and those who are interested in the region. It will guide you through in a very readable and engaging style as it covers all the salient points and issues of the North Caucasus (the autonomous republics) succinctly and the South Caucasus (Azerbaijan, Georgia, Armenia) in detail. After the last development and Russian direct involvement in the Karabakh issue, the world's attention has focused increasingly on the Caucasus region. Thus, THE CHANGING PERSPECTIVES AND 'NEW' GEOPOLITICS OF THE CAUCASUS IN THE 21ST CENTURY book will be an excellent introduction to the complexities of a little-known the Caucasus region and make a significant contribution to the understanding of fundamental issues of the region. As the editors, we would like to dedicate this book to the heroic Azerbaijani soldiers who were martyred during the struggle for the liberation of the Karabakh lands from the Armenian occupation.

*Diaspora Engagement in Times of Severe Economic Crisis* Othon Anastasakis, Manolis Pratsinakis, Foteini Kalantzi, Antonis Kamaras, 2022-06-19 How does a severe economic crisis impact on diaspora-homeland relations? The present volume addresses this question by exploring diaspora engagement in Greece during the protracted post-2009 eurozone crisis. In so doing, it looks at the crisis as a critical juncture in Greece's relations with its nationals abroad. The contributors in this book explore aspects of diaspora engagement, including transnational mobilisation, homeland reform, the role of diasporic institutions, crisis driven migration, as well as, comparisons with other countries in Europe. This book provides a compelling and original interdisciplinary study of contemporary diaspora issues, through the lens of an advanced economy and democracy facing a prolonged crisis, and, as such, it is a significant addition to the literature on European diasporas.

*SARS-CoV-2 and Coronacrisis* Fr archpriest Evgeny I. Legach, Konstantin S. Sharov, 2021-07-28 This book is useful for administrators of different levels involved in counteracting COVID-19, surveillance professionals, clinicians, researchers specializing in epidemiology, microbiology, and infectious diseases, and politicians / legislators engaged in public health sector. We use an innovative approach of combining both epidemiological and sociological analyses, as the very problem is mainly an issue of correct governance. A team of authors from Europe, Russia and China summarizes their experience and knowledge useful for containing SARS-CoV-2 and overcoming social and managerial consequences of the pandemic. The editors are sure that sharing our different experience would help to elaborate necessary strategies, protocols, and principles that may be effectively applied in the future to avoid dramatic consequences of not only COVID-19 but also any possible epidemiological hazards for people and medicine.

**Insight Turkey / Spring 2019 - The Balkans At a Crossroads** , Since the disintegration of the Ottoman State, the Balkan region is one of the most penetrated, divided, and unstable regions in the world. Therefore, the term Balkanization, which has a strong negative connotation, began to refer to the division of a larger region into many small and hostile political entities and the instability of the region as a result of many ethnic and religious movements and conflicts. Ironically, in today's unstable world, the Balkans is relatively stable and peaceful, especially compared with the chaotic Middle East. However, the current peaceful atmosphere is quite vulnerable and fragile; it seems that historical hatred and enmity may restart anytime. Unfortunately, today there are many uncertainties in the Balkans and hence the region is at a new crossroads, not only at the domestic level, but also at the international level. At the domestic level, the Balkan countries are in a longtime transitory period and so far, the regional countries could not complete this process. On the one hand, most of the countries in the region have not finished their state transformation and institutionalization processes as yet. They need to accelerate their respective reformist policies and complete their respective transition periods. In particular, legal changes are required to consolidate their state institutions. The most dramatic example is the complex

