**I Am Yours** Reema Zaman,2019-02-05 It is time. It is time to free our voice. To speak is a revolution. For too long, through the most intimate acts of erasure, women have been silenced. Now, women everywhere are breaking through the limits placed on us by family, society, and tradition. To find our voices. To make space for ourselves in this world. Now is the moment to reclaim what was once lost, stolen, forsaken, or abandoned. I Am Yours is about my fight to protect and free my voice from those who have sought to silence me, for the sake of creating a world where all voices are welcome and respected. Because the voice, without intimacy, will atrophy. We're in this together. You are mine, and I am yours.

**Biography of Resistance** Muhammad H. Zaman,2020-04-21 Award-winning Boston University educator and researcher Muhammad H. Zaman provides a chilling look at the rise of antibiotic-resistant superbugs, explaining how we got here and what we must do to address this growing global health crisis. In September 2016, a woman in Nevada became the first known case in the U.S. of a person who died of an infection resistant to every antibiotic available. Her death is the worst nightmare of infectious disease doctors and public health professionals. While bacteria live within us and are essential for our health, some strains can kill us. As bacteria continue to mutate, becoming increasingly resistant to known antibiotics, we are likely to face a public health crisis of unimaginable proportions. "It will be like the great plague of the middle ages, the influenza pandemic of 1918, the AIDS crisis of the 1990s, and the Ebola epidemic of 2014 all combined into a single threat," Muhammad H. Zaman warns. The Biography of Resistance is Zaman's riveting and timely look at why and how microbes are becoming superbugs. It is a story of science and evolution that looks to history, culture, attitudes and our own individual choices and collective human behavior. Following the trail of resistant bacteria from previously uncontacted tribes in the Amazon to the isolated islands in the Arctic, from the urban slums of Karachi to the wilderness of the Australian outback, Zaman examines the myriad factors contributing to this unfolding health crisis—including war, greed, natural disasters, and germophobia—to the culprits driving it: pharmaceutical companies, farmers, industrialists, doctors, governments, and ordinary people, all whose choices are pushing us closer to catastrophe. Joining the ranks of acclaimed works like Microbe Hunters, The Emperor of All Maladies, and Spillover, A Biography of Resistance is a riveting and chilling tale from a natural storyteller on the front lines, and a clarion call to address the biggest public health threat of our time.

**Mediating Multiculturalism** Daniella Trimboli,2020-08-04 Using digital storytelling—a new media genre that began in California in the late 1990s and that proliferated across 'the West' in the 2000s—as a site of analysis, this book asks, 'What is done in the name of the everyday?' Like everyday multiculturalism, digital storytelling is promoted as an accessible, enabling, and ordinary phenomenon that represents cultural experience more accurately than official sites. As such, the genre frequently houses stories of migration, community, and ethnic and racial differences. In turn, digital story collections often act as digital monuments or repositories of multiculturalism, giving a digital life to narratives of migration, cultural difference, and national belonging. This is evidenced in one of the world's largest public collections of digital stories, found in the Australian Centre for the Moving Image (ACMI) and referenced throughout this book. Using examples from this collection and pointing to comparable ones in the UK and North America, this book investigates how notions of the

everyday become a channel through which certain long-standing discourses of race get redeployed in multicultural nations. What can digital storytelling teach us about the status and future of multiculturalism in these societies? Can digital storytelling re-mediate multiculturalism in new, progressive ways?

The Arabian Nights II ,1996 From the critically acclaimed translator of The Arabian Nights comes a volume of the four most popular later stories: Sindbad the Sailor, Ali Baba and the Forty Thieves, Aladdin and the Magic Lamp, and Qamar al-Zaman. Readers will discover in each a world of high flamboyance and startling beauty, humor, and magic, and lessons of loyalty and love's endurance.

*Scheherazade's Children* Philip F. Kennedy, Marina Warner, 2013-11-08 Scheherazade's Children gathers together leading scholars to explore the reverberations of the tales of the Arabian Nights across a startlingly wide and transnational range of cultural endeavors. The contributors, drawn from a wide array of disciplines, extend their inquiries into the book's metamorphoses on stage and screen as well as in literature—from India to Japan, from Sanskrit mythology to British pantomime, from Baroque opera to puppet shows. Their highly original research illuminates little-known manifestations of the Nights, and provides unexpected contexts for understanding the book's complex history. Polemical issues are thereby given unprecedented and enlightening interpretations. Organized under the rubrics of Translating, Engaging, and Staging, these essays view the Nights corpus as a uniquely accretive cultural bundle that absorbs the works upon which it has exerted influence. In this view, the Arabian Nights is a dynamic, living and breathing cross-cultural phenomenon that has left its mark on fields as disparate as the European novel and early Indian cinema. While scholarly, the writers' approach is also lively and entertaining, and the book is richly illustrated with unusual materials to deliver a sparkling and highly original exploration of the Arabian Nights' radiating influence on world literature, performance, and culture.

