Windows Patrick Guest,2020-10-01 Windows is an uplifting story of how humanity has pulled together during the Coronavirus pandemic. Written from Patrick's own experience of having to leave the family home due to his son's Duchenne muscular dystrophy, Windows shows how five kids from different parts of the world connect and draw strength from their communities, all from behind the safety of their own windows. Heartwarming, hopeful and surprisingly funny, Windows will resonate with families all over the world and become a valuable time capsule of what life was like in 2020.

The Story of Microsoft Nell Musolf,2008 Describes the history of Bill Gates's Microsoft Corporation and its impact on the computer industry.

Fixing Broken Windows George L. Kelling,Catherine M. Coles,1997 Cites successful examples of community-based policing.

Showstopper! G. Pascal Zachary,2014-04-01 This “inside account captures the energy—and the madness—of the software giant’s race to develop a critical new program. . . . Gripping” (Fortune Magazine). Showstopper is the dramatic, inside story of the creation of Windows NT, told by Wall Street Journal reporter G. Pascal Zachary. Driven by the legendary David Cutler, a picked band of software engineers sacrifices almost everything in their lives to build a new, stable, operating system aimed at giving Microsoft a platform for growth through the next decade of development in the computing business. Comparable in many ways to the Pulitzer Prize–winning book *The Soul of a New Machine* by Tracy Kidder, Showstopper gets deep inside the process of software development, the lives and motivations of coders and the pressure to succeed coupled with the drive for originality and perfection that can pull a diverse team together to create a program consisting of many hundreds of thousands of lines of code.

Windows into the Earth Robert B. Smith,Lee J. Siegel,2000-05-25 Millions of years ago, the North American continent was dragged over the world's largest continental hotspot, a huge column of hot and molten rock rising from the Earth's interior that traced a 50-mile wide, 500-mile-long path northeastward across Idaho. Generating cataclysmic volcanic eruptions and large earthquakes, the hotspot helped lift the Yellowstone Plateau to more than 7,000 feet and pushed the northern Rockies to new heights, forming unusually large glaciers to carve the landscape. It also created the jewel of the U.S. national park system: Yellowstone. Meanwhile, forces stretching apart the western U.S. created the mountainous glory of Grand Teton National

Park. These two parks, with their majestic mountains, dazzling geysers, and picturesque hot springs, are windows into the Earth's interior, revealing the violent power of the dynamic processes within. Smith and Siegel offer expert guidance through this awe-inspiring terrain, bringing to life the grandeur of these geologic phenomena as they reveal the forces that have shaped--and continue to shape--the greater Yellowstone-Teton region. Over seventy illustrations--including fifty-two in full color--illuminate the breathtaking beauty of the landscape, while two final chapters provide driving tours of the parks to help visitors enjoy and understand the regions wonders. Fascinating and informative, this book affords us a striking new perspective on Earth's creative forces.

House of Windows John Langan, 2017-07-11 The haunting debut novel by the Bram Stoker Award-winning author—"think Henry James and Joyce Carol Oates with just a few paragraphs of Joe Lansdale" (Tor.com). For the last few years, Veronica Croydon has been at the center of scandal, first as the younger woman for whom her famous professor left his wife, and then as his apparent widow. When a writer staying at the same vacation home as Veronica has the chance to hear her story, he jumps at it. What follows takes him to the dark heart of a father's troubled relationship with his only son, in a story that stretches from the Hudson Valley to Afghanistan; and from post-9/11 America to Victorian England. *House of Windows* is a haunting exploration of a marriage under strain from forces both psychological and paranormal. With its combination of literary complexity and chilling supernatural violence, it is widely considered a masterpiece of contemporary horror fiction. New introduction by Adam Nevill Reading Group Guide included "John Langan is a writer of superb literary horror. Both *House of Windows* and *The Fisherman* are dark and unsettling contemporary masterpieces." —Peter Straub, New York Times bestselling author

people in windows. Life is a Story - story.one Nora Flamich, 2023-09-01 If you wonder through the streets, you might catch yourself suddenly standing, staring into a strange window, people are dancing, couples are fighting, but what is behind all that?

