Biology of Aging Roger B. McDonald,2019-06-07 Biology of Aging, Second Edition presents the biological principles that have led to a new understanding of the causes of aging and describes how these basic principles help one to understand the human experience of biological aging, longevity, and age-related disease. Intended for undergraduate biology students, it describes how the rate of biological aging is measured; explores the mechanisms underlying cellular aging; discusses the genetic pathways that affect longevity in various organisms; outlines the normal age-related changes and the functional decline that occurs in physiological systems over the lifespan; and considers the implications of modulating the rate of aging and longevity. The book also includes end-of-chapter discussion questions to help students assess their knowledge of the material. Roger McDonald received his Ph.D. from the University of Southern California and is Professor Emeritus in the Department of Nutrition at the University of California, Davis. Dr. McDonald's research focused on mechanisms of cellular aging and the interaction between nutrition and aging. His research addressed two key topics in the field: the relationship between dietary restriction and lifespan, and the effect of aging on circadian rhythms and hypothalamic regulation. Indigenous Law and Governance John Borrows,2017-09 Réprimé et fracturé par la répression et la méconnaissance coloniales, le droit des peuples autochtones est néanmoins une source d'autorité directrice à travers le pays. Malheureusement, la façon dont la Cour suprême conçoit la nature historique des droits des Premières Nations empêche la reconnaissance d'une plus grande force aux normes autochtones. Malheureusement, la force dont jouissent les normes autochtones demeure restreinte en raison de la façon dont la Cour suprême conçoit la nature historique des droits des Premières Nations. La distinction que fait la Cour entre les pratiques des peuples autochtones antérieures et postérieures au contact avec les Européens devrait être radiée de notre droit constitutionnel. Il faut éviter de confondre droit et histoire, surtout lorsqu'on se trouve dans un contexte qui demeure colonial. Afin de faciliter la reconnaissance de la gouvernance autochtone contemporaine, la priorité temporelle de la préséance des Premières Nations devrait être nuancée. L'avènement de la Déclaration des Nations Unies sur les droits des peuples autochtones pointe vers une réorientation de la jurisprudence canadienne en matière de droits autochtones et de rejeter les distinctions pré et post coloniales dans notre droit.-- Résumé de l'éditeur.

Rational Investing Hugues Langlois,Jacques Lussier,2017-03-07 Many investors believe that success in investing is either luck or clairvoyance. In Rational Investing, finance professor Hugues Langlois and asset manager Jacques Lussier present the current state of asset management and clarify the conundrum of luck versus skill. The core of Rational Investing is a framework for smart investing built around three performance drivers: balancing exposure to risk factors, efficiently diversifying bad luck, and taking advantage of relative mispricings in financial markets. With clear examples from model multi-asset-class portfolios, Langlois and Lussier show how to implement performance drivers like institutional investors with access to extensive resources, as well as nonprofessional investors who are constrained to small-scale transactions. There are few investment products, whether traditional or alternative, discretionary or systematic, fundamental or quantitative, whose performance cannot be analyzed through this framework. Langlois and Lussier illuminate the structure of financial markets and the mechanics of sustainable investing so any investor can become a rational player, from the nonprofessional investor with a basic knowledge of statistics all the way to seasoned investment professionals wishing to challenge their understanding of the asset management industry.

Arts of Engagement Dylan Robinson,Keavy Martin,2016-07-15 Arts of Engagement focuses on the role that music, film, visual art, and Indigenous cultural practices play in and beyond Canada's Truth and Reconciliation Commission on Indian Residential Schools. Contributors here examine the impact of aesthetic and sensory experience in residential school history, at TRC national and community events, and in artwork and exhibitions not affiliated with the TRC. Using the framework of "aesthetic action," the essays expand the frame of aesthetics to include visual, aural, and kinetic sensory experience, and question the ways in which key components of reconciliation such as apology and witnessing have social and political effects for residential school survivors, intergenerational survivors, and settler publics. This volume makes an important contribution to the discourse on reconciliation in Canada by examining how aesthetic and sensory interventions offer alternative forms of political action and healing. These forms of aesthetic action encompass both sensory appeals to empathize and invitations to join together in alliance and new relationships as well as refusals to follow the normative scripts of reconciliation. Such refusals are important in their assertion of new terms for conciliation, terms that resist the imperatives of reconciliation as a form of resolution. This collection charts new ground by detailing the aesthetic grammars of reconciliation and conciliation. The authors document the efficacies of the TRC for the various Indigenous and settler publics it has addressed, and consider the future aesthetic actions that must be taken in order to move beyond what many have identified as the TRC's political limitations.

My Journey Olivia Chow, 2014-01-21 Olivia Chow--Member of Parliament, seasoned politician and widow of former New Democratic Party leader Jack Layton--tells her story in this candid memoir What drives Olivia Chow? How did she emerge from a turbulent childhood to become an inspiring political force? What influences and events have shaped her life? And how is she continuing her quest after losing her partner in life and politics? When Olivia was thirteen, her middle-class family moved from Hong Kong to Toronto, but the transition was difficult. Her mother went from having a maid to being a maid. Her father failed to carve out a working life for himself in Canada. Frustrated and bitter, he lashed out at Olivia's mother, and violence darkened their lives. A rebellious yet playful child, Olivia discovered self-discipline and became an excellent student in Canada, studying fine art and philosophy at university. After graduating, Olivia worked for a time as a sculptor. Then, driven by a desire to achieve social change, the artist became an activist, and she launched her political career. As a popular and much-admired school trustee and Toronto city councillor--the first Asian woman in that role--Olivia honed a grassroots approach and crafted progressive programs that enhanced the lives of others, especially children. Strong-willed, focused and passionate, Olivia got things done by bringing together people from all parts of the political spectrum. In the mid-1980s, Olivia met Jack Layton. Their dynamic partnership, unprecedented in Canadian political life, made a powerful impact in Toronto and on the national stage. Together, they forged a strong vision for a better country and for enlightened political change. But when her beloved partner and political soulmate died in the summer of 2011, how did she find the strength to move forward? What might we learn from her inspiring story? Those answers are here, in *My Journey*.

Sonia Delaunay Cara Manes, Fátima Ramos, 2017-08-22 Sonia Delaunay made enormous contributions to the development of abstraction in the early 1900s. Sonia Delaunay: Art Is Life introduces young audiences to her art as Sonia and her six-year-old Charles embark on a magical road trip in their car, modelled after Sonia's 1925 design for a Citroën convertible. Together they glide into a landscape made up of colours and shapes drawn from Sonia's early abstract compositions - almost as if they've entered one of her paintings. Along the road, they make pit stops at 'sites' that inspired some of Sonia's key paintings of this period (such as the dance hall depicted in her 1913 work *Bal Bulier* and the open air Portuguese market that was the subject of her 1915 painting *Marché au Minho*). Sonia and Charles also explore her gorgeous and colourful designs for fabrics and clothing. Through these encounters, Sonia helps her son understand her artistic process of abstracting from reality by asking Charles what shapes and colours he discerns within these subjects. Their journey ends back in the real world, and Charles realizes that his mother's thinking about art permeates every aspect of their life.