political and administrative structure in Bosnia and Herzegovina, which has never functioned well since its establishment by the Dayton Agreement. Due to the veto power of the three main ethnic groups, namely Bosnians, Serbs, and Croats, in the legislative and administrative institutions at different levels of government, it is almost impossible to make necessary decisions to govern the country. In order to get rid of the administrative deadlock, they must take confidence building measures and establish a functional state system. On the other hand, the Balkan countries have many economic problems such as poverty, unemployment, underdevelopment, and emigration. There are too many structural economic problems, but they have too few resources to mobilize. Because of the high unemployment rate, most of the qualified population of the Balkan countries migrates to the developed European countries such as Italy, Germany, and Switzerland. As a result of many detrimental developments in social and political life including ethnic tensions, population problems, and unemployed youth, the future of the Balkan states is still ambiguous. At the regional level, the Balkan countries have been experiencing many problems emanating from the dismemberment of the region during the modern period. The Balkans was politically divided twice: the first time (the collapse of the Ottoman State) was in the late-19th and early-20th centuries, and the second (the collapse of Yugoslavia) was in the late 20th century. After the disintegration of Yugoslavia, national and ethnic enmities were renewed and quickly resulted in severe violent clashes, mass killings, including the genocide in Bosnia and Herzegovina. A number of regional issues have remained unsolved and the initiated solution processes were stopped. One of the main regional crises is the normalization of relations between Serbia and Kosovo. The EU stipulates the normalization with Kosovo as a precondition of Serbia's accession to the Union. Unless it recognizes the state of Kosovo, it is impossible for Serbia to become a full member of the EU. However, for the moment, there is no concrete improvement in the Belgrade-Pristina dialogue process. In spite of the continuance of negative relations among some regional actors, there are some positive developments as well. The solution of the Macedonian name dispute in 2018 was a historical moment for the region, because it demonstrated that the regional states have an intention to solve political problems and provide alternative solutions. At the global level, the Balkan region continues to attract many global powers such as the U.S., the EU, China, and Russia. Each global power has its own strategy and perception of the region. The most involved global actor is the EU, who wants to integrate the region with itself and thus bring stability and peace to this contiguous region. Therefore, after the regional stability was secured with the support of the global powers, most Balkan countries began to develop cooperative relations with the EU and its leading member states, because the first priority and strategic preference of most Balkan countries is the integration with the EU. Their expectations from the EU membership are economic prosperity and the prevention of future regional clashes. On the other hand, the U.S. has been trying to integrate the Balkan countries with NATO, thus decreasing the influence of other global powers. Besides Greece which became a member in 1952, six Balkan countries, namely Bulgaria, Romania, Albania, Croatia, Slovenia, and Montenegro, have also more recently become NATO members. Some other countries such as North Macedonia and Bosnia and Herzegovina are in the accession process. NATO membership, together with the EU membership, is the most important positive agenda of the Balkan countries. Russia has had an imaginary vision and historical patronage over the Balkans since the second half of the 19th century. Religious, ethnic, and linguistic affinity was the main motivation for Russia to improve its relations with the region, which was an alternative route for reaching the warm seas. However, nowadays Russia faces challenges from the Western countries, who have taken the lead in the region. The integration process with both the EU and NATO limited the Russian influence in the Balkans. Furthermore, Russia has insufficient resources to solve the domestic political and economic problems of the regional countries. Another

global power that has begun to show up in the region is China. The Chinese presence in the Balkans is mainly in the economic sphere, especially its investments in infrastructure and energy sectors. Compared with the other three global actors, the Chinese role in the region is quite limited. The Balkans is almost at the heart of the European continent; therefore, it is very difficult for China to influence regional politics as much as the Western countries. However, since the Balkans is a penetrated region, the impact of global rivalry is very noticeable in the region. The conflictual policies of global powers may activate the dormant regional fault lines and trigger the renewal of ethnic and religious conflicts. This new issue of *Insight Turkey* brings to the readers various manuscripts which touch upon domestic and regional issues and the impact of the external actors, i.e. EU, NATO, Russia, China, and Turkey, in the Balkans. As mentioned above, the normalization of the relations between Kosovo and Serbia are crucial for the region as it may prove to be a regional destabilizer in the future. This issue gained more attention after the discussions on a possible territorial exchange between the two states. Aleksander Zdravkovski and Sabrina P. Ramet discuss this topic through historical and political lenses and contend that this process can have serious repercussions, both in the Western Balkans and internationally. The name dispute between North Macedonia and Greece is another important topic that impacts the whole Balkans region. In their commentaries, Cvete Koneska and Zhidas Daskalovski bring different perspectives on this issue, yet both of them raise questions regarding the success of the agreement. Albania is one of the most important states in the region and in recent years has been suffering from political turmoil and economic downturn which can very easily be translated into regional instability. Isa Blumi in his article analyses the role of the U.S., NATO, and the EU in the Albanian slide and cautions that the current situation may turn violent. Croatia, another important state in the Balkans considering its experience with the EU, is at the center of Senada Šelo Šabić and Emir Suljagić's articles. Croatia joined the EU in 2013 and this was considered an important step for all the Western Balkans because Croatia would serve as an example for their accession. However, Senada Šelo Šabić contends that Croatia's experience of the EU accession and membership is only partially relevant for the Western Balkans' EU enlargement, mainly due to its domestic issues. Emir Suljagić, on the other hand, focuses on the Croatian interference in Bosnia and Hercegovina and brings to the readers a new viewpoint in terms of the "otherization" of Bosnia's Muslim population. In order to explain this, Suljagić uses the notion of *antemurale Christianitatis*, which has been visible in Croatian politics since the 15th century. The external interventions have never been missing in the Balkans. Especially since the dissolution of Yugoslavia, transatlantic relations have become crucial for the region. In this context, Oya Dursun-Özkanca's article argues that NATO accession acts as a prelude to the eventual EU accession, ensuring that the countries stay the course of engaging in reforms and contributing to Euro-Atlantic security while confirming their commitment to democracy. Yet, in recent years, other actors –Russia, China, and Turkey– have started to play an important role in the region, both politically and economically. While a withdrawal of Russia came to the fore after the fall of communism in the Balkans, lately it is trying to regain position in the region. Vsevolod Samokhvalov in his article argues that Russia and the Balkan states are exploring new ways of cooperation considering that Russia is applying a more assertive foreign policy, while the Balkan states are being more pragmatic. China is not lagging behind Russia in the Balkans; yet it is following a different path from Russia as China is acting generally on economic grounds. Within this framework, Liu Zuokui analyses China's investments in the Balkans and its impact in the region. Lastly, Turkey is one of the main countries whose role in the region is increasing day by day. The commentary of Mehmet Uğur Ekinci provides a comprehensive analysis of Turkey's Balkans policy; while Ilya Roubanis discusses Turkey's role in the Balkans as part of the broader narrative of European integration. Yet, Turkey's policies in the Balkans have not been