**When Mom's Away** Layla Ahmad, 2021-04-20 Things are changing for one little girl whose mom is a busy doctor. When her mom has to be in quarantine—sleeping on a cot in their garage to keep the family safe from the virus—the girl does her best to be brave. She and her dad spend time together, she goes to school online, and she helps her grandparents too...making sure to wave so they know it's her! They join their neighbours outside to thank the doctors and nurses around the world for their hard work. But of course the highlight of the day is when mom comes home, and they wave to each other through the window. A great story to inspire hope and confidence in both little ones and big ones when times may seem uncertain.

*The Arabian Nights Reader* Ulrich Marzolph, 2006 The Arabian Nights commands a place in world literature unrivaled by any other fictional work of Oriental provenance. Bringing together Indian, Iranian, and Arabic tradition, this collection of tales became popular in the Western world during the eighteenth century and has since exerted a profound influence on theater, opera, music, painting, architecture, and literature. The Arabian Nights Reader offers an authoritative guide to the research inspired by this rich and intricate work. Through a selection of sixteen influential and currently relevant essays, culled from decades of scholarship, this volume encompasses the most salient research topics to date, from the Nights' early history to interpretations of such famous characters as Sheherazade. While serious research on the Nights began early in the nineteenth century, some of the most puzzling aspects of the collection's complex history and character were solved only quite recently. This volume's topics reflect the makings of a transnational narrative: evidence of a ninth-century version of the Nights, the work's circulation among booksellers in twelfth-century Cairo, the establishment of a canonical text, the sources used by the French translator who introduced the Nights to the West and the dating of this French translation, the influence of Greek literature on the Nights, the genre of romance, the relationship between narration and survival within the plots, reception of the Nights from the nineteenth century onward, interpretations of single stories from the collection, the universal nature of the sexual politics surrounding Sheherazade, and the repercussion of the Nights in modern Arabic literature. As this collection demonstrates, the Arabian Nights helped

shape Western perceptions of the Orient as the quintessential Other while serving to inspire Western creativity. The research presented here not only deepens our insight into this great work but also heightens our awareness of the powerful communal forces of transnational narrative.

*A grammar of Kalamang* Eline Visser, This book is a grammar of Kalamang, a Papuan language of western New Guinea in the east of Indonesia. It is spoken by around 130 people in the villages Mas and Antalisa on the biggest of the Karas Islands, which lie just off the coast of Bomberai Peninsula. This work is the first comprehensive grammar of a Papuan language in the Bomberai area. It is based on eleven months of fieldwork. The primary source of data is a corpus of more than 15 hours of spoken Kalamang recorded and transcribed between 2015 and 2019. This grammar covers a wide range of topics beyond a phonological and morphosyntactic description, including prosody, narrative styles, and information structure. More than 1000 examples illustrate the analyses, and are where possible taken from naturalistic spoken Kalamang. The descriptive approach in this grammar is informed by current linguistic theory, but is not driven by any specific school of thought. Comparison to other West Bomberai or eastern Indonesian languages is taken into account whenever it is deemed helpful. Kalamang has several typologically interesting features, such as unpredictable stress, minimalistic give-constructions consisting of just two pronouns, aspectual markers that follow the subject, and the NP and predicate – rather than the noun and verb – as important domains of attachment. This grammar is accompanied by an openly accessible archive of linguistic and cultural material and a dictionary with 2700 lemmas. It serves as a document of one of the world's many endangered languages.

**We Wait for a Miracle** Muhammad H. Zaman, 2023-11-07 The story of how we treat refugees is a story about our own moral failings, and the barriers that refugees face in accessing health care can be as difficult to overcome as any other adversity in their path to stability. Around the world, millions are forcibly displaced by conflict, climate change, and persecution. Some cross international borders, while others are displaced within their own countries. In *We Wait for a Miracle*, Muhammad H. Zaman shares poignant stories across continents to highlight the health care experiences of refugees and forced migrants. For many of these people, health risks unfortunately become part of the fabric of everyday life as they navigate new countries that treat them with varying degrees of care and indifference. Across widely varied local systems, countries of origin, health concerns, and other contexts, Zaman finds that barriers to health care share these key factors: trust, social network, efficiency of the health system, and the regulatory framework of the host environment. A combination of these factors explains difficulties in accessing health care across the geographic and geopolitical spectrum and challenges the existing global public health framework, which is based entirely on local context. In moving stories that span seven countries—Sudan, South Sudan, Uganda, Zimbabwe, Pakistan, Colombia, and Venezuela—Zaman shares the everyday struggles of refugees, the internally displaced, and the stateless in accessing the health care they need. This unique look at an urgent global challenge addresses the issue of access for populations that are currently in distress due to civil war, economic collapse, or a conflict driven by external state actors. Organic social networks and trust, rather than top-down policies, are often what save the lives of migrants, refugees, and the stateless. Focusing on that trust—and its deficit—in camps, urban slums, hospitals, and clinics, Zaman combines personal and journalistic accounts of refugees with broad systemic analysis on global health care access to compare problems and solutions in different regions and provide holistic policy and practice recommendations for refugees, internally displaced persons, and stateless populations.
