catalyst for the process of instrumentalisation. This process can be analysed both at the level of the evolution of the language of conflict, including the erosion of the values of democratic dialogue, and the use of specific means of commemorating the past (monuments, museums, the Internet).

Turkey and the Balkans Başak Z. Alpan,Ahmet Erdi Öztürk,2022-12-26 This book delves into Turkey's increasing ethno-religious, pragmatic, and complicated involvement and activism in the Balkans since 2002, under the Justice and Development Party (Adalet ve Kalkınma Partisi – AKP). It primarily focusses on the intersectionality between domestic and foreign policy that has played an important role in Turkey's recent relations with the Balkan countries as well as exploring how the Europeanisation process influences this relationality. Broadly, the chapters in this volume posit that religion, ethnicity and kin politics are indispensable components of identity politics and have the capacity to transform Turkey's foreign policy attitudes as well as the orientations of the Balkan countries. The book also asserts that the impact of the processes of Europeanisation and de-Europeanisation on the relationship between Turkey and the Balkans needs to be included into the analysis. This book will be useful to students, researchers and academics interested in Politics, International Relations and Southeast European Studies. The chapters in this book were originally published as a special issue of Southeast European and Black Sea Studies.

1917 and the Consequences Gerhard Besier,Katarzyna Stokłosa,2019-09-30 The Russian Revolution of 1917 has been one of the most important events of modern history. It changed the course of the events not only in Russia but, on a wider scale, across the world while it influenced the flow of history throughout the twentieth century until the fall of the Soviet Union and, to some extent, well beyond this time. Radical change in Russia triggered social revolutions and reformations across Europe, while authoritarian systems shaped their societies according to the Russian model. This book analyses these forces, particularly at the European periphery which has been underexplored until this volume.

The Collective Dimensions of Employment Relations Tindara Addabbo,Edoardo Ales,Ylenia Curzi,Tommaso Fabbri,Olga Rymkevich,Iacopo Senatori,2021-08-09 This edited volume explores the old and new “collective dimensions” of employment relations. It examines specific challenges stemming from new forms of work of the digital and sharing economy, such as measurement, monitoring, assessment, and remuneration of work, the protection of work-life balance, the impact of new technologies on health and safety, the adaptation of occupational skills to new work processes, and the responses to the digital restructuring of undertakings. It addresses a series of questions such as how the representational action of unions and works councils can adapt to the challenges posed by new production systems and whether the legislative framework needs to be reformed to ensure that digital workers enjoy the right to collective representation. This important collection offers readers a renewed theoretical perspective and justification of the role that the dialogue between workers (representatives) and companies could play in an increasingly complex world of work.

Поправка 3:17. Как перестать портить жизнь себе и окружающим Александр Димидов,2019-07-12 Эссе «Поправка 3:17» представляет собой беспрецедентную, написанную простым «человеческим» языком, попытку анализа наших повседневных проблем сквозь парадигму христианских ценностей. Отношения между церковью и человеком. Конфликт биологии и нравственности. Роль личностных ориентиров. Почему все в мире происходит так, как происходит? Почему моя судьба складывается так, а не иначе? И наконец, что необходимо изменить, чтобы перестать портить жизнь себе и окружающим.

СССР страна, созданная пропагандой Георгий Почепцов,2020-06-13 Георгий Георгиевич Почепцов — доктор филологических наук, профессор, писатель-фантаст, ученый, автор более 20 книг для детей и более 40 на тему теории коммуникаций. Заслуженный журналист Украины, член Национального союза писателей. В мире современных коммуникаций и программирования человеческая память хранит из прошлого только то, что ей «велят» хранить технологи из настоящего. И главная роль здесь принадлежит пропаганде и метапропаганде. Своих вершин в эффективности и масштабности пропаганда достигает в сталинском СССР, гитлеровской Германии и путинской России. Эти три пропагандистские машины имеют общие черты и отличительные особенности. Но только советская пропаганда имела прочную научную (пусть даже околонучную или псевдонаучную) основу в виде коммунистических идей, что придавало ей определенную респектабельность. Об этом, а также о создании советской и постсоветской реальности с помощью контроля коммуникаций, о функционировании советской системы и многом другом рассказывается в этой книге. Раньше в издательстве «Фолио» вышли книги Г. Почепцова «Пропаганда 2.0», «Управление будущим», «Виртуальные войны. Фейки», «Когнитивные войны».
