This compelling collection of essays, curated by a diverse group of renowned scholars, offers an extensive exploration of migration patterns, paradigms, and lessons from around the world. As you journey through the chapters, you'll gain unique insights into how countries have responded to the unprecedented refugee crisis, examining notable cases such as Costa Rica, the United States, Canada, Chile, Mexico, and many more. Discover the complexities of

asylum systems and the changing landscapes of migration policies in nations as diverse as Bulgaria, Italy, Germany, Greece, Sweden, Spain, and North Macedonia. Delve into the geopolitical implications of seeking refuge and asylum, with a comprehensive analysis of the Palestinian diaspora and an exploration of Pakistan, India, Turkey, and the communitarian-based strategy in refugee laws. This essential compendium provides a comprehensive understanding of the intricate dynamics and global challenges surrounding asylum and refugees. With its diverse range of topics and expert contributors, the Global Atlas of Refugees and Asylum Seekers is a valuable resource for anyone interested in the complexities of global migration and the policies that shape the lives of those seeking refuge. The authors of this book identify two main paradigms shaping states' narratives regarding asylum seekers and refugees. Along the horizontal axis, discourses range from national security to humanitarian aid. On the vertical axis, they extend from the pursuit of ideals, as traditionally defined for refugees and asylum seekers, to personal survival due to economic, climate-related crises, family violence, gender violence, or organized crime. This shift, as highlighted in the chapter on Germany by Professor Knerr, is altering the original vision of agreements that stemmed from post-World War II Europe.

Turkey and the Balkans Başak Z. Alpan, Ahmet Erdi Öztürk, 2022-12-26 This book delves into Turkey's increasing ethno-religious, pragmatic, and complicated involvement and activism in the Balkans since 2002, under the Justice and Development Party (Adalet ve Kalkınma Partisi - AKP). It primarily focusses on the intersectionality between domestic and foreign policy that has played an important role in Turkey's recent relations with the Balkan countries as well as exploring how the Europeanisation process influences this relationality. Broadly, the chapters in this volume posit that religion, ethnicity and kin politics are indispensable components of identity politics and have the capacity to transform Turkey's foreign policy attitudes as well as the orientations of the Balkan

countries. The book also asserts that the impact of the processes of Europeanisation and de-Europeanisation on the relationship between Turkey and the Balkans needs to be included into the analysis. This book will be useful to students, researchers and academics interested in Politics, International Relations and Southeast European Studies. The chapters in this book were originally published as a special issue of Southeast European and Black Sea Studies.

They also discuss social mobility as inheriting different life worlds, while crossing borders. The research on the socialization of children, raised in different societies provides a better understanding of the new generations in Europe from the beginning of the XXI c. The variety of methods presented in this book is also a contribution to link Western and Eastern European perspectives as well as sociology and anthropology in order to capture a wider spectrum of social reality.

Together, these initiatives cover the equivalent of almost 6 gigatons of carbon dioxide, or about 12% of global emissions.--

Tourism and the Night Andrew Smith, Adam Eldridge, 2021-05-18 Over recent decades, municipal authorities have promoted their cities as places boasting desirable night-time activities. Light festivals, museum lates, nightclubbing, and night markets extend the typical tourist experience into the night and have become a key part of the way some cities are branded. This anthology draws together research addressing the relationship between tourism and the night, facilitating a better understanding of nocturnal city destinations. *Tourism and the Night: Rethinking Nocturnal Destinations* covers an array of different tourist activities taking place at night and a range of European cities. The challenges facing late-night workers, the relationship between tourists and residents, and the effects of local policies on the expansion of late-night entertainment are examined in the first part of the book. The latter part focuses on the significance of night-time events, addressing the rising popularity of light art festivals and established religious rituals. Ultimately, this ground-breaking collection of papers examines how the night has become an important setting for city tourism. This trend means there is a need to rethink the management of urban districts and destinations, but there are also important implications for our understanding and experiences of the urban night. The chapters in this book were originally published as a special issue in the *Journal of Policy Research in Tourism, Leisure and Events*.
