2 [Macedonia’s Long Transition](#) Robert Hudson, Ivan Dodovski, 2023-02-24 This book provides a broad, interdisciplinary analysis of events impacting on North Macedonia since its independence, particularly during the last decade. In the past thirty years, the country has gone through deep political, social and economic transition, along with a name change from ‘Macedonia’ to the ‘Republic of North Macedonia’ following the Prespa Agreement signed with Greece. The contributors consider Macedonia’s challenges, its multi-ethnic make-up and its ambition to enter the European mainstream through the auspices of the European Union and NATO. The volume includes chapters on international politics and North Macedonia’s place in the region’s security architecture as well as the difficulties of the privatisation of socially owned enterprises, political corruption, state capture and backsliding. The book also covers the controversial ‘Skopje 2014’ project in addition to the impact of migration along the ‘Balkan Route’ and the current wranglings with Bulgaria over identity politics.

2 [PISA Education in Eastern Europe and Central Asia Findings from PISA](#) OECD, United Nations Children’s Fund, 2021-07-30 Countries in Eastern Europe and Central Asia have clear aspirations to strengthen civic participation and increase prosperity for all. A highly skilled and knowledgeable population is critical to achieving these goals, which makes creating and maintaining high quality and equitable education systems a vital part of regional development efforts. Results from the Programme for International Student Assessment (PISA) show that learning outcomes in the region have generally improved, but that the improvement has not been equitable. While countries in the region are producing some of the top performing students in the world, many other students are being left behind.

2 [SARS-CoV-2 and Coronacrisis](#) Fr Archpriest Evgeny I. Legach, Konstantin S. Sharov, 2021-07-28 This book is useful for administrators of different levels involved in counteracting COVID-19, surveillance professionals, clinicians, researchers specializing in epidemiology, microbiology, and infectious diseases, and politicians / legislators engaged in public health sector. We use an innovative approach of combining both epidemiological and sociological analyses, as the very problem is mainly an issue of correct governance. A team of authors from Europe, Russia and China summarizes their experience and knowledge useful for containing SARS-CoV-2 and overcoming social and managerial consequences of the pandemic. The editors are sure that sharing our different experience would help to elaborate necessary strategies, protocols, and principles that may be effectively applied in the future to avoid dramatic consequences of not only COVID-19 but also any possible epidemiological hazards for people and medicine.

2 [The Caucasus Emirate Mujahedin](#) Gordon M. Hahn, 2014-10-09 Russia’s North Caucasus Mujahedin of the self-declared Caucasus Emirate and the history thereof is part and parcel of the global jihadi revolutionary movement which includes but is no longer led by Al Qaeda. This book corrects the inadequate previous treatments of the violence in the Caucasus, almost all of which explain what ought to be called the rise of jihadism in the Caucasus solely in terms of Russian actions. The author brings the international jihadist and local North Caucasian causes back into the picture, detailing the global jihadist/Islamist revolutionary movement’s propagation of the jihadi method and material support to nationalist and Islamic extremists in Chechnya and the Caucasus since the mid-1990s. Like jihadi groups in Afghanistan and Pakistan, Iraq, Syria, and Africa, the Caucasus Emirate is an Al Qaeda ally and de facto affiliate. It represents a threat to Russian, U.S., and international security as evidenced by terrorist plots perpetrated or inspired by it in Belgium, the Czech Republic, Denmark, Spain, Azerbaijan, and Boston.

2 [Global Governance and Interaction between International Institutions](#) Alexander Libman, Anastassia Obydenkova, 2023-09-26 This book builds on theory of authoritarian regionalism and is the first attempt to analyse the interaction of authoritarian regional organizations in Eurasia with their global and regional counterparts (NATO, EU, WTO, IMF etc.). It analyses three decades of the development of post-Soviet regional organizations prior to the tectonic geopolitical and security changes of 2022. Eurasian regional organizations created by Russia have been frequently perceived as attempts to establish ‘alternatives’ to the global governance institutions and to compete with other regional organizations like, for example, the European Union (EU). They are seen as a pronounced example of ‘authoritarian regionalism’, i.e., regional organizations established by non-democracies. The way they interact with global and regional institutions has, however, remained understudied. This book aims to close this gap. It places Eurasia within a global context and considers similar trends world-wide as well as outlines the agenda for future studies of global versus regional governance. The book sheds light on long-term strategies of Russia in Eurasia, in global economy and in world politics, and on the interaction between Russia and other post-Soviet states. With an extended introduction and conclusion, this book is an insightful resource for scholars; advanced students; and researchers of politics, international relations, and Eurasian area-studies. The chapters in this book were originally published as a special issue of Post-Communist Economies.

