Shorthorn World and Farm Magazine ,1919

In the Cards Howard Burton,2021-04-17 This book is based on an in-depth filmed conversation between Howard Burton and Fred Gitelman, world-champion bridge player and co-founder of Bridge Base Online. This wide-ranging conversation provides behind-the-scenes insights into the world of professional bridge, the psychological stress of top-flight competition and how the human mind can compute amazing feats of memory. This carefully-edited book includes an introduction, The Art of Competition, and questions for discussion at the end of each chapter: I. Bridge Background - What it's all about II. A Personal Perspective - Beginnings, partnerships, tournaments and memory III. The Bridge Business - Educational software, online domination and special friends IV. At the summit - Conquering the world and then reverting to type V. Critical Times? - Demographics, gender and the future of bridge About Ideas Roadshow Conversations: This book is part of an expanding series of 100+ Ideas Roadshow conversations, each one presenting a wealth of candid insights from a leading expert through a focused yet informal setting to give non-specialists a uniquely accessible window into frontline research and scholarship that wouldn't otherwise be encountered through standard lectures and textbooks.

Conversations About Anthropology & Sociology Howard Burton,2021-05-17 Conversations About Anthropology & Sociology include the following 5 wide-ranging Ideas Roadshow Conversations featuring leading experts. This collection includes a detailed preface highlighting the connections between the different books. Each book is broken into chapters with a detailed introduction and questions for discussion at the end of each chapter: I. The Science of Siren Songs:

Stradivari Unveiled - A Conversation with master violinmaker, acoustician and MacArthur Fellow Joseph Curtin. This wide-ranging conversation explores Curtin's long quest to characterize the sound of a Stradivari violin and the rigorous series of double-blind tests he and his colleagues developed to probe whether or not professional musicians can really tell the difference between a Stradivari and a modern violin. This thought-provoking book also examines violin acoustics and how acoustic science can be married to the art of violin making while merging time-honoured techniques with new materials and design. II. In the Cards - A Conversation with Fred Gitelman, world-champion bridge player and co-founder of Bridge Base Online. This comprehensive conversation provides behind-the-scenes insights into the world of professional bridge, the psychological stress of top-flight competition, how the human mind can compute amazing feats of memory, bridge in schools, coaching Bill Gates and Warren Buffett and more. III. Embracing the Anthropocene: Managing Human Impact - A Conversation with Mark Maslin, Professor of Geography at University College London. This in-depth conversation explores Mark Maslin's research on the Anthropocene which according to his definition began when human impacts on the planet irrevocably started to change the course of the Earth's biological and geographical trajectory, leading to climate change, loss of biodiversity, deforestation, and more. IV. The Joy of Mathematics - A Conversation with Ian Stewart, Emeritus Professor of Mathematics at the University of Warwick and bestselling science and science fiction writer. For Ian Stewart, mathematics is far more than dreary arithmetic, while mathematical thinking is one of the most important—and overlooked—aspects of contemporary society. This conversation explores what mathematics is and why it's worth doing, symmetry, networks and patterns, the relationship between logic and proof, the role of beauty in mathematical thinking, the future of mathematics, linking mathematical oscillations to animal gaits, how to deal with the

peculiarities of the mathematical community, and much more. V. On Atheists and Bonobos - A Conversation with primatologist Frans de Waal, the Charles Howard Candler Professor of Primate Behavior in the Department of Psychology at Emory University and director of the Living Links Center at the Yerkes National Primate Research Center at Emory. Frans de Waal is renowned for his work on the behaviour and social intelligence of primates. This thought-provoking conversation examines fascinating questions such as: Are we born with an innate sense of “the good”? Do we learn from others what is “wrong”? Does religion determine, or is it a result of, morality? and more. Howard Burton is the founder and host of all Ideas Roadshow Conversations and was the Founding Executive Director of Perimeter Institute for Theoretical Physics. He holds a PhD in theoretical physics and an MA in philosophy. Ideas Roadshow offers an expanding series of Ideas Roadshow Collections, visit our website: <https://ideas-on-film.com/ideasroadshow/> for further details.