A House Without Windows Nadia Hashimi, 2016-08-16 A vivid, unforgettable story of an unlikely sisterhood—an emotionally powerful and haunting tale of friendship that illuminates the plight of women in a traditional culture—from the author of the bestselling *The Pearl That Broke Its Shell* and *When the Moon Is Low*. For two decades, Zeba was a loving wife, a patient mother, and a peaceful villager. But her quiet life is shattered when her husband, Kamal, is found brutally murdered with a hatchet in the courtyard of their home. Nearly catatonic with shock, Zeba is unable to account for her

whereabouts at the time of his death. Her children swear their mother could not have committed such a heinous act. Kamal's family is sure she did, and demands justice. Barely escaping a vengeful mob, Zeba is arrested and jailed. As Zeba awaits trial, she meets a group of women whose own misfortunes have also led them to these bleak cells: thirty-year-old Nafisa, imprisoned to protect her from an honor killing; twenty-five-year-old Latifa, who ran away from home with her teenage sister but now stays in the prison because it is safe shelter; and nineteen-year-old Mezhgan, pregnant and unmarried, waiting for her lover's family to ask for her hand in marriage. Is Zeba a cold-blooded killer, these young women wonder, or has she been imprisoned, as they have been, for breaking some social rule? For these women, the prison is both a haven and a punishment. Removed from the harsh and unforgiving world outside, they form a lively and indelible sisterhood. Into this closed world comes Yusuf, Zeba's Afghan-born, American-raised lawyer, whose commitment to human rights and desire to help his motherland have brought him back. With the fate of this seemingly ordinary housewife in his hands, Yusuf discovers that, like Afghanistan itself, his client may not be at all what he imagines. A moving look at the lives of modern Afghan women, *A House Without Windows* is astonishing, frightening, and triumphant.

The Microsoft Story Dan Good, 2020-10-27 Imagine if you could see the playbook that returned a struggling tech empire to the top of the tech leaderboard. The Microsoft Story will help you understand and adopt the competitive strategies, workplace culture, and daily business practices that enabled the tech company to become a leading tech innovator once again. It wasn't so long ago that Microsoft and its Windows operating system dominated the tech industry so much so that they faced antitrust charges for what was perceived by many to be predatory, monopolistic practices. Less than a decade later, the tide had turned and Microsoft lost its dominance in the personal tech marketplace amidst the launch of the iPhone, the rise of Google, and the cloud computing phenomenon. But, now, Microsoft is back on top. The company's value is soaring and once again Microsoft is being recognized as a tech leader once again. What changed? The company culture has become one of creativity and innovation, no longer requiring that all products revolve around Windows. The company has reevaluated their business lines, getting rid of underperforming initiatives such as smartphones, and focused on the area of growth where the company excelled: the cloud. Through the story of Microsoft, you'll learn: How to build a nimble company culture that supports innovation and growth. How to return a forgotten brand to the spotlight. How to recognize and build upon successful business lines, while letting go of underperforming initiatives. When to change the entire way you do business. Discover how this iconic organization got it right and

created a successful long-lasting business, and how you can do the same for your company.

Do the Windows Open? Julie Hecht, 1998-02-01 *Do the Windows Open?* is a series of hilarious linked tales documenting the mania of the modern day in devastating detail—tales that have had readers of *The New Yorker* laughing out loud for years. The beguiling and alienated narrator—who finds nearly everything interesting and almost nothing clear—has set herself the never-ending goal of photographing a world-renowned reproductive surgeon, Walden Pond, the ponds of Nantucket, and all the houses Anne Sexton ever lived in. On the way, she searches for organically grown vegetables, windows that open, and an endodontist who acts like a normal person. She sometimes compares herself unfavorably to Jacqueline Kennedy, Hillary Clinton, and Princess Diana. What emerges is a unique sensibility under siege. This is a remarkably original literary performance, one that speaks to anyone looking for the refuge laughter offers from life in an absurd world.

Breaking Windows David Bank, 2001 *Breaking Windows* is a gripping account of Bill Gates's plan to establish a monopoly and create a new kind of business organism. Bank shows how the company's executives faced a tough legal challenge, and how they are dealing with the limits of Microsoft's growth.

