Starlight and Stargazers Helena Goscilo, 2024-05-21 Celebrification has thrived for centuries in literature, theater, music, and other cultural spheres, as vividly illustrated by Byron, Sarah Bernhardt, and Paganini. It especially effloresced in cinema after the symbolically named Lumière brothers pioneered movies as light-projected “moving life” to be contemplated and shared in the intimate darkness of theaters. Actors and actresses such as Valentino and Garbo acquired the status of divine beings whose life on and offscreen stimulated fascination and a passionate devotion most frequently invested in religious figures. The recent explosion in social media has only amplified immeasurably the scale and intensity of that adulation. Yearning for the seemingly transcendent, fans as mere mortals seek contact with celebrities as objects of worship that, like nocturnal stars, are simultaneously remote yet accessible. *Starlight and Stargazers* examines the multifaceted nature and specific manifestations of film celebrification in Czechoslovakia/the Czech Republic, Poland, Soviet Russia/Russia, and Ukraine before and after 1991

Empowering People Peter Konetchy, 2012-02-21 This book strives to explain how a free people are more than able to provide for their own needs infinitely better than any conceivable government program. Within its pages I unveil my One-Eight, One-Nine plan to Empower People through Restrained Government. It's a two part plan which addresses both the function and finance of the federal government by insisting upon adherence to existing Constitutional provisions. Government leaders fear it. One-Eight deals with function. It refers to Article 1 Section 8 of the Constitution which specifically enumerates the powers authorized to be performed by congress. The plan seeks to awaken the people of the United States to the enormous benefits to society derived from our extremely limited Constitutional government, and insist that the federal government adhere to and honor its specific enumerated duties. We accomplish this task by educating ourselves and monitoring those we elect to office to ensure they follow the Constitution. Those which don't must be voted out. One-Nine deals with financing. It refers to Article 1 Section 9 which specifically states that money may only be drawn from the federal treasury to pay for enumerated Constitutional

functions. All spending outside this authority is unconstitutional. Implementing the Constitutional provisions of One-Eight, One-Nine is achieved through my Negative Baseline program. Current policy automatically increases annual spending on non-Constitutional programs through baseline budgeting. My Negative Baseline instead reduces this spending causing all non-Constitutional spending to simply fade away. Contrary to popular belief, I discuss how the reductions will be relatively painless. Unneeded federal employees, as well as those dependant on the federal government, will be enthusiastically absorbed by a revitalized free market. The only way to solve our nation's problems is through an educated electorate desiring to replace self serving politicians with those wishing to truly secure our liberty.

The House of Government Yuri Slezkine, 2017-08-07 On the 100th anniversary of the Russian Revolution, the epic story of an enormous apartment building where Communist true believers lived before their destruction *The House of Government* is unlike any other book about the Russian Revolution and the Soviet experiment. Written in the tradition of Tolstoy's *War and Peace*, Grossman's *Life and Fate*, and Solzhenitsyn's *The Gulag Archipelago*, Yuri Slezkine's gripping narrative tells the true story of the residents of an enormous Moscow apartment building where top Communist officials and their families lived before they were destroyed in Stalin's purges. A vivid account of the personal and public lives of Bolshevik true believers, the book begins with their conversion to Communism and ends with their children's loss of faith and the fall of the Soviet Union. Completed in 1931, the House of Government, later known as the House on the Embankment, was located across the Moscow River from the Kremlin. The largest residential building in Europe, it combined 505 furnished apartments with public spaces that included everything from a movie theater and a library to a tennis court and a shooting range. Slezkine tells the chilling story of how the building's residents lived in their apartments and ruled the Soviet state until some eight hundred of them were evicted from the House and led, one by one, to prison or their deaths. Drawing on

letters, diaries, and interviews, and featuring hundreds of rare photographs, The House of Government weaves together biography, literary criticism, architectural history, and fascinating new theories of revolutions, millennial prophecies, and reigns of terror. The result is an unforgettable human saga of a building that, like the Soviet Union itself, became a haunted house, forever disturbed by the ghosts of the disappeared.
