Macedonia’s Long Transition Robert Hudson, Ivan Dodovski, 2023-02-24 This book provides a broad, interdisciplinary analysis of events impacting on North Macedonia since its independence, particularly during the last decade. In the past thirty years, the country has gone through deep political, social and economic transition, along with a name change from ‘Macedonia’ to the ‘Republic of North Macedonia’ following the Prespa Agreement signed with Greece. The contributors consider Macedonia’s challenges, its multi-ethnic make-up and its ambition to enter the European mainstream through the auspices of the European Union and NATO. The volume includes chapters on international politics and North Macedonia’s place in the region’s security architecture as well as the difficulties of the privatisation of socially owned enterprises, political corruption, state capture and backsliding. The book also covers the controversial ‘Skopje 2014’ project in addition to the impact of migration along the ‘Balkan Route’ and the current wranglings with Bulgaria over identity politics.

Circassia and Ukraine Adel Bashqawi, 2023-08-23 In light of the war of extermination that waged against Ukraine, the aggression is a typical scorched-earth policy. Genocide, ethnic cleansing, and forced deportation committed in the nineteenth century in Circassia are similar to Russia's war in Ukraine since February 24, 2022. The book reminds of dozens of peoples and nations eager to restore their confiscated rights since the dissolution of the Soviet Union until now. It is divided into time periods (chapters). It touches on articles, studies, prominent occasions, developments, events, and commemorations that occurred during the mentioned period. What happened in the past and is developing nowadays necessitated the documentation, showing and exposing facts and events, which will set the record straight. Where actions speak louder than words, this confirms an undeniable reality. With peoples deprived of their rights, the Russian state did not care so far for mending fences and reconciling for peace and fairness. That confirms an undeniable fact, which is that the Russian state has not cared so far to carry out the duty entrusted to it in order to correct what the successive Russian regimes have committed against the Circassian nation and other victims of wars, occupation, genocide, deportation, and forced annexation.

SARS-CoV-2 and Coronacrisis Fr archpriest Evgeny I. Legach, Konstantin S. Sharov, 2021-07-28 This book is useful for administrators of different levels involved in counteracting COVID-19, surveillance professionals, clinicians, researchers specializing in epidemiology, microbiology, and infectious diseases, and politicians / legislators engaged in public health sector. We use an innovative approach of combining both epidemiological and sociological analyses, as the very problem is mainly an issue of correct governance. A team of authors from Europe, Russia and China summarizes their experience and knowledge useful for containing SARS-CoV-2 and overcoming social and managerial consequences of the pandemic. The editors are sure that sharing our different experience would help to elaborate necessary strategies, protocols, and principles that may be effectively applied in the future to avoid dramatic consequences of not only COVID-19 but also any possible epidemiological hazards for people and medicine.

Diaspora Engagement in Times of Severe Economic Crisis Othon Anastasakis, Manolis Pratsinakis, Foteini Kalantzi, Antonis Kamaras, 2022-06-19 How does a severe economic crisis impact on diaspora-homeland relations? The present volume addresses this question by exploring diaspora engagement in Greece during the protracted post-2009 eurozone crisis. In so doing, it looks at the crisis as a critical juncture in Greece's relations with its nationals abroad. The contributors in this book explore aspects of diaspora engagement, including transnational mobilisation, homeland reform, the role of diasporic institutions, crisis driven migration, as well as, comparisons with other countries in Europe. This book provides a compelling and original interdisciplinary study of contemporary diaspora issues, through the lens of an advanced economy and democracy facing a prolonged crisis, and, as such, it is a significant addition to the literature on European diasporas.

Zlatkova,2017-04-03 The authors focus on families who organize their lives in transnational social spaces within and at the outer borders of Europe, to offer a new perspective on transnational family life and to advance the knowledge on borders drawn by social inequality, discrimination and political exclusion. They also discuss social mobility as inheriting different life worlds, while crossing borders. The research on the socialization of children, raised in different societies provides a better understanding of the new generations in Europe from the beginning of the XXI c. The variety of methods presented in this book is also a contribution to link Western and Eastern European perspectives as well as sociology and anthropology in order to capture a wider spectrum of social reality.

The Rise of the Far Right in Europe Gabriella Lazaridis,Giovanna Campani,Annie Benveniste,2016-07-04 The results of the last European Elections of 2014 confirmed the rise of right and far right 'populist' parties across the EU. The success of a range of parties, such as Denmark's Dansk Folkeparti, Slovenia's Slovenska demokratska stranka, France's Front National, Greece's Golden Dawn, the United Kingdom Independence Party, Beppe Grillo's Five Star Movement in Italy and the Austrian FPÖ, has been perceived as a political wave which is transforming the face of the European Parliament, and challenging at some level the hegemony of the 'big four' well-established European political forces that lead the Strasbourg's assembly: the ALDE, EPP, S&D and Greens/ALE. As 'populism' has become a major issue in many EU countries, this collection aims to provide a critical understanding of related trends and recommend ways in which they can be challenged both in policy and praxis, by using the gender-race-ethnicity-sexual orientation intersectionality approach. This international volume combines extensive transnational comparative data analysis, as well as research at discursive, attitudinal and behavioural levels.