The Most Spectacular Restaurant in the World Tom Roston, 2019-09-10 An “engrossing” history of the restaurant atop the World Trade Center “that ruled the New York City skyline from April 1976 until September 11, 2001” (Booklist, starred review). In the 1970s, New York City was plagued by crime, filth, and an ineffective government. The city was falling apart, and even the newly constructed World Trade Center threatened to be a fiasco. But in April 1976, a quarter-mile up on the 107th floor of the North Tower, a new restaurant called Windows on the World opened its doors—a glittering sign that New York wasn’t done just yet. In *The Most Spectacular Restaurant in the World*, journalist Tom Roston tells the complete history of this incredible restaurant, from its stunning \$14-million opening to 9/11 and its tragic end. There are stories of the people behind it, such as Joe Baum, the celebrated restaurateur, who was said to be the only man who could outspend an unlimited budget; the well-tipped waiters; and the cavalcade of famous guests as well as everyday people celebrating the key moments in their lives. Roston also charts the changes in American food, from baroque and theatrical to locally sourced and organic. Built on nearly 150 original interviews, *The Most Spectacular Restaurant in the World* is the story of New York City’s restaurant culture and the quintessential American drive to succeed. “Roston also digs deeply into the history of New York restaurants, and how

Windows on the World was shaped by the politics and social conditions of its era.” —The New York Times “The city’s premier celebration venue, deeply woven into its social, culinary and business fabrics, deserved a proper history. Roston delivers it with power, detail, humor and heartbreak to spare.”

?New York Post “A rich, complex account.” ?Kirkus Reviews (starred review)

Windows on the White House Curt Smith,1997 Objectively and poetically, this book details what the libraries say about their namesakes-and what the presidents say about us all.

Boarded Windows Dylan Hicks,2013-04-01 Do yourself a favor and read this smart, tender book. The characters will haunt you with their longing and inspire you with their sweet, caustic wit. Dylan Hicks knows his music and his prose is a song in itself.--Sam Lipsyte A continually hilarious, hopes-dashed account of an indelible American character: the con man.--Greil Marcus Wade Salem is a charismatic aesthete, drug dealer, and journeyman country musician. He's also a complicated father figure to this novel's narrator, whose cloudy childhood becomes both clearer and more confusing through Wade's stories, jokes, and lectures. Through the eyes of a keenly observant, underemployed record collector, Wade emerges as a sly, disruptive force, at once seductive and maddening. Shifting between flashbacks from the seventies and nineties, Boarded Windows is a postmodern

orphan story that explores the fallibility of memory and the weight of our social and cultural inheritance. Stylistically layered and searchingly lonesome, Dylan Hicks' debut novel captures the music and mood of the fading embers of America's boomer counterculture. Dylan Hicks is a songwriter, musician, and writer. His work has appeared in *The Village Voice*, *The New York Times*, *Star Tribune*, *City Pages*, and *Rain Taxi*, and he has released three CDs under his own name. A fourth, *Sings Bolling Greene*, is a soundtrack to this novel and will be released in May 2012. He lives in Minneapolis, Minnesota, with his wife Nina Hale and his son Jackson. This is his first novel.

Hard Drive James Wallace, Jim Erickson, 1993-06 The true story behind the rise of a tyrannical genius, how he transformed an industry, and why everyone is out to get him. In this fascinating exposé, two investigative reporters trace the hugely successful career of Microsoft founder Bill Gates. Part entrepreneur, part enfant terrible, Gates has become the most powerful -- and feared -- player in the computer industry, and arguably the richest man in America. In *Hard Drive*, investigative reporters Wallace and Erickson follow Gates from his days as an unkempt thirteen-year-old computer hacker to his present-day status as a ruthless billionaire CEO. More than simply a revenge of the nerds story though, this is a balanced analysis of a business triumph, and a stunningly driven personality. The authors have spoken to everyone who knows anything about Bill Gates and Microsoft -- from childhood friends to employees and business rivals who reveal the heights, and limits, of his wizardry. From Gates's singular accomplishments to his equally extraordinary brattiness, arrogance, and hostility (the atmosphere is so intense at Microsoft that stressed-out programmers have been known to ease the tension of their eighty-hour workweeks by exploding homemade bombs), this is a uniquely revealing glimpse of the person who has emerged as the undisputed king of a notoriously brutal industry.
