**Sorting Things Out** Geoffrey C. Bowker, Susan Leigh Star, 2000-08-25 A revealing and surprising look at how classification systems can shape both worldviews and social interactions. What do a seventeenth-century mortality table (whose causes of death include fainted in a bath, frightened, and itch); the identification of South Africans during apartheid as European, Asian, colored, or black; and the separation of machine- from hand-washables have in common? All are examples of classification—the scaffolding of information infrastructures. In *Sorting Things Out*, Geoffrey C. Bowker and Susan Leigh Star explore the role of categories and standards in shaping the modern world. In a clear and lively style, they investigate a variety of classification systems, including the International Classification of Diseases, the Nursing Interventions Classification, race classification under apartheid in South Africa, and the classification of viruses and of tuberculosis. The authors emphasize the role of invisibility in the process by which classification orders human interaction. They examine how categories are made and kept invisible, and how people can change this invisibility when necessary. They also explore systems of classification as part of the built information environment. Much as an urban historian would review highway permits and zoning decisions to tell a city's story, the authors review archives of classification design to understand how decisions have been made. *Sorting Things Out* has a moral agenda, for each standard and category valorizes some point of view and silences another. Standards and classifications produce advantage or suffering. Jobs are made and lost; some regions benefit at the expense of others. How these choices are made and how we think about that process are at the moral and political core of this work. The book is an important empirical source for understanding the building of information infrastructures.

A Different Sort of Normal Abigail Balfe, 2021-07-22 'I REALLY love it. Buy it for your kids, your

parents, your grandparents. Mostly buy it for yourself' Holly Smale, author of the Geek Girl series 'This book is what I needed as a kid! Empathetic, joyful and beautifully authentic. I loved it!' Elle McNicoll, author of A Kind of Spark \*The beautiful true story of one girl's journey growing up autistic - and the challenges she faced in the 'normal' world\* I'm not like the other children in my class . . . and that's an actual scientific FACT. Hi! My name is Abigail, and I'm autistic. But I didn't know I was autistic until I was an adult-sort-of-person\*. This is my true story of growing up in the confusing 'normal' world, all the while missing some Very Important Information about myself. There'll be scary moments involving toilets and crowded trains, heart-warming tales of cats and pianos, and funny memories including my dad and a mysterious tub of ice cream. Along the way you'll also find some Very Crucial Information about autism. If you've ever felt different, out of place, like you don't fit in . . . this book is for you. \*I've never really felt like an actual-adult-person, as you'll soon discover in this book... 'Funny, fascinating . . . a rewarding and highly entertaining read' Guardian Told through the author's remarkable words, and just as remarkable illustrations, this is the book for those who've never felt quite right in the 'normal' world.

*Educated* Tara Westover, 2018-02-20 #1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University “Extraordinary . . . an act of courage and self-invention.”—The New York Times NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA’S FAVORITE BOOKS OF THE YEAR • BILL GATES’S HOLIDAY READING LIST • FINALIST: National Book Critics Circle’s Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the

mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara's older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she'd traveled too far, if there was still a way home. "Beautiful and propulsive . . . Despite the singularity of [Westover's] childhood, the questions her book poses are universal: How much of ourselves should we give to those we love? And how much must we betray them to grow up?"—Vogue NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • O: The Oprah Magazine • Time • NPR • Good Morning America • San Francisco Chronicle • The Guardian • The Economist • Financial Times • Newsday • New York Post • theSkimm • Refinery29 • Bloomberg • Self • Real Simple • Town & Country • Bustle • Paste • Publishers Weekly • Library Journal • LibraryReads • Book Riot • Pamela Paul, KQED • New York Public Library

**The Partisan Sort** Matthew Levendusky, 2009-12-15 As Washington elites drifted toward ideological poles over the past few decades, did ordinary Americans follow their lead? In *The Partisan Sort*, Matthew Levendusky reveals that we have responded to this trend—but not, for the most part, by becoming more extreme ourselves. While polarization has filtered down to a small minority of voters, it also has had the more significant effect of reconfiguring the way we sort ourselves into political parties. In a marked realignment since the 1970s—when partisan affiliation did not depend on ideology and both major parties had strong liberal and conservative factions—liberals today overwhelmingly identify with Democrats, as conservatives do with Republicans. This “sorting,” Levendusky contends, results directly from the increasingly polarized terms in which political leaders

define their parties. Exploring its far-reaching implications for the American political landscape, he demonstrates that sorting makes voters more loyally partisan, allowing campaigns to focus more attention on mobilizing committed supporters. Ultimately, Levendusky concludes, this new link between party and ideology represents a sea change in American politics.

**Bandage, Sort, and Hustle** Josh Seim, 2020-02-04 What is the role of the ambulance in the American city? The prevailing narrative provides a rather simple answer: saving and transporting the critically ill and injured. This is not an incorrect description, but it is incomplete. Drawing on field observations, medical records, and his own experience as a novice emergency medical technician, sociologist Josh Seim reimagines paramedicine as a frontline institution for governing urban suffering. *Bandage, Sort, and Hustle* argues that the ambulance is part of a fragmented regime that is focused more on neutralizing hardships (which are disproportionately carried by poor people and people of color) than on eradicating the root causes of agony. Whether by compressing lifeless chests on the streets or by transporting the publicly intoxicated into the hospital, ambulance crews tend to handle

suffering bodies near the bottom of the polarized metropolis. Seim illustrates how this work puts crews in recurrent, and sometimes tense, contact with the emergency department nurses and police officers who share their clientele. These street-level relations, however, cannot be understood without considering the bureaucratic and capitalistic forces that control and coordinate ambulance labor from above. Beyond the ambulance, this book motivates a labor-centric model for understanding the frontline governance of down-and-out populations.

*Identify and Sort* Josef Teboho Ansorge, 2016-06-20 The advent of information technology ushered in new forms of political power. Machines play crucial roles in how states see, understand, and act, and scrutiny of these processes lies at the heart of *Identify and Sort*. It frames debates about IT in world politics, explaining how industrial sorting systems employed by political actors are renegotiating the social contract between individuals and the state. Ansorge takes the reader on a global expedition that tracks the historical antecedents of digital power, from Aztec and Inca rituals, to medieval filing systems, to a grandiose 1930s design for a German registry, to the databases used in US presidential campaigns and how IT is deployed in war and post-conflict reconstruction. Databases are also deployed virtually to record and act upon people who have no publicly visible identification or group consciousness; modern wars and election campaigns are fought on this individualised terrain. The uneven distribution of these technical capacities engenders inequality of access, while rights discourses and legal frameworks forged in an era of mass group discrimination, subjugation, and public resistance lag behind these micro-targeting practices. Rich in examples and ideas, *Identify and Sort* develops an analytical model and vocabulary to explain the functions and limits of digital power in world politics.

**The Big Sort** Bill Bishop, 2009-05-11 The award-winning journalist reveals the untold story of why America is so culturally and politically divided in this groundbreaking book. Armed with startling demographic data, Bill Bishop demonstrates how Americans have spent decades sorting themselves into alarmingly homogeneous communities—not by region or by state, but by city and neighborhood. With ever-increasing specificity, we choose the communities and media that are compatible with our lifestyles and beliefs. The result is a country that has become so ideologically inbred that people don't know and can't understand those who live just a few miles away. In *The Big Sort*, Bishop explores how this phenomenon came to be, and its dire implications for our country. He begins with stories about

how we live today and then draws on history, economics, and our changing political landscape to create one of the most compelling big-picture accounts of America in recent memory.
