Its story of a woman's life in fourteenth-century Norway has kept its hold on generations of readers, and the heroine, Kristin—beautiful, strong-

*Wreath for the Earth?* Subhash S. Naik, 2016-07-11 Today's environment is full of Pollution, and, people are either not aware of its dangers, or even if they know, they simply disregard them, just like an Ostrich who buries its head in sand when a storm comes, thinking that the storm will pass it unharmed. But, if we allow the pollution to go on uncontrolled, it could be the end of the world as we know it. Number of technical books have been written on this topic, (and the present author too could have written one, he being an engineer). But, if this topic is covered in a creative way, it could appeal more to the people, and consequently they would pay more attention to solving this problem. For friends young & old, this is a wake-up call. Please do not disregard it. It would be no use crying over spilt milk, once irrevocable damage is done.
