Global Governance and Interaction between International Institutions Alexander Libman, Anastassia Obydenkova,2023-09-26 This book builds on theory of authoritarian regionalism and is the first attempt to analyse the interaction of authoritarian regional organizations in Eurasia with their global and regional counterparts (NATO, EU, WTO, IMF etc.). It analyses three decades of the development of post-Soviet regional organizations prior to the tectonic geopolitical and security changes of 2022. Eurasian regional organizations created by Russia have been frequently perceived as attempts to establish 'alternatives' to the global governance institutions and to compete with other regional organizations like, for example, the European Union (EU). They are seen as a pronounced example of 'authoritarian regionalism', i.e., regional organizations established by non-democracies. The way they interact with global and regional institutions has, however, remained understudied. This book aims to close this gap. It places Eurasia within a global context and considers similar trends world-wide as well as outlines the agenda for future studies of global versus regional governance. The book sheds light on long-term strategies of Russia in Eurasia, in global economy and in world politics, and on the interaction between Russia and other post-Soviet states. With an extended introduction and conclusion, this book is an insightful resource for scholars; advanced students; and researchers of politics, international relations, and Eurasian area-studies. The chapters in this book were originally published as a special issue of Post-Communist Economies.

COVID-19 and a World of Ad Hoc Geographies Stanley D. Brunn, Donna Gilbreath,2022-09-15 This book provides an interdisciplinary overview of the causes and impacts of COVID-19 on populations, economies, politics, institutions and environments from all world regions. The book maps the causes, effects and impacts of the virus and describes the impact of the virus on among others health care, teaching and learning, travel, tourism, daily life, local and regional economies, media impacts, elections, and indigenous populations and much more. Contributions to this book come from the humanities, social and policy science disciplines as well as from emerging transdisciplinary fields including climate change, sustainability, health care and epidemiology, security, art, visualization, economic and social well-being, law and borderland studies. As such, this book will be a rich source of information to all those geographers, social scientists and urban and regional planners working in this field.

Comparative Genomics Craig Nelson, Stéphane Vialette, 2008-10-06 This book constitutes the refereed proceedings of the 6th RECOMB Comparative Genomics Satellite Workshop, RECOMB-CG 2008, held in Paris, France, in October 2008. The 19 revised full papers presented were carefully reviewed and selected from 48 initial submissions. The papers illustrate the crucial role of comparative genomics in understanding genome function and address a broad variety of aspects, ranging from the inference of evolution in genetic regulatory networks to the divergent fates of gene and genome duplication events and to the importance of new computational approaches to unraveling the structural evolution of genomes.

Jihadism in the Russian-Speaking World Danis Garaev, 2022-08-29 This book contends that the discourses of jihadism in Russia's North Caucasus, and their offshoots in other parts of the Russian Federation, are not just reflections of jihadi ideologies that came from abroad, rather that post-Soviet jihadism is a phenomenon best understood when placed in the broader cultural environment in which it emerged, an environment which comprises the North Caucasus, the whole of Russia, and beyond. It examines how post-Soviet jihadism is also part of global processes, in this case, global jihadism, explores how post-Soviet jihadism bears the imprint of the preceding Soviet context especially in terms of symbols, discursive tools, interpretational frameworks, and dissemination strategies, and discusses how, ironically, Russian-speaking jihadism is an expansionist idea for uniting all Russian regions on a supra-ethnic principle, but an idea that was not born in Moscow or St. Petersburg. Overall, the book demonstrates that Russian-speaking jihadism is a completely new ideology, which nevertheless has its origins in the intellectual and cultural heritage of the Soviet era and in the broader trends of post-Soviet society and culture.

Time Out Rome Editors of Time Out, 2011-08-03 Written by local experts, Time Out Rome provides extensive coverage of the major sights — and then goes much further. Featuring everything from born-again trattorie to the burgeoning aperitif trend, it offers visitors the chance to experience the Eternal City as the Romans do. History in Rome is not confined to museums, basilicas and galleries — it tumbles out everywhere. And though the city is reassuringly compact, this does not stop the cultural onslaught from

being utterly bewildering and exhausting. While some travelers may have to face the fact that they probably won't see everything, it is also important not to shut oneself up inside all day looking at collections and sites or you will miss all that the outdoor scene has to offer. Time Out Rome helps travelers navigate through the cobblestone streets, so that they can eat, drink and shop like the natives. Suggested side trips out of town are also explored.

