Barely able to pay the rent, Myriam secretly sleeps in the dining room and bathes in the kitchen sink, while struggling to come to terms with the painful memories of her past. Men, Addiction, and Intimacy Mark S. Woodford,2012-06-14 In the substance abuse and addiction treatment realm, males outnumber females two to one. While gender-issues are seen as a key element of women's treatment, the acknowledgement that males are gendered beings who have lived lives full of male-specific developmental challenges is often overlooked. This text takes a developmental lifespan approach to examine the neurobiological and psychosocial factors associated with substance use disorders for males, specifically in relation to emotional growth and awareness, and how these areas, in turn, affect the development of healthy relationships. Theoretical concepts from the field of interpersonal neurobiology, the psychology of boys and men, and the substance abuse and addiction literature are interwoven with practical clinical examples to help elucidate how the notion of fostering emotional development can strengthen the treatment and recovery processes with boys and men. Relevant case examples are included that illustrate work with males of all ages and address a variety of factors associated with culture, ethnicity, race, religion, and sexual orientation. Mental health practitioners will find this a valuable guide to understanding male development in relation to substance use and abuse and providing more comprehensive, gender-responsive counseling and assessment practices.

Flexible Working and Organisational Change Bram Peper,J. van Doorne-Huiskes,Laura den Dulk,2005-01-01 The central aim of this book is to consider to what extent changes in organisations and in the nature of jobs are compatible with the need, increasingly expressed by employees, for greater integration between work and family life. The book questions what sort of dilemmas modern and future employees face, in terms of shaping their careers and organising their lives at home. The authors formulate answers to these problematic questions by shedding light on relevant developments in the European labour markets, the European workplaces, in (flexible) working patterns, changing preferences for working hours and in gender relations at work..

The Magic of Saida M.G. Vassanji, 2013-03-05 Giller Prize-winner M. G. Vassanji gives us a powerfully emotional novel of love and loss, of an African/Indian man who returns to the town of his birth in search of the girl he once loved—and the sense of self that has always eluded him. Kamal Punja is a physician who has lived in Canada for the past forty years, but whom we first meet in a Tanzanian hospital. He is delirious and says he has been poisoned with hallucinogens. But when Kamal finds a curious and sympathetic ear in a local publisher, his ravings begin to reveal a tale of extraordinary pathos, complexity, and mystery. Raised by his African mother, deserted when he was four by his Indian father, married to a woman of Indian heritage, and the father of two wholly Westernized children, Kamal had reached a stage of both undreamed-of material success and disintegrating personal ties. Then, suddenly, he “stepped off the treadmill, allowed an old regret to awaken,” and set off to find the girl he had known as a child, to finally keep his promise to her that he would return. The girl was Saida, granddaughter of a great, beloved Swahili poet. Kamal and Saida were constant companions—he teaching her English and arithmetic, she teaching him Arabic script and Swahili poetry—and in his child’s mind, she was his future wife. Until, when he was eleven, his mother sent him to the capital, Dar es Salaam, to live with his father’s relatives, to “become an Indian” and thus secure his future. Now Kamal is journeying back to the village he left, into the maze of his long-unresolved mixed-race identity and the nightmarish legacy of his broken promise to Saida. At once dramatic, searching, and intelligent, *The Magic of Saida* moves deftly between the past and present, painting both an intimate picture of passion and betrayal and a broad canvas of political promise and failure in contemporary Africa. It is a timeless story—and a story very much of our own time.

The Cleaner 3: The Jacket Inger Gammelgaard Madsen, 2019-07-08 Bertram is afraid to go to the police and tell them what he found in the stolen jacket, as he is a wanted criminal and does not want anything to do with law enforcement. He tries calling anonymously one evening, while drunk and after smoking a couple of joints, but the police refuse to believe him. When Bertram later discovers that his mum is in danger for her life, he tries to warn her, but she does not believe him either. He begins following her, and finds out that she is meeting with a man he does not recognise. When Bertram asks her who he is, she finally admits that he is her boyfriend, and that they are planning on moving away from the neighbourhood and starting a new life together. Bertram decides to find out where he lives, and breaks in to find out what he can about him. As he goes through the man’s belongings, he finds a collection of fake passports, and a photograph of the man wearing the stolen leather jacket. *The Cleaner* is a crime drama in six episodes. Inger Gammelgaard Madsen (b. 1960) is a Danish writer. Inger Gammelgaard Madsen has a background as a graphical designer. She debuted with the crime *Dukkebarnet* in 2008.
