Turkey and the Balkans Başak Z. Alban, Ahmet Erdi Öztürk, 2022-12-26 This book delves into Turkey's increasing ethno-religious, pragmatic, and complicated involvement and activism in the Balkans since 2002, under the Justice and Development Party (Adalet ve Kalkınma Partisi - AKP). It primarily focusses on the intersectionality between domestic and foreign policy that has played an important role in Turkey's recent relations with the Balkan countries as well as exploring how the Europeanisation process influences this relationality. Broadly, the chapters in this volume posit that religion, ethnicity and kin politics are indispensable components of identity politics and have the capacity to transform Turkey's foreign policy attitudes as well as the orientations of the Balkan countries. The book also asserts that the impact of the processes of Europeanisation and de-Europeanisation on the relationship between Turkey and the Balkans needs to be included into the analysis. This book will be useful to students, researchers and academics interested in Politics, International Relations and Southeast European Studies. The chapters in this book were originally published as a special issue of Southeast European and Black Sea Studies.

Diaspora Engagement in Times of Severe Economic Crisis Othon Anastasakis, Manolis Pratsinakis, Foteini Kalantzzi, Antonis Kamaras, 2022-06-19 How does a severe economic crisis impact on diaspora-homeland relations? The

present volume addresses this question by exploring diaspora engagement in Greece during the protracted post-2009 eurozone crisis. In so doing, it looks at the crisis as a critical juncture in Greece's relations with its nationals abroad. The contributors in this book explore aspects of diaspora engagement, including transnational mobilisation, homeland reform, the role of diasporic institutions, crisis driven migration, as well as, comparisons with other countries in Europe. This book provides a compelling and original interdisciplinary study of contemporary diaspora issues, through the lens of an advanced economy and democracy facing a prolonged crisis, and, as such, it is a significant addition to the literature on European diasporas.

1917 and the Consequences Gerhard Besier, Katarzyna Stokłosa, 2019-09-30 The Russian Revolution of 1917 has been one of the most important events of modern history. It changed the course of the events not only in Russia but, on a wider scale, across the world while it influenced the flow of history throughout the twentieth century until the fall of the Soviet Union and, to some extent, well beyond this time. Radical change in Russia triggered social revolutions and reformations across Europe, while authoritarian systems shaped their societies according to the Russian model. This book analyses these forces, particularly at the European periphery which has been underexplored until this volume.

Jihadism in the Russian-Speaking World Danis Garaev, 2022-08-29 This book contends that the discourses of jihadism in Russia's North Caucasus, and their offshoots in other parts of the Russian Federation, are not just reflections of jihadi ideologies that came from abroad, rather that post-Soviet jihadism is a phenomenon best understood when placed in the broader cultural environment in which it emerged, an environment which comprises the North Caucasus, the whole of Russia, and beyond. It examines how post-Soviet jihadism is also part of global processes, in this case, global jihadism, explores how post-Soviet jihadism bears the imprint of the preceding Soviet context especially in terms of symbols, discursive tools, interpretational frameworks, and dissemination strategies, and discusses how, ironically, Russian-speaking jihadism is an expansionist idea for uniting all Russian regions on a supra-ethnic principle, but an idea that was not born in Moscow or St. Petersburg. Overall, the book demonstrates that Russian-speaking jihadism is a completely new ideology, which nevertheless has its origins in the intellectual and cultural heritage of the Soviet era and in the broader trends of post-Soviet society and culture.

The New Diversity of Family Life in Europe Banu Çitlak, Sebastian Kurtenbach, Megan Lueneburg, Meglena Zlatkova, 2017-04-03 The authors focus on families who organize their lives in transnational social spaces within and at the outer borders of Europe, to offer a new perspective on transnational family life and to advance the knowledge on borders drawn by social inequality, discrimination and political exclusion. They also discuss social mobility as inheriting different life worlds, while crossing borders. The research on the socialization of children, raised in different societies provides a better understanding of the new generations in Europe from the beginning of the XXI c. The variety of methods presented in this book is also a contribution to link Western and Eastern European perspectives as well as sociology and anthropology in order to capture a wider spectrum of social reality.

Youth in Putin's Russia Elena Omelchenko, 2021-12-02 This edited volume sheds light on the lives of young people in various central and peripheral regions of Russia, including youth belonging to different ethnic and religious groups and who have differing views on contemporary politics. While the literature continues to grow regarding the inclusion of youth in global contexts, the specific cultural, political, and economic circumstances of being young in Russia make the Russian case unique. Chapter authors focus on four key aspects that characterize the youth experience in contemporary Russia: cultural practices and value affiliations, citizenship and

patriotism, ethnic and religious diversity, and the labor market. This collection will appeal to readers interested in contemporary life in Russia and looking for the latest empirical material on youth identities and cultures, as well as those looking to learn about the critical viewpoint of local academics regarding the ongoing processes in contemporary Russian society.

