Wild Storm Richard Castle, 2014-05-13 Derrick Storm, the guy the CIA calls on when it wants something investigated domestically, is thirty-three thousand feet in the air, returning from a rock climbing vacation in the Swiss Alps, when the plane spirals into a nose-dive. Storm uses his climbing gear to tether himself to the wing and heroically save the plane and all the people on board. Sadly, Storm is not available to come to the aid of the three other planes that have crashed under similar circumstances, killing everyone on board. Interestingly, many of the victims are powerful people in politics, business and religious groups. The always elusive Jedidiah Jones, leader of the National Clandestine Service that has no name, calls on Storm to investigate. Storm determines that an unknown extremist has secured enough of the rare earth element promethium to create a laser with the power to shoot down planes from the ground. The problem swiftly becomes a global one as four more planes crash in the Arabia Desert. Details, intuition and courage lead Storm to Monaco, Panama City and Egypt as he meets beautiful women, rides angry camels and rescues innocent victims in his valiant effort to track down the maniacal mind behind the terrorism.

The war Jenny Mei Sparks has been awaiting for over a century--give or take the 20 years she spent getting drunk--is about to break loose. The Wild Storm (2017-) #1 Warren Ellis, 2017-02-15 A troubled woman, barred by her employer from continuing her research, walks miserably through New York City. It takes her a moment to notice that everybody else is looking up. A man has been thrown from the upper floor of the Halo skyscraper. And that woman—Angela Spica, sick from the transhuman implants she's buried in her own body—is the only person who can save him. What she doesn't know is that the act of saving that one man will tip over a vast and secret house of cards that encloses the entire world, if not the inner solar system. This is how the Wild Storm begins, and it may destroy covert power structures, secret space programs and even all of human history. New York Times best-selling writer Warren Ellis (TRANSMETROPOLITAN, RED, THE AUTHORITY) returns to DC to curate Jim Lee's WildStorm world, with this debut issue resetting the WildStorm universe with new iterations of Grifter, Voodoo, the Engineer, Jenny Sparks and others.

The Wild Storm (2017-) #2 Warren Ellis, 2017-03-15 All Angela Spica did was save someone's life. And now hers is over. The rogue engineer lies bleeding in a place she hopes nobody will find - but she's wrong. The people embedded in the secret power structures of the world are tracking her. Skywatch. Halo. International Operations. A covert operative called Grifter. If only she hadn't unknowingly foiled an assassination planned by her boss. If only her boss wasn't the one person more interested in the Engineer's transhuman implants than in her life. It's all going very wrong, very quickly. There's going to be more blood.

The Wild Storm (2017-) #4 Warren Ellis, 2017-05-17 There's a covert action team out in the wild, and I.O. has proof of it for the first time. This changes everything. The woman who tipped the first domino in this cascade of secrets and lies is on the run. And the other great power of the hidden world is on the scene. Henry Bendix is noticing things from on high, and that doesn't bode well for I.O., Angela Spica or the planet. The storm is building.

The Wild Storm (2017-) #19 Warren Ellis, 2019-01-23 Beginning the fourth story arc of THE WILD STORM. Jenny Mei Sparks has been around for over a century. She's seen a lot of things. The problem is that other people have plans, too, and one of them is about reducing the population of Earth by around 90 percent.

The Wild Storm (2017-) #14 Warren Ellis, 2018-06-20 John Lynch, ex-director of IO, is travelling to America to warn the subjects of his most secret program that the current heads of IO may know about them-what Lynch did to them in Project Thunderbook, how they changed and where they're hiding.