unchallenged by other powers. The EU and especially Germany have started to see Turkey as an emerging threat in the region, especially in terms of economy. Elif Nuroğlu and Hüseyin H. Nuroğlu focus exactly on this issue and argue that even while currently the commercial competition between Turkey and Germany in the Balkans is not serious; in the forthcoming years Turkey has the potential to be a serious competitor to Germany. Religion is an important aspect of Turkey's foreign policy; yet, this is true for Saudi Arabia as well. Focusing on the case of Bulgaria, Ismail Numan Telci and Aydzhan Yordanova Peneva evaluate the activities of Turkey and Saudi Arabia in the religious sphere. By doing so, the article explains the motivations behind such actions and addresses the impact of this activism on the Bulgarian society. The last article of this issue is that of Muhidin Mulalic, where he evaluates the trilateral relations between Turkey, Serbia, and Bosnia and Herzegovina and concludes that this tripartite diplomatic relation has been quite successful and has resulted in successful economic and trade cooperation. To conclude, the Balkans once considered as a powder keg is currently in a state of relative stability. Yet, this stability to some extent is threatened by the internal domestic and regional issues. Concurrently, the Balkans strategic position attracts external powers to intervene in the regional affairs. All this considered, the Balkan states find themselves at a crossroads and consequently are trying to create a balance between their domestic, regional, and international affairs. This issue of Insight Turkey aims at analyzing the above mentioned issues and provide to its readers a general framework of the most important and current events in the Balkans.

**Russian Information Warfare** Bilyana Lilly, 2022-09-15 Russian Information Warfare: Assault on Democracies in the Cyber Wild West examines how Moscow tries to trample the very principles on which democracies are founded and what we can do to stop it. In particular, the book analyzes how the Russian government uses cyber operations, disinformation, protests, assassinations, coup d'états, and perhaps even explosions to destroy democracies from within, and what the United States and other NATO countries can do to defend themselves from Russia's onslaught. The Kremlin has been using cyber operations as a tool of foreign policy against the political infrastructure of NATO member states for over a decade. Alongside these cyber operations, the Russian government has launched a diverse and devious set of activities which at first glance may appear chaotic. Russian military scholars and doctrine elegantly categorizes these activities as components of a single strategic playbook —information warfare. This concept breaks down the binary boundaries of war and peace and views war as a continuous sliding scale of conflict, vacillating between the two extremes of peace and war but never quite reaching either. The Russian government has applied information warfare activities across NATO members to achieve various objectives. What are these objectives? What are the factors that most likely influence Russia's decision to launch certain types of cyber operations against political infrastructure and how are they integrated with the Kremlin's other information warfare activities? To what extent are these cyber operations and information warfare campaigns effective in achieving Moscow's purported goals? Dr. Bilyana Lilly addresses these questions and uses her findings to recommend improvements in the design of U.S. policy to counter Russian adversarial behavior in cyberspace by understanding under what conditions, against what election components, and for what purposes within broader information warfare campaigns Russia uses specific types of cyber operations against political infrastructure.