2 [Global Atlas of Refugees and Asylum Seekers](#) Ana Vila-Freyer, Ibrahim Sirkeci, 2023-10-15 Dive into the intricate and globally significant topic of asylum and refugees with the Global Atlas of Refugees and Asylum Seekers. This compelling collection of essays, curated by a diverse group of renowned scholars, offers an extensive exploration of migration patterns, paradigms, and lessons from around the world. As you journey through the chapters, you’ll gain unique insights into how countries have responded to the unprecedented refugee crisis, examining notable cases such as Costa Rica, the United States, Canada, Chile, Mexico, and many more. Discover the complexities of asylum systems and the changing landscapes of migration policies in nations as diverse as Bulgaria, Italy, Germany, Greece, Sweden, Spain, and North Macedonia. Delve into the geopolitical implications of seeking refuge and asylum, with a comprehensive analysis of the Palestinian diaspora and an exploration of Pakistan, India, Turkey, and the communitarian-based strategy in refugee laws. This essential compendium provides a comprehensive understanding of the intricate dynamics and global challenges surrounding asylum and refugees. With its diverse range of topics and expert contributors, the Global Atlas of Refugees and Asylum Seekers is a valuable resource for anyone interested in the complexities of global migration and the policies that shape the lives of those seeking refuge. The authors of this book identify two main paradigms shaping states’ narratives regarding asylum seekers and refugees. Along the horizontal axis, discourses range from national security to humanitarian aid. On the vertical axis, they extend from the pursuit of ideals, as traditionally defined for refugees and asylum seekers, to personal survival due to economic, climate-related crises, family violence, gender violence, or organized crime. This shift, as highlighted in the chapter on Germany by Professor Knerr, is altering the original vision of agreements that stemmed from post-World War II Europe.

2 [The Donbas Conflict in Ukraine](#) Daria Platonova, 2021-09-28 This book examines why, when the conflict in eastern Ukraine began in 2014, fighting broke out in the Donetsk region, whereas it did not in Kharkiv city, despite the city, like the Donetsk region, being geographically proximate to Russia and similar in ethnic and linguistic make up. Based on extensive original research, the book argues that a key factor was the nature and behaviour of local elites, with those in Kharkiv having diffuse ties to the centre and therefore being more capable of adapting to sudden, profound regime change at the centre, whereas the elites in the Donetsk region had much more concentrated ties to the centre, were dependent on one network, and therefore were much less able to cope with change. The book thereby demonstrates how crucial for Ukraine are patronal politics, patronage networks, and informal centre-region relations, and that it was these local political circumstances, rather than Russia, which brought about the conflict.

2 [Diaspora Engagement in Times of Severe Economic Crisis](#) Othon Anastasakis, Manolis Pratsinakis, Foteini Kalantzi, Antonis Kamaras, 2022-06-19 How does a severe economic crisis impact on diaspora-homeland relations? The present volume addresses this question by exploring diaspora engagement in Greece during the protracted post-2009 eurozone crisis. In so doing, it looks at the crisis as a critical juncture in Greece’s relations with its nationals abroad. The contributors in this book explore aspects of diaspora engagement, including transnational mobilisation, homeland reform, the role of diasporic institutions, crisis driven migration, as well as, comparisons with other countries in Europe. This book provides a compelling and original interdisciplinary study of contemporary diaspora issues, through the lens of an advanced economy and democracy facing a prolonged crisis, and, as such, it is a significant addition to the literature on European diasporas.

