E-teaching History Joanna Wojdon, 2016-02-08

Incorporating Information and Communication Technology tools into the teaching and learning of history has become a common practice worldwide. It is no longer a question of if, but of how to introduce it in the classroom in order to make history education more effective and enjoyable. This book gathers the experiences and reflections of researchers from three continents, based on their own activities and on empirical studies. The contributions concentrate on videogames related to the past, history e-textbooks, and applications for mobile devices with historical content. Some texts deal explicitly with global phenomena, such as the "Assassin's Creed" or "Colonization" games, some present materials developed for the international market, such as a European e-textbook or mobile phone applications, while others concentrate on local experiences, such as a Chinese e-schoolbag, a Swiss tablet application, Polish and Estonian e-textbooks, or English teacher training. The book is a result, and a reinforcement, of the belief that history educators can benefit from the lessons learnt in other places of the globalising world.

Japonius Tyrannus Jeroen Pieter Lamers, 2000 Oda Nobunaga (1534-82), one of the best-known figures in Japanese history, dominated the political scene in Japan between 1568 and 1582 as he gradually conquered the country's central region and initiated a process of military and political unification. However, no standard biography existed on this warlord. Japonius Tyrannus fills the gap in our knowledge about Nobunaga. The chronological narrative provides a thorough analysis of his political and military career. -- a solid, richly detailed political biography. -- Conrad Totman in *Monumenta Nipponica*

Legend of the Master Reiko Seri, Doc Kane, Atsushi Nakajima, 2020-05-24 In this classic tale of tortured ambition and the eventual discovery of artistic enlightenment, Nakajima Atsushi brilliantly blends Confucian and Zen Buddhist thought in a well crafted, cinematic story about an archer on a quest to be the greatest of all time. This Japanese literary masterpiece is the first in Maplopo's Masters of Story collection. A unique gathering of Japanese literature translated into English that highlights some of the most wonderfully diverse stories from Japan's most treasured writers. The next release in the Masters of Story collection is Wind, Light, and the Twenty-Year Old Me from Sakaguchi Ango.

Videogames and Art Andy Clarke, Grethe Mitchell, 2007 Videogame art is developing as an area of burgeoning interest, departing from embryonic roots into a flourishing division of scholarly study. The collection provides both an overview of the field, positioning it within a social and commercial context with reference to other forms of digital and pictorial art, and to the mainstream videogames industry.