It provides the foundational knowledge on which to build a fully developed understanding of modern communications methodologies, techniques and standards. It then provides overviews of the key areas in which design decisions must be made: communication media; interface standards; network architectures; modems and multiplexers; network topologies, switching and access control; local area networks; wide-area networks; performance; software issues; security; and implementation.; As a second edition of an established text the book has been thoroughly revised and improved but retains the strengths of the first edition in its clear and well- illustrated exposition. It includes current developments in standards and architecture including ATM, B-ISDN, SNMP, TCP/IP, and other state-of-the- art features of the computer communications world.; In its first edition the book was an authoritative textbook and personal reference for industry. In this new edition it should be even more essential for all with a need for an accessible modern technical introduction to computer communications and networks. Suitable for a practically orientated computer science course at degree level or for an introductory industrial course.

Performing Citizenship in Plato's Laws Lucia Prauscello,2014-11-13 In the Laws, Plato theorizes citizenship as simultaneously a political, ethical, and aesthetic practice. His reflection on citizenship finds its roots in a descriptive psychology of human experience, with sentience and, above all, volition seen as the primary targets of a lifelong training in the values of citizenship. In the city of Magnesia described in the Laws *erôs* for civic virtue is presented as a motivational resource not only within the reach of the 'ordinary' citizen, but also factored by default into its educational system. Supporting a vision of 'perfect citizenship' based on an internalized obedience to the laws, and persuading the entire polity to consent willingly to it, requires an ideology that must be rhetorically all-inclusive. In this city 'ordinary' citizenship itself will be troped as a performative action: Magnesia's choral performances become a fundamental channel for shaping, feeling and communicating a strong sense of civic identity and unity.

Traditional and Cosmic Gods in Later Plato and the Early Academy Vilis Bartninkas, 2023-04-30 Shows how Plato's distinction between the traditional and cosmic gods sheds new light on his relation to Greek religion.