ROADMAP TOWARDS CIRCULAR ECONOMY OF NORTH MACEDONIA OECD,2024-03-15 This roadmap is designed to aid North Macedonia’s government in establishing a solid policy foundation for a successful transition to a circular economy. STRATEGIC PLANNING IN LOCAL COMMUNITIES Celin Emilian Hincă, Marius Constantin Profireoiu, Tudor Cristian Iclău,2019-01-29 This is a comparative international study of the patterns of planning in local governments. While strategic planning has been a field of interest for public management and administrative science for over half a century there are very few cross-national studies of the specifics of planning in local governments. The book analyses the planning activities of local authorities in 7 diverse countries: France, Hungary, Romania, Russia, Spain, Turkey and USA. Although theoretical models of strategic planning are used, the book’s findings point to a very diverse and interesting environment with cultural, political and legal factors playing a significant role in shaping how planning is done in each country.

NATIONAL POWER AND INTERNATIONAL GEOSTRUCTURE Daniel Morales Ruvalcaba, COLLECTIVE BARGAINING IN LABOUR LAW REGIMES Ulla Liukkunen,2019-10-02 This book addresses the theme of collective bargaining in different legal systems and explores legal framework of collective bargaining as well as the role of different bargaining models in domestic labour law systems in altogether twenty-one jurisdictions throughout the world. Recent development of collective bargaining regimes can be viewed as part of a larger development of labour law models that face increasing challenges caused by globalization and transition of work and workplaces. The book places particular emphasis on identifying and examining most important development trends affecting domestic labour law regimes and collective bargaining and regulatory responses thereto. The analysis offered extents to transnational dimension of collective bargaining. As the chapters analyse the influence of the legal frameworks of collective bargaining in different countries they provide unique comparative insight into the topic which is central to understanding the function of labour law.

TURKEY AND THE BALKANS Bak Z. Alpan, Ahmet Erdi Z ترک,2022-12-26 This book delves into Turkey’s increasing ethno-religious, pragmatic, and complicated involvement and activism in the Balkans since 2002, under the Justice and Development Party (Adalet ve Kalkınma Partisi – AKP). It primarily focusses on the intersectionality between domestic and foreign policy that has played an important role in Turkey’s recent relations with the Balkan countries as well as exploring how the Europeanisation process influences this relationality. Broadly, the chapters in this volume posit that religion, ethnicity and kin politics are indispensable components of identity politics and have the capacity to transform Turkey’s foreign policy attitudes as well as the orientations of the Balkan countries. The book also asserts that the impact of the processes of Europeanisation and de-Europeanisation on the relationship between Turkey and the Balkans needs to be included into the analysis. This book will be useful to students, researchers and academics interested in politics, international relations and Southeast European studies. The chapters in this book were originally published as a special issue of Southeast European and Black Sea Studies.

TOURISM AND HERITAGE IN THE CHORNOBYL EXCLUSION ZONE Magdalena Banasziewicz,2022-09-28 Tourism and Heritage in the Chornobyl Exclusion Zone (CEZ) uses an ethnographic lens to explore the dissonances associated with the commodification of Chornobyl’s heritage. The book considers the role of the guides as experience brokers, focusing on the synergy between tourists and guides in the performance of heritage interpretation. Banasziewicz proposes to perceive tour guides as important actors in the bottom-up construction of heritage discourse contributing to more inclusive and participatory approach to heritage management. Demonstrating that the CEZ has been going through a dynamic transformation into a mass tourism attraction, the book offers a critical reflection on heritagisation as a meaning-making process in which the resources of the past are interpreted, negotiated, and recognised as a valuable legacy. Applying the concepts of dissonant heritage to describe the heterogeneous character of the CEZ, the book broadens the interpretative scope of dark tourism which takes on a new dimension in the context of the war in Ukraine. Tourism and Heritage in the Chornobyl Exclusion Zone argues that post-disaster sites such as Chornobyl can teach us a great deal about the importance of preserving cultural and natural heritage for future generations. The book will be of interest to academics and students who are engaged in the study of heritage, tourism, memory, disasters and Eastern Europe.
