring out how to have a chest binder delivered to his NYU dorm room and having an emotional breakdown at a Harry Potter fan convention. From his first shot of testosterone to his eventual top surgery, Jackson lets you in on every part of his journey—taking the time to explain trans terminology and little-known facts about gender and identity along the way. “A compassionate, tender-hearted, and accessible book for anyone who might need a hand to hold as they walk through their own transition or the transition of a loved one” (Austin Chant, author of *Peter Darling*), *Sorted* demonstrates the power and beauty in being yourself, even when you’re not sure who “yourself” is.

**Another View** Nicholas P. Snoek, 2013-11-13 Another View is a study of revelation in which a fictional setting is used to explore revealed religion and its background. The fictional setting provides a narrative structure to what is otherwise a journey from the infinite past to the current situation as regards revelation in history and in philosophical/theological conceptual development. This book is not an exercise of exegesis but a source material is

never treated lightly. Only the fictional setting has a patina of entertainment and some grounding in the world of solids. To wit, there are no footnotes—scholarship is not intrusive, but it does build the book.

The Big Sort Bill Bishop,2009-05-11 The award-winning journalist reveals the untold story of why America is so culturally and politically divided in this groundbreaking book. Armed with startling demographic data, Bill Bishop demonstrates how Americans have spent decades sorting themselves into alarmingly homogeneous communities—not by region or by state, but by city and neighborhood. With ever-increasing specificity, we choose the communities and media that are compatible with our lifestyles and beliefs. The result is a country that has become so ideologically inbred that people don't know and can't understand those who live just a few miles away. In *The Big Sort*, Bishop explores how this phenomenon came to be, and its dire implications for our country. He begins with stories about how we live today and then draws on history, economics, and our changing political landscape to create one of the most compelling big-picture accounts of America in recent memory.
