**Words in Space and Time** Tomasz Kamusella, 2021-11-30 With forty-two extensively annotated maps, this atlas offers novel insights into the history and mechanics of how Central Europe's languages have been made, unmade, and deployed for political action. The innovative combination of linguistics, history, and cartography makes a wealth of hard-to-reach knowledge readily available to both specialist and general readers. It combines information on languages, dialects, alphabets, religions, mass violence, or migrations over an extended period of time. The story first focuses on Central Europe's dialect continua, the emergence of states, and the spread of writing technology from the tenth century onward. Most maps concentrate on the last two centuries. The main storyline opens with the emergence of the Western European concept of the nation, in accord with which the ethnolinguistic nation-states of Italy and Germany were founded. In

the Central European view, a “proper” nation is none other than the speech community of a single language. The Atlas aspires to help users make the intellectual leap of perceiving languages as products of human history and part of culture. Like states, nations, universities, towns, associations, art, beauty, religions, injustice, or atheism—languages are artefacts invented and shaped by individuals and their groups.

“一带一路”倡议 China and Georgia:the Belt and Road Construction and Development 2021-06-01

*Macedonia's Long Transition* Robert Hudson, Ivan Dodovski, 2023-02-24 This book provides a broad, interdisciplinary analysis of events impacting on North Macedonia since its independence, particularly during the last decade. In the past thirty years, the country has gone through deep political, social and economic transition, along with a name change from 'Macedonia'

to the ‘Republic of North Macedonia’ following the Prespa Agreement signed with Greece. The contributors consider Macedonia’s challenges, its multi-ethnic make-up and its ambition to enter the European mainstream through the auspices of the European Union and NATO. The volume includes chapters on international politics and North Macedonia’s place in the region’s security architecture as well as the difficulties of the privatisation of socially owned enterprises, political corruption, state capture and backsliding. The book also covers the controversial ‘Skopje 2014’ project in addition to the impact of migration along the ‘Balkan Route’ and the current wranglings with Bulgaria over identity politics.

The New Diversity of Family Life in Europe Banu

Çitlak, Sebastian Kurtenbach, Megan Lueneburg, Meglena  
Zlatkova, 2017-04-03 The authors focus on families who organize  
their lives in transnational social spaces within and at the outer  
borders of Europe, to offer a new perspective on transnational  
family life and to advance the knowledge on borders drawn by  
social inequality, discrimination and political exclusion. They also  
discuss social mobility as inheriting different life worlds, while  
crossing borders. The research on the socialization of children,  
raised in different societies provides a better understanding of the  
new generations in Europe from the beginning of the XXI c. The  
variety of methods presented in this book is also a contribution to  
link Western and Eastern European perspectives as well as

sociology and anthropology in order to capture a wider spectrum of social reality.

*Circassia and Ukraine* Adel Bashqawi, 2023-08-23 In light of the war of extermination that waged against Ukraine, the aggression is a typical scorched-earth policy. Genocide, ethnic cleansing, and forced deportation committed in the nineteenth century in Circassia are similar to Russia's war in Ukraine since February 24, 2022. The book reminds of dozens of peoples and nations eager to restore their confiscated rights since the dissolution of the Soviet Union until now. It is divided into time periods (chapters). It touches on articles, studies, prominent occasions, developments, events, and commemorations that occurred during the mentioned period. What happened in the past and is developing nowadays necessitated the documentation, showing and exposing facts and events, which will set the record straight. Where actions speak louder than words, this confirms an undeniable reality. With peoples deprived of their rights, the Russian state did not care so far for mending fences and reconciling for peace and fairness. That confirms an undeniable fact, which is that the Russian state has not cared so far to carry out the duty entrusted to it in order to correct what the successive

Russian regimes have committed against the Circassian nation and other victims of wars, occupation, genocide, deportation, and forced annexation.

[it] not merely describes what is going on. It makes you think. That is why this book is so valuable ...” The Rt. Hon. Professor Sir Robin Jacob. Foreword. “Social media has become the online meeting place. People now communicate on an unparalleled scale.

