Japanese Production Racing Motorcycles Mick Walker,2004-09-02 As this book explains, the Japanese did not suddenly become proficient in the design and development of motorcycles when they first appeared in Europe at the end of the 1950s. Instead, the Japanese had been involved with motorcycles since the beginning of the 20th century. True, early Japanese motorcycles copied Western design - a trend that continued for several years after WWII. But soon they designed a succession of highly innovative machinery, not only to the Grand Prix world's benefit but to the paying 'over-the-counter' customer, too. Honda, Kawasaki, Suzuki, and Yamaha, plus Bridgestone and Tohatsu, have all built and sold racing motorcycles which the public could also buy and enjoy.

War and Popular Culture Chang-tai Hung,2023-12-22 This is the first comprehensive study of popular culture in twentieth-century China, and of its political impact during the Sino-Japanese War of 1937-1945 (known in China as The War of Resistance against Japan). Chang-tai Hung shows in compelling detail how Chinese resisters used a variety of popular cultural forms—especially dramas, cartoons, and newspapers—to reach out to the rural audience and galvanize support for the war cause. While the Nationalists used popular culture as a patriotic tool, the Communists refashioned it into a socialist propaganda instrument, creating lively symbols of peasant heroes and joyful images of village life under their rule. In the end, Hung argues, the Communists' use of popular culture contributed to their victory in revolution.