Alıştırma Satranç Dersleri, Çıraklığa Başlıyorum, 1 Ali Osman Muş , Satranca başlayan çocukların en küçük beş yaşında olduğunu varsayarak elinizdeki alıştırma kitabını hazırladık. Bu duruma göre yazımlama (notasyon) ve temel bilgilerin uygulamalı olarak birlikte verilmesi gerektiğini savunduk. Kitabı da bu düşünceye uygun hazırladık. Derste öğretmeni zaman zaman edilgen, öğrenciyi de etken hale getirerek satranç öğretmeyi daha uygun gördük. Esasında bu kitabın gerçek öğretmenlerinin “yaşları küçük ama ufukları büyük çocuklar” olan satranç öğrencileri olduğunu düşünüyoruz. Amacımız; engelli çocuklar dahil tüm çocuklara ulaşmaktır. Bu konuda çalışmalarımız sürmektedir. Bazı ifadeleri açarak veya öykülendirerek çocuklara öğretmek gerektiğini düşündük. Örneğin kitapta geçen “düşünme bereketi” ifadesi gibi. Çocuklar doğal olarak soracaktır; “Bereket nedir, öğretmenim?” diye. Çapraz hatları kavramanın ve zihinde canlandırmanın zor olduğundan hareketle çocuklara manevi bir güç vermenin gereği üzerinde durarak ürettiğimiz kavramdır; “düşünme bereketi”. Burada öğretmen öykülendirerek veya yaratıcı drama tekniğiyle çocuklara “bereket” sözcüğünün anlamını anlatıp satrancın bir düşünce sanatı olduğunu benimsetme yolunda ilk adımı atabilir. Çalışma kitabının “çocukların seviyesinin üzerinde” eleştirisini alacağımızı bekliyoruz. Ancak bu konuda biz şöyle düşünüyoruz: “Çocuk beyni” ile “yetişkin beyni” arasındaki fark “kavramların ve hafıza kapasitesinin azlığı/çokluğu” açısından bir kıyaslama kabul edebilir. Ancak “kavrama, algılama, idrak” açısından ise çocuklar büyüklerle yarışabilecek ve onları aşabilecek bir yetenek ve marifete sahiptirler. Bu 40 yıllık eğitim-öğretim tecrübemizin bize kazandırdığı bir ilkedir. Bu yüzden “yazımlama ve cebirsel yazımlama” gibi zor ve itici bir konuyu daha ilk kitabın başına koyduk. Ancak bıktırmamak için de ısrarcı olmamayı ve arada sırada uygulama yapmayı kabul ediyoruz. Elinizdeki kitap bir müddet uygulandıktan sonra öğrencilerle karşılaştığımız eksiklikler incelenip geliştirilecektir. Bu alıştırma kitabı esas istikameti belirleyen bir ölçek olacaktır. Amacımız çocukları etkinleştirmek ve şemaları onların da yapmasını temin ederek çalışmalarını sağlamaktır. Öğretiminin birinci ve vazgeçilme kuralı “kuramsal öğretim” değil de “uygulamalı öğretim” olduğundan kuramsal öğrendiğini uzamsal ve icraatla öğrendiğiyle kıyasladığımızda daha az süre belleklerde muhafaza ettiğini biliyoruz. Diyagram yerine “sekizli çizge” ifadesini uygun gördük. Türkçemiz yabancı dillerin saldırısı altındadır. Bu saldırıyı savacak beyinler de bu ülkede mevcuttur. Sekizli çizge ifadesinin zamanla tutacağını umuyoruz. Herkes dünya şampiyonu, kent birincisi ve millî takım sporcusu olamayacağına göre Türkiye satrancına verilecek katkınızın ne olabileceğini düşününüz. Bir antrenör, bir hakem, bir satranç yazarı şıklarını hiçbir zaman unutmayınız. Bir uğraşı ve güzel bir hobi olarak ömür boyu sizi meşgul eden etkinlik olmasını umduğumuz satranç sevmeniz beklentisi içindeyiz. Kiminiz iyi bir sporcu, kiminiz iyi bir antrenör, kiminiz de iyi bir hakem olabilir. Bu çok doğaldır. Önemli olan satrançtan kopmayan ve istikrarlı, uzun süreli bir hikâye yazmanızdır. Sadece sporun içindeki satranç değil yaşamın içindeki satranç diye düşünerek yola çıkmanızın daha doğru bir yöntem olduğunu düşünüyoruz. Kitabın son bölümünde ek bölüm gibi koyduğumuz maç yazımlama formlarının yıl içinde öğrencilerin birbirleriyle yaptıkları maçlar ile öğretmenleri ile topluca icra ettikleri maçları kaydetmesi anlamında yıl boyu sürecek bir lig mücadelesi gibi öğrenime heyecan katacağını düşünüyoruz.

A Grammar of Egyptian Aramaic Takamitsu Muraoka, Bezael Porten, 2015-11-02 This is the first up-to-date, and complete grammar of Egyptian Aramaic as presented in texts of Egyptian provenance dating from the middle of the first millennium B.C.E. and as edited by B. Porten and A. Yardeni in their *Textbook of Aramaic Documents from Ancient Egypt* (Jerusalem, 1986-). The grammar covers not only the

phonology and morphology, but contains a substantial section on morphosyntax and syntax. It is a descriptive grammar enriched with the expert knowledge and familiarity of one of the co-authors with the contents and background of the texts in question. It is meant to replace P. Leander's Laut- und Formenlehre des Ägyptisch-Aramäischen (1928), but also supplements it substantially, because it had no syntax. Due to the utmost importance and interest of these ancient texts, this grammar is a vade mecum for every Aramaist, Semitist and Historian in the field.

The Intel 32-bit Microprocessors Barry B. Brey, 1995 Coverage first concentrates on real-mode assembly language programming compatible with all versions of the Intel microprocessor family, and compares and contrasts advanced family member with the foundational 8086/8088. This building block presentation is effective because the Intel family units are so similar that learning advanced versions is easy once the basics are understood.