Turkey and the Balkans Başak Z. Alban,Ahmet Erdi Öztürk,2022-12-26 This book delves into Turkey's increasing ethno-religious, pragmatic, and complicated involvement and activism in the Balkans since 2002, under the Justice and Development Party (Adalet ve Kalkınma Partisi – AKP). It primarily focusses on the intersectionality between domestic and foreign policy that has played an important role in Turkey's recent relations with the Balkan countries as well as exploring how the Europeanisation process influences this relationality. Broadly, the chapters in this volume posit that religion, ethnicity and kin politics are indispensable components of identity politics and have the capacity to transform Turkey's foreign policy attitudes as well as the orientations of the Balkan countries. The book also asserts that the impact of the processes of Europeanisation and de-Europeanisation on the relationship between Turkey and the Balkans needs to be included into the analysis. This book will be useful to students, researchers and academics interested in Politics, International Relations and Southeast European and Black Sea Studies.

Discover the complexities of asylum systems and the changing landscapes of migration policies in nations as diverse as Bulgaria, Italy, Germany, Greece, Sweden, Spain, and North Macedonia. Delve into the geopolitical implications of seeking refuge and asylum, with a comprehensive analysis of the Palestinian diaspora and an exploration of Pakistan, India, Turkey, and the communitarian-based strategy in refugee laws. This essential compendium provides a comprehensive understanding of the intricate dynamics and global challenges surrounding asylum and refugees. With its diverse range of topics and expert contributors, the *Global Atlas of Refugees and Asylum Seekers* is a valuable resource for anyone interested in the complexities of global migration and the policies that shape the lives of those seeking refuge. The authors of this book identify two main paradigms shaping states' narratives regarding asylum seekers and refugees. Along the horizontal axis, discourses range from national security to humanitarian aid. On the vertical axis, they extend from the pursuit of ideals, as traditionally defined for refugees and asylum seekers, to personal survival due to economic, climate-related crises, family violence, gender violence, or organized crime. This shift, as highlighted in the chapter on Germany by Professor Knerr, is altering the original vision of agreements that stemmed from post-World War II Europe.

Landmarks for Spatial Development Stanislav Martinat, Vikas Kumar, André Torre, Yuliya Lavrikova, Evgeny Kuzmin, 2023-08-10 The book explores the uneven spatial distribution of territory resources and its implication for the sustainable development of regions and cities. The authors analyze the features of the localization of assets, paying attention to both the manifested factors and the conditions that determine the specificity of the current spatial organization. On the basis of multivariate analysis, gravity models, clustering method, as well as the evaluation of concentration parameters, the authors propose various approaches to systematize territorial units, paying special attention to the peculiarities of their economic structure, resource diffusion barriers, and quality of life parameters. The obtained results indicate the need for a differentiated approach in the choice of guidelines for the transformation of the socio-economic space, allowing the researchers to propose various transformation models for differing regions. Thus, this book presents spatial organization models for different regional economies, highlighting various approaches to achieving the Sustainable Development Goals and reducing inequality. The book seeks to balance the benefits of polarized development with the need to avoid significant interregional disparities. At the same time, the book offers various solutions for differentiating territories, distinguishing different spatial elements, and determining the most appropriate transformation options. The results obtained may be of interest to scholars in regional and spatial science as well as to professionals in the field of territorial development management.

Commercial Contract Law and Arbitration Mads Andenas, Maren Heidemann, 2024-04-30 This book tackles one of the most challenging fields of research and practice in the current global trade environment: integrating doctrines of

private and public law for the purpose of international commerce and trade. Traditional concepts of obligatory and proprietary claims and rights reach their limits when placed within an international context of litigation funding, liability and securitisation. Across disciplines, scholars and practitioners are seeking new ways of expanding and reconnecting novel products and services such as data; and the use of international dispute settlement with indispensable constitutional values and democratic processes is also growing. This book combines contributions on current issues in commercial contract and contract law, making an important contribution to the areas of substantive contract law and arbitration procedure that connect issues across disciplines. Exploring both substantive and procedural laws, the book explores unfair terms in non-consumer contracts, which is complemented by a broader contextual discussion of the regulation of platform operators in the European Union; while a discussion of the procedural role of public reporting of investment arbitration awards by the International Centre for the Settlement of Investment Disputes (ICSID) expands on the procedural aspects of arbitration within the wider context of the rule of law debate. Debating policy issues in general private law reform, and including a juxtaposition of a traditionalist continuation-oriented approach and a call for radical reform of entrenched and outmoded private law concepts to suit global commerce, this book will be of interest to students, academics and practitioners working in the area of commercial contract law and arbitration.