Circassia and Ukraine Adel Bashqawi, 2023-08-23 In light of the war of extermination that waged against Ukraine, the aggression is a typical scorched-earth policy. Genocide, ethnic cleansing, and forced deportation committed in the nineteenth century in Circassia are similar to Russia's war in Ukraine since February 24, 2022. The book reminds of dozens of peoples and nations eager to restore their confiscated rights since the dissolution of the Soviet Union until now. It is divided into time periods (chapters). It touches on articles, studies, prominent occasions, developments, events, and commemorations that occurred during the mentioned period. What happened in the past and is developing nowadays necessitated the documentation, showing and exposing facts and events, which will set the record straight. Where actions speak louder than words, this confirms an undeniable reality. With peoples deprived of their rights, the Russian state did not care so far for mending fences and reconciling for peace and fairness. That confirms an undeniable fact, which is that the Russian state has not cared so far to carry out the duty entrusted to it in order to correct what the successive Russian regimes have committed against the Circassian nation and other victims of wars, occupation, genocide, deportation, and forced annexation.

THE CHANGING PERSPECTIVES AND 'NEW' GEOPOLITICS OF THE CAUCASUS IN THE 21ST CENTURY SERDAR YILMAZ, MURAT YORULMAZ, 2021-03-08 The change of the geopolitical realities and dynamics, the latest regional developments and the emergence of a new perception of security due to the new situation in Karabakh have changed current perspectives in the South Caucasus region. This book will provide a comprehensive introduction for students, academics, media representatives, business persons and those who are interested in the region. It will guide you through in a very readable and engaging style as it covers all the salient points and issues of the North Caucasus (the autonomous republics) succinctly and the South Caucasus (Azerbaijan, Georgia, Armenia) in detail. After the last development and Russian direct involvement in the Karabakh issue, the world's attention has focused increasingly on the Caucasus region. Thus, **THE CHANGING PERSPECTIVES AND 'NEW' GEOPOLITICS OF THE CAUCASUS IN THE 21ST CENTURY** book will be an excellent introduction to the complexities of a little-known the Caucasus region and make a significant contribution to the understanding of fundamental issues of the region. As the editors, we would like to dedicate this book to the heroic Azerbaijani soldiers who were martyred during the struggle for the liberation of the Karabakh lands from the Armenian occupation.

One Hundred Years in Galicia Dennis Ougrin, Anastasia Ougrin, 2020-10-12 Ukrainian Galicia was home to Poles, Jews and Ukrainians for hundreds of years. They fought in Austrian, Polish, Russian and German armies, as well as in the Ukrainian pro-independence army. They were arrested by the Gestapo and the NKVD, tortured and even declared dead. DIAGNOSTICS OF CHILD'S DEVELOPMENTAL DIFFICULTIES Kazachiner Olena, Boychuk Yuriy, Halii Alla, 2023-02-25 A feature of modern educational technologies is thought out in every detail a model of joint pedagogical activity on design, organization and carrying out the educational process with the provision of comfortable conditions for both the children and the teacher. In this context, it becomes important use of diagnostic tools by a correctional

teacher. According to research, diagnostics is a necessary component of practical activity, and teachers need a certain clarification regarding the differentiation of diagnostic contents and functions in psychological and pedagogical aspects. It is this actual problem that is highlighted in this monograph. In particular, the main features and peculiarities of the diagnostic activity of the correctional teacher in working with children of early, preschool and school age with and without psychophysical development disorders are revealed. Pedagogical diagnosis of a correctional teacher is defined as activities to identify the current state and areas of immediate development child; team pedagogical interaction aimed at management of educational process' quality. The diagnostic activity of a correctional teacher requires formation a high level of multifunctional competence, which, in turn, includes the following: - the algorithm of the process of examining the psychophysical development of children with developmental disorders; - the level of formation of social and adaptive skills, life skills competence; - feedback during the joint activity of an adult and a child. Objects of pedagogical diagnostics are considered to be: - individual and personal qualities of the child; - activity, behavior and attitude of pupils; - the formative influence of the social environment, family, school and class environment; - the nature and interaction of pedagogical influence in the educational process. To obtain pedagogical data, one of the most important tasks is the right choice of diagnostic methods. Most often the following methods are used by teachers during diagnosis: 1. Observation. 2. Questionnaires and surveys. 3. Testing. 4. Conversations. 5. Learning and education in pedagogical situations. 6. Study of products of activity (drawings, projects, diaries, etc.). 7. Generalization of pupils' independent characteristics. With a psychodiagnostic approach to research the children's psychologist has the following tasks: 1) study of the functions of mental processes and detection of deviations; 2) determination of the possibility of improving the results during provision assistance; 3) diagnosis of the child's personal characteristics; 4) correlation of the obtained results with "normative" and establishing a pathopsychological diagnosis; 5) determination of opportunities for optimization of the child's development process and ways of solving his social problems

Abkhazia: 1992–2022 Metin Sonmez, 2022-10-12 The 14th of August 2022 is the 30th anniversary of the start of the war between the Georgians and the Abkhazians in the decades-long dispute over ownership of the small territory known to the autochthonous Abkhazians as Apsny, to the Georgians as apxazeti, and to most of the world as Abkhazia. Understanding Religious Violence James Dingley, Marcello Mollica, 2018-11-23
This book addresses the problem of religiously based conflict and violence via six case studies. It stresses particularly the structural and relational aspects of religion as providing a sense of order and a networked structure that enables people to pursue quite prosaic and earthly concerns. The book examines how such concerns link material and spiritual salvation into a holy alliance. As such, whilst the religions concerned may be different, they address the same problems and provide similar explanations for meaning, success, and failure in life. Each author has conducted their own field-work in the religiously based conflict regions they discuss, and together the collection offers perspectives from a variety of different national backgrounds and disciplines.