**The Caucasus Emirate Mujahedin** Gordon M. Hahn, 2014-09-29

Russia's North Caucasus mujahedin of the self-declared Caucasus Emirate and the history thereof is part and parcel of the global jihadi revolutionary movement which includes but is no longer led by Al Qaeda. This book corrects the inadequate previous treatments of the violence in the Caucasus, almost all of which explain what ought to be called the rise of jihadism in the Caucasus solely in terms of Russian actions. The author brings the international jihadist and local North Caucasian causes back into the picture, detailing the global Jihadist/Islamist revolutionary movement's propagation of the "jihadi method" and material support to nationalist and Islamic extremists in Chechnya and the Caucasus since the mid-1990s. Like jihadi groups in Afghanistan and Pakistan, Iraq, Syria, and Africa, the Caucasus Emirate is an Al Qaeda ally and de facto affiliate. It represents a threat to Russian, U.S., and international security as evidenced by terrorist plots perpetrated or inspired by it in Belgium, the Czech Republic,

### **Diaspora Engagement in Times of Severe Economic Crisis**

Othon Anastasakis, Manolis Pratsinakis, Foteini Kalantzi, Antonis Kamaras, 2022-06-19 How does a severe economic crisis impact on diaspora-homeland relations? The present volume addresses this question by exploring diaspora engagement in Greece during the protracted post-2009 eurozone crisis. In so doing, it looks at the crisis as a critical juncture in Greece's relations with its nationals abroad. The contributors in this book explore aspects of diaspora engagement, including transnational mobilisation, homeland reform, the role of diasporic institutions, crisis driven

migration, as well as, comparisons with other countries in Europe. This book provides a compelling and original interdisciplinary study of contemporary diaspora issues, through the lens of an advanced economy and democracy facing a prolonged crisis, and, as such, it is a significant addition to the literature on European diasporas.

THE CHANGING PERSPECTIVES AND ‘NEW’

GEOPOLITICS OF THE CAUCASUS IN THE 21ST CENTURY

SERDAR YILMAZ, MURAT YORULMAZ, 2021-03-08 The change of the geopolitical realities and dynamics, the latest regional developments and the emergence of a new perception of security

due to the new situation in Karabakh have changed current perspectives in the South Caucasus region. This book will provide a comprehensive introduction for students, academics, media representatives, business persons and those who are interested in the region. It will guide you through in a very readable and engaging style as it covers all the salient points and issues of the North Caucasus (the autonomous republics) succinctly and the South Caucasus (Azerbaijan, Georgia, Armenia) in detail. After the last development and Russian direct involvement in the Karabakh issue, the world's attention has focused increasingly on the Caucasus region. Thus, THE CHANGING PERSPECTIVES AND 'NEW' GEOPOLITICS OF THE CAUCASUS IN THE 21ST CENTURY book will be an excellent introduction to the complexities of a little-known the Caucasus region and make a significant contribution to the understanding of fundamental issues of the region. As the editors, we would like to dedicate this book to the heroic Azerbaijani soldiers who were martyred during the struggle for the liberation of the Karabakh lands from the Armenian occupation.

*Inventing Majorities* Mykhailo Minakov, 2022-03-22 The recent history of post-Soviet societies is heavily shaped by the successor

nations' efforts to geopolitically re-identify themselves and to reify certain majorities in them. As a result of these fascinating processes, various new ideologies have appeared. Some are specific to the post-Soviet space while others are comparable to ideational processes in other parts of the world. In this collected volume, an international group of contributors delves deeper into recent theoretical constructions of various post-Soviet majorities, the ideologies that justify them, and some respectively formulated policy prescriptions. The first part analyzes post-Soviet state-builders' fixation on certain constructed majorities as well as on these imagined communities' symbolic self-identifications, in- or outward othering, and national languages. The second part deals specifically with post-Soviet ideas of sovereigntism and the way they define majorities as well as imply changes in internal and external policies and legal systems. These processes are analyzed in comparison to similar phenomena in Western societies. The book's contributors include (in the order of their appearance): Natalia Kudriavtseva, Petra Colmorgen, Nadiia Koval, Ivan Gomza, Augusto Dala Costa, Roman Horbyk, Yana Prymachenko, Yuliya Yurchuk, Oleksandr Fisun, Nataliya Vinnykova, Ruslan Zaporozhchenko, Mikhail Minakov, Gulnara Shaikhutdinova, and
