Box,2019-03-12 Don't miss the JOE PICKETT series—now streaming on Paramount+ Wyoming game warden Joe Pickett encounters bad behavior on his own turf—only to have the FBI and the DOJ ask him to stand down—in the thrilling novel from #1 New York Times bestselling author C.J. The bad news is that he's come to learn that a drone is killing wildlife—and the drone belongs to a mysterious and wealthy man whose son is dating Joe's own daughter, Lucy. When Joe tries to lay down the rules for the drone operator, he's asked by the FBI and the DOJ to stand down, which only makes him more suspicious. Meanwhile, bodies are piling up in and around Joe's district in shocking numbers. He begins to fear that a pack of four vicious killers working on behalf of the Sinaloa cartel known as the Wolf Pack has arrived. Their target seems to be the mystery man and everyone—including Joe, Nate, and others—who is associated with him. Teaming up with a female game warden (based on a real person, one of the few female game wardens at work in Wyoming today) to confront these assassins, Joe finds himself in the most violent and dangerous predicament he's ever faced.

**The Wolf Pack** Sonny Jay,2011-09-26 A fictional tale about wild wolves being devious in an un-humanly storm. Step out of your world and let me take you somewhere far from the norm. These wolves can talk, stand on their hind legs and make plans just like we do. All they want is the Island but find that the humans want the same. In come six little creatures with quick little feet. Moving so fast they will leave you stuck to your seat. All they want is food but in a storm its begining to be hard to find. A part from the book: Butch and Sid were in the back of the line. As the other wolves went in two at a time. Barking and growling and showing their teeth. Howling and jumping as high as they could reach. Guns started blazing and bullets did fly. All you could hear was the sounds of their cries. You could hear the wolves tearing off limbs. While all the lights were starting to go dim. Rustling and cursing the humans did cry. As they could see their whole lives passing them by. Guns still blazing as the wolves were falling. Six humans left and there was no stalling. Destruction and despair was on their minds and killing humans was the perfect crime! ... The Wolf Pack - Devious Devils ... The Storm Clive Cussler,Graham Brown,2012-05-29 When the incomplete invention of a genius environmentalist falls into the wrong hands, it's the NUMA crew that will be the first casualties of war, and team leader Kurt Austin will stop at nothing to get justice for his fellow agents in this #1 New York Times bestselling series. In the middle of the Indian Ocean, a NUMA research vessel is taking water samples at sunset, when a crew member spots the familiar sheen of black oil ahead of them. But it is not oil. Like a horde of army ants, a swarm of black particles suddenly attacks the ship, killing everyone aboard, while the ship itself goes up in flames. A few hours later, Kurt Austin, Joe Zavala, and other members of the NUMA Special Assignments Team are dispatched to check on their colleagues. They find no survivors, but the remains of a new technological marvel on the smoldering hulk of the ship point them towards a new adversary. Knowing the victims makes this mission deeply personal for Austin and Zavala. They'll uncover the scheme: an audacious plan to alter the weather on a global scale. They'll find the technology that can make it happen: microrobots, originally designed to stave off polution. But what they may not learn in time is the face of their true enemy. And, on assignment this close to the hearts and minds of the NUMA crew, the danger is likely to hit close to home. Filled with the high-stakes suspense and boundless imagination that are unique to Cussler, *The Storm* is one of the most thrilling novels yet from the grand master of adventure.

**Polar Storm** Deborah D. Moore,2018-08-20 A nonstop blizzard puts one man in a desperate fight for survival in this action-packed prepper

thriller from the author of The Journal series. A major snow storm covering most of the northern states isn't that unusual. One that stays for months on end is very unusual—and it's a killer. Parker is an easygoing young man who has had every advantage in life, including wealthy parents who have given him everything he's ever wanted. But after agreeing to live in the woods of northern Michigan for a year, he soon finds that kind of spoiled life has not prepared him for life off-grid—in the woods—in the ruthless wintertime. But with the help of the teenaged boy next door, he begins to learn how to survive in the woods, and just in time. A winter storm of unprecedented magnitude is bearing down on them, and it will take everything they have to make it out alive.

Category 7 Bill Evans,Marianna Jameson,2007-07-10 A Category 4 hurricane, with winds of up to 155 miles per hour, tears roofs off buildings, smashes windows and doors, and can send floodwaters up to the second floor. Evacuation is suggested for up to six miles inland. Hurricane Katrina was a Category 4 when she made landfall. Hurricane Simone is a Category 7—the biggest, strongest storm in recorded history. When she hits New York City, skyscrapers will fall. Subways and tunnels will flood. Lower Manhattan and much of Queens and Brooklyn will disappear under more than thirty feet of water. All along the Eastern Seaboard, towns and cities are being evacuated as wind-driven rain lashes the coast and storm surges crash through seawalls. Roads are packed with fleeing motorists whose cars are jammed with every personal possession that can be crammed in, plus family members, friends, and beloved pets. A huge natural disaster is brewing in the Atlantic. Except that Simone isn't natural. She's the product of rogue weather science being wielded by billionaire Carter Thompson as part of a personal vendetta against US President Winslow Benson. Once Carter wanted to bring rain to the desert and feed the starving peoples of the planet. Now he wants to show Benson—and the rest of the world—just how powerful wind and water can be. If technology created Simone, perhaps technology can stop her. It's up to Kate Sherman, once a member of Carter's weather team; and Jake Baxter, a weatherman for the CIA, to try, using a secret US Navy weapon. The catch? It has to be deployed inside the hurricane. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Includes plenty of detail on the forces that make weather work—this approach is so effective, readers will forever think about these characters every time they hear a weather report or step outside.

**Family Storm** Lewis Arrington,2016-08-18 Power is one of the most addictive drugs in the world. Those who want it will do anything to get it, including using and abusing their own family members to achieve their aims. Then once they have the power, they will not give it up willingly. Instead, they will go to any lengths to hold on to their power no matter how many people they hurt, believing it is their right to do so!