**Popular Biopolitics and Populism at Europe's Eastern Margins** Andrey Makarychev, 2022-03-16 In this groundbreaking book, Andrey Makarychev approaches populism through a critical biopolitical lens and shows that populist narratives are grounded intrinsically in corporeality, sexuality, health, bodily life and religious practices. The author demonstrates that populism is a phenomenon deeply

rooted in mass culture. He compares three countries -- Estonia, Ukraine and Russia--that all share post-Soviet experiences offering a broad spectrum of populist discourses. The three case studies display the interconnection between biopower and populism through references to culture, media, art, theatrical performances and literature, raising new questions and directions for understanding traditional accounts of populism. This work was supported by European Union's Horizon 2020 research and innovation programme under grant agreement No. 822682: Populist rebellion against modernity in 21st-century Eastern Europe: neo-traditionalism and neo-feudalism – POPREBEL.

**The Donbas Conflict in Ukraine** Daria Platonova, 2021-09-28 This book examines why, when the conflict in eastern Ukraine began in 2014, fighting broke out in the Donetsk region, whereas it did not in Kharkiv city, despite the city, like the Donetsk region, being geographically proximate to Russia and similar in ethnic and linguistic make up. Based on extensive original research, the book argues that a key factor was the nature and behaviour of local elites, with those in Kharkiv having diffuse ties to the centre and therefore being more capable of adapting to sudden, profound regime change at the centre, whereas the elites in the Donetsk region had much more concentrated ties to the centre, were dependent on one network, and therefore were much less able to cope with change. The book thereby demonstrates how crucial for Ukraine are patronal politics, patronage networks, and informal centre-region relations, and that it was these local political circumstances, rather than Russia, which brought about the conflict.

Emigration and Diaspora Policies in the Age of Mobility Agnieszka Weiner, 2017-07-05 This volume examines the ways different countries around the world have responded to rising numbers of mobile citizens. Complete with detailed case studies, it provides a groundbreaking and global analysis of emigration and diaspora policies in the 21st century. First, an introduction considers factors that determine a state's policy choices. It draws on rich empirical material to present readers with information on the determinants of policy definition and implementation, reactions to emigration, and converging and diverging trends. Next, the volume offers detailed case studies from 15 countries around the world, including Argentina, Vietnam, Senegal, the Russian Federation, Denmark, and Turkey. Coverage for each country critically analyzes its emigration or diaspora policies as well as how these policies affect its mobile citizens. The contributors also place the policies in context and explore the consequences of pertinent rules and provisions. In addition, a conclusion presents a comparative analysis of all case studies as well as details a set of best practices. Emigration and immigration are two sides of the same coin that every country experiences and, in one way or the other, must face. This book offers readers a new look on diaspora and emigration governance across the globe and explores the future paradigm of reactions to emigration.

Nutrition and HIV/AIDS Nancy Dumais, 2020-04-29 This edited volume, "Nutrition and HIV/AIDS - Implication for Treatment, Prevention and Cure", is a collection of reviewed and relevant research chapters, offering a comprehensive overview of recent developments in the field. The book comprises single chapters authored by various researchers and edited by an expert active in the research area. All chapters are complete in themselves but united under a common research study topic. This publication aims at providing a thorough overview of the latest research efforts by international authors and opening new possible research paths for further novel developments.

Youth in Putin's Russia Elena Omelchenko, 2021-12-02 This edited volume sheds light on the lives of young people in various central and peripheral regions of Russia, including youth belonging to different ethnic and religious groups and who have differing views on contemporary politics. While the literature continues to grow regarding the inclusion of youth in global contexts, the specific cultural,

political, and economic circumstances of being young in Russia make the Russian case unique. Chapter authors focus on four key aspects that characterize the youth experience in contemporary Russia: cultural practices and value affiliations, citizenship and patriotism, ethnic and religious diversity, and the labor market. This collection will appeal to readers interested in contemporary life in Russia and looking for the latest empirical material on youth identities and cultures, as well as those looking to learn about the critical viewpoint of local academics regarding the ongoing processes in contemporary Russian society.

Green Finance and Investment Promoting Clean Urban Public Transportation and Green Investment in Kazakhstan OECD,2017-10-24 This report discusses the main results of a project on how to reduce air pollution from urban public transport in Kazakhstan, by providing an analysis for designing a green public investment programme in this sector.

