The Greatest Horse of All Charles

Justice, 2008-11-20 Using the most basic statistics, completely explained, the author selects the sixteen most likely candidates for the title: greatest horse of the twentieth century. Fifty colts and fillies, listed mainly in a 1999 publication by The Blood-Horse, Inc., were compared using a three-part process. This process narrowed the top contenders to sixteen. The past performance data for these Thoroughbreds were obtained from the Daily Racing Form's 2000 publication Champions. Using results identical to those explained in the book, the author calculates that the best likely average time for Big Brown to run the upcoming Belmont is 147.54 seconds, or 2:27.54. One hundred simulations at 12 furlongs, based on Big Brown's current 2008 performance data and the past 36 years of Belmont winning times, indicate he has a 72-percent chance of winning the triple crown. The identical formulas used in the book on the past performance data for Secretariat, Seattle Slew and Affirmed, came within fractional seconds of predicting their Belmont/Triple Crown wins. Of course, as most Wall Street pundits will warn, past performance is not a guarantee of future performance! And now, in retrospect, Big Brown sadly did not win. Had he run as he was capable, the predicted time stated above would have beaten the winner, Da'Tara, by 2.09 seconds! Charles Justice June 5 and 9, 2008

The Art of Computer Programming Donald E. Knuth, 1998-04-24 The bible of all fundamental algorithms and the work that taught many of today's software developers most of what they know about computer programming. -Byte, September 1995 I can't begin to tell you how many pleasurable hours of study and recreation they have afforded me! I have pored over them in cars, restaurants, at work, at home...and even at a Little League game when my son wasn't in the line-up. -Charles Long If you think you're a really good programmer... read [Knuth's] Art of Computer Programming... You should definitely send me a resume if you can read the whole thing. -Bill Gates It's always a pleasure when a problem is hard enough that you have to get the Knuths off the shelf. I find that merely opening one has a very useful terrorizing effect on computers.

It Takes All Sorts Peter Roebuck,2005-08-01 In It Takes All Sorts, Peter Roebuck meanders through his 25-year career in reporting cricket, to reveal the people and the personalities who have touched his life and contributed to his life-long passion for the game. Roebuck provides warts-and-all insights into the comings and goings, greats and not-so-greats, debuts and retirements, the controversies of recent professional cricket and great innings in between. Roebuck has seen it all and isn't afraid to comment: he's interviewed Sir (or is that Saint?) Garfield Sobers' mum, was on the scene (and on the front page) when Gilchrist walked, poked gentle fun at Inzamam's fielding, and touched many with his account of young Sri Lankan boys playing cricket on a beach in Galle. Peter Roebuck pulls no punches - whether friend or foe, all his subjects are linked by the great and noble game of cricket and he is not afraid to tell it how he sees it.
