Calm Within the Storm Robyne Hanley-Dafoe,2021-03-23 Robyne Hanley-Dafoe, *Calm Within the Storm* – Won Silver in the Psychology/Mental & Emotional Well-Being category. A tender, powerful, and achievable path to the everyday resiliency we all need to navigate the uncertainty in our lives. An inspiring new voice in resiliency, Dr. Robyne Hanley-Dafoe believes that our modern conception of resiliency as “fighting” or being “tougher” is misguided. Learning happens when we are able to trust and feel safe; fear and shame are barriers, not facilitators, for authentic growth, acceptance, and change. In *Calm Within the Storm*, Dr. Robyne maps out a kinder approach to taking on the challenges of life and developing authentic self-alignment and balance. By focusing on research-informed, sustainable, and achievable personal development practices, Dr. Robyne presents a new, attainable model for everyday resiliency—one that everyone can use to feel more grounded and capable. She identifies the obstacles that derail us and keep us stuck, and shows us how to enact our resiliency through stories, research, and practical strategies.

The Storm Before the Calm George Friedman,2020-02-25 *One of Bloomberg's Best Books of the Year* The master geopolitical forecaster and New York Times bestselling author of *The Next 100 Years* focuses on the United States, predicting how the 2020s will bring dramatic upheaval and reshaping of American government, foreign policy, economics, and culture. In his riveting new book, noted forecaster and bestselling author George Friedman turns to the future of the United States. Examining the clear cycles through which the United States has developed, upheaved, matured, and solidified, Friedman breaks down the coming years and decades in thrilling detail. American history must be viewed in cycles—particularly, an eighty-year institutional cycle that has defined us (there are three such examples—the Revolutionary War/founding, the Civil War, and World War II), and a fifty-year socio-economic cycle that has seen the formation of the industrial classes, baby boomers, and the middle classes. These two major cycles are both converging on the late 2020s—a time in which many of these foundations will change. The United States will have to endure upheaval and possible conflict, but also, ultimately, increased strength, stability, and power in the world. Friedman's analysis is detailed and fascinating, and covers issues such as the size and scope of the federal government, the future of marriage and the social contract, shifts in corporate structures, and new cultural trends that will react to longer life expectancies. This new book is both provocative and entertaining.

Sorting Things Out Geoffrey C. Bowker,Susan Leigh Star,2000-08-25 A revealing and surprising look at how classification systems can shape both worldviews and social interactions. What do a seventeenth-century mortality table (whose causes of death include fainted in a bath, frightened, and itch); the identification of South Africans during apartheid as European, Asian, colored, or black; and the separation of machine- from hand-washables have in common? All are examples of classification—the scaffolding of information infrastructures. In *Sorting Things Out*, Geoffrey C. Bowker and Susan Leigh Star explore the role of categories and standards in shaping the modern world. In a clear and lively style, they investigate a variety of classification systems, including the International Classification of Diseases, the Nursing Interventions Classification, race classification under apartheid in South Africa, and the classification of viruses and of tuberculosis. The authors emphasize the role of invisibility in the process by which classification orders human interaction. They examine how categories are made and kept invisible, and how people can change this invisibility when necessary. They also explore systems of classification as part of the built information environment. Much as an urban historian would review highway permits and zoning decisions to tell a city's story, the authors review archives of classification design to understand how decisions have been made. *Sorting Things Out* has a moral agenda, for each standard and category valorizes some point of view and silences another. Standards and classifications produce advantage or suffering. Jobs are made and lost; some regions benefit at the expense of others. How these choices are made and how we think about that process are at the moral and political core of this work. The book is an important empirical source for understanding the building of information infrastructures.

Shelter in a Time of Storm Jelani M. Favors,2019-02-08 2020 Museum of African American History Stone Book Award 2020 Lillian Smith Book Award Finalist, 2020 Pauli Murray Book Prize For generations, historically Black colleges and universities (HBCUs) have been essential institutions for the African American community. Their nurturing environments not only provided educational advancement but also catalyzed the Black freedom struggle, forever altering the political destiny of the United States. In this book, Jelani M. Favors offers a history of HBCUs from the 1837 founding of Cheyney State University to the present, told through the lens of how they fostered student activism. Favors chronicles the development and significance of HBCUs through stories from institutions such as Cheyney State University, Tougaloo College, Bennett College, Alabama State University, Jackson State University, Southern University, and North Carolina A&T. He demonstrates how HBCUs became a refuge during the oppression of the Jim Crow era and illustrates the central role their campus communities played during the civil rights and Black Power movements. Throughout this definitive history of how HBCUs became a vital seedbed for politicians, community leaders, reformers, and activists, Favors emphasizes what he calls an unwritten second curriculum at HBCUs, one that offered students a grounding in idealism, racial consciousness, and cultural nationalism.

Anchors in the Storm Jessica Kane,2020-12 Anchors in the Storm is a book for children and families about loss and grief. It is a spiritual book that addresses difficult feelings in a way that encourages connection. In my experience, by talking about difficult feelings, we get to know our loved ones on a deeper level, a level that creates the very connections that really are everlasting. I hope this book can provide some comfort and connection for children and their families as they navigate trying times.

Fire, Storm and Flood James Dyke,2021-08-05 An unflinching photographic record of the epic effects of a violent climate, from the earliest extinction events to the present. Violent geologic events have ravaged the Earth since time began, spanning the vast eons of our planet's existence. These seismic phenomena have scored their marks in rock strata and been reflected in fossil records for future humanity to excavate and ponder. For most of the preceeding 78,000 years Homo sapiens simply observed natural climate upheaval. One hundred years ago, however, industrialization stunningly changed the rules, so that now most climate change is driven by us. *Fire, Storm and Flood* is an unflinching photographic record of the epic effects of a violent climate, from the earliest extinction events to the present, in which we witness climate chaos forced by unnatural global warming. It uses often emotional and moving imagery to drive home the enormity of climatic events, offering a sweeping acknowledgment of our crowded planet's heartbreaking vulnerability and show-stopping beauty.

The Storm-God and the Sea Noga Ayali-Darshan,2020-05-12 The tale of the combat between the Storm-god and the Sea that began circulating in the early second millennium BCE was one of the most well-known ancient Near Eastern myths. Its widespread dissemination in distinct versions across disparate locations and time periods - Syria, Egypt, Anatolia, Ugarit, Mesopotamia, and Israel - calls for analysis of all the textual variants in order to determine its earliest form, geo-cultural origin, and transmission history. In undertaking this task, Noga Ayali-Darshan examines works such as the Astarte Papyrus, the Pisaisa Myth, the Songs of Hedammu and Ullikummi, the Baal Cycle, Enuma elis, and pertinent biblical texts. She interprets these and other related writings philologically according to their provenance and comparatively in the light of parallel texts. The examination of this story appearing in all the ancient Near Eastern cultures also calls for a discussion of the theology, literature, and history of these societies and the way they shaped the local versions of the myth.