**Bringing Global Governance Home** Laura A. Henry,Lisa McIntosh Sundstrom,2021-10-07 The world's problems--climate change, epidemics, and the actions of multinational corporations--are increasingly global in scale and beyond the ability of any single state to manage. Since the end of the Cold War, states and civil society actors have worked together through global governance initiatives to address these challenges collectively. While global governance, by definition, is initiated at the international level, the effects of global governance occur at the domestic level and implementation depends upon the actions of domestic actors. NGOs act as mediators between global and domestic political arenas, translating and adapting global norms for audiences at home. Yet the role of domestic NGOs in global governance has been neglected relatively in previous research. *Bringing Global Governance Home* examines how NGO engagement at the global level shapes domestic governance around climate change, corporate social responsibility, HIV/AIDS, and sustainable forestry. It does so by comparing domestic reception of global standards and practices in the BRICS states (Brazil, Russia, India, China, and South Africa). These newly emerging global powers, representing a range of regime types, aspire to become global policy makers rather than mere policy takers and have banded together through periodic summits to devise alternative approaches to economic development and global challenges. Nevertheless, these countries still engage the world primarily through existing global governance institutions that they did not create themselves. Ultimately, this book explores the interplay of international and domestic factors that allow domestically-rooted NGOs to participate globally, and the extent to which that participation shapes their ability to mediate and promote global governance perspectives within the borders of their own countries with varying regimes and state-society relations.

*Circassia and Ukraine* Adel Bashqawi,2023-08-23 In light of the war of extermination that waged against Ukraine, the aggression is a typical scorched-earth policy. Genocide, ethnic cleansing, and forced deportation committed in the nineteenth century in Circassia are similar to Russia's war in Ukraine since February 24, 2022. The book reminds of dozens of peoples and nations eager to restore their confiscated rights since the dissolution of the Soviet Union until now. It is divided into time periods (chapters). It touches on articles, studies, prominent occasions, developments, events, and commemorations that occurred during the mentioned period. What happened in the past and is developing nowadays necessitated the documentation, showing and exposing facts and events, which will set the record straight. Where actions speak louder than words, this confirms an undeniable reality. With peoples deprived of their rights, the Russian state did not care so far for mending fences and reconciling for peace and fairness. That confirms an undeniable fact, which is that the Russian state has not cared so far to carry out the duty entrusted to it in order to correct what the successive Russian regimes have committed against the Circassian nation and other victims of wars, occupation, genocide, deportation, and forced annexation.

Turkey and the Balkans Başak Z. Alpan, Ahmet Erdi Öztürk, 2022-12-26 This book delves into Turkey's increasing ethno-religious, pragmatic, and complicated involvement and activism in the Balkans since 2002, under the Justice and Development Party (Adalet ve Kalkınma Partisi – AKP). It primarily focusses on the intersectionality between domestic and foreign policy that has played an important role in Turkey's recent relations with the Balkan countries as well as exploring how the Europeanisation process influences this relationality. Broadly, the chapters in this volume posit that religion, ethnicity and kin politics are indispensable components of identity politics and have the capacity to transform Turkey's foreign policy attitudes as well as the orientations of the Balkan countries. The book also asserts that the impact of the processes of Europeanisation and de-Europeanisation on the relationship between Turkey and the Balkans needs to be included into the analysis. This book will be useful to students, researchers and academics interested in Politics, International Relations and Southeast European Studies. The chapters in this book were originally published as a special issue of Southeast European and Black Sea Studies.

## %D0%9D%D0%BE%D0%B2%D0%BE%D0%B3%D0%BE%D0%B4%D0%BD%D0%B8%D0%B5 Introduction

In the digital age, access to information has become easier than ever before. The ability to download

- %D0%9D%D0%BE%D0%B2%D0%BE%D0%B3%D0%BE%D0%B4%D0%BD%D0%B8%D0%B5

 has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download

- %D0%9D%D0%BE%D0%B2%D0%BE%D0%

B3%D0%BE%D0%B4%D0%BD%D0%B8%D0%B5 has opened up a world of possibilities. Downloading %D0%9D%D0%BE%D0%B2%D0%BE%D0%B3%D0%BE%D0%B4%D0%BD%D0%B8%D0%B5 provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading %D0%9D%D0%BE%D0%B2%D0%BE%D0%B3%D0%BE%D0%B4%D0%BD%D0%B8%D0%B5 has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download %D0%9D%D0%BE%D0%B2%D0%BE%D0%B3%D0%BE%D0%B4%D0%BD%D0%B8%D0%B5. These websites range from academic databases offering research papers and journals to online libraries with

an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading %D0%9D%D0%BE%D0%B2%D0%BE%D0%B3%D0%BE%D0%B4%D0%BD%D0%B8%D0%B5. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading %D0%9D%D0%BE%D0%B2%D0%BE%D0%B3%D0%BE%D0%B4%D0%BD%D0%B8%D0%B5, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the

websites they are downloading from. In conclusion, the ability to download %D0%9D%D0%BE%D0%B2%D0%BE%D0%B3%D0%BE%D0%B4%D0%BD%D0%B8%D0%B5 has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
