Words in Space and Time Tomasz Kamusella,2021-11-30 With forty-two extensively annotated maps, this atlas offers novel insights into the history and mechanics of how Central Europe's languages have been made, unmade, and deployed for political action. The innovative combination of linguistics, history, and cartography makes a wealth of hard-to-reach knowledge readily available to both specialist and general readers. It combines information on languages, dialects, alphabets, religions, mass violence, or migrations over an extended period of time. The story first focuses on Central Europe's dialect continua, the emergence of states, and the spread of writing technology from the tenth century onward. Most maps concentrate on the last two centuries. The main storyline opens with the emergence of the Western European concept of the nation, in accord with which the ethnolinguistic nation-states of Italy and Germany were founded. In the Central European view, a "proper" nation is none other than the speech community of a single language. The Atlas aspires to help users make the intellectual leap of perceiving languages as products of human history and part of culture. Like states, nations, universities, towns, associations, art, beauty, religions, injustice, or atheism—languages are artefacts invented and shaped by individuals and their groups.

China's Belt and Road Initiative Alfred Gerstl, Ute Wallenböck, 2020-11-30 This edited volume presents a trans-disciplinary and multifaceted assessment of the strategic and economic impacts of China's Belt and Road Initiative (BRI) on three regions, namely Central Asia, Southeast Asia, and Central Eastern Europe. The contributions to this book demonstrate the requirement of a more realistic view concerning the anticipated economic benefits of the New Silk Road. The contributors critique the strategic effects of China's opaque long-term grand strategy on the regional and global political order. Specific countries that are covered are Finland, Hungary, Kazakhstan, Malaysia, Poland, and Thailand. Additionally, case studies from South Asia and Africa, notably India and Ethiopia, enable insightful comparisons. Encouraging readers to critically challenge mainstream interpretations of the aims and impacts of the BRI, this book should interest academics and students from various disciplines including Political Science, International Relations, Political Geography, Sociology, Economics, International Development, and Chinese Studies.

Commercial Contract Law and Arbitration Mads Andenas, Maren Heidemann, 2024-04-30 This book tackles one of the most challenging fields of research and practice in the current global trade environment: integrating doctrines of private and public law for the purpose of international commerce and trade. Traditional concepts of obligatory and proprietary claims and rights reach their limits when placed within an international context of litigation funding, liability and securitisation. Across disciplines, scholars and practitioners are seeking new ways of expanding and reconnecting novel products and services such as data; and the use of international dispute settlement with indispensable constitutional values and democratic processes is also growing. This book combines contributions on current issues in commercial contract and contract law, making an important contribution to the areas of substantive contract law and arbitration procedure that connect issues across disciplines. Exploring both substantive and procedural laws, the book explores unfair terms in non-consumer contracts, which is complemented by a broader contextual discussion of the regulation of platform operators in the European Union; while a discussion of the procedural role of public reporting of investment arbitration awards by the International Centre for the Settlement of Investment Disputes (ICSID) expands on the procedural aspects of arbitration within the wider context of the rule of law debate. Debating policy issues in general private law reform, and including a juxtaposition of a traditionalist continuation-oriented approach and a call for radical reform of entrenched and outmoded private law concepts to suit global commerce, this book will be of interest to

students, academics and practitioners working in the area of commercial contract law and arbitration.

Yves Montand in the USSR Mila Oiva, Hannu Salmi, Bruce Johnson, 2021-04-29 This volume is the first book-length account of Yves Montand's controversial tour of the Soviet Union at the turn of the years 1956/57. It traces the mixed messages of this internationally visible act of cultural diplomacy in the middle of the turbulent Cold War. It also provides an account of the celebrated French singer-actor's controversial career, his dedication to music and to peace activism, as well as his widespread fandom in the USSR. The book describes the political background for the events of the year 1956, including the changing Soviet atmosphere after Stalin's death, portrays the rising transnational stardom of Montand in the 1940s and 1950s,

and explores the controversies aroused by his plan to visit Moscow after the Hungarian Uprising. The book pays particular attention to Montand's reception in the USSR and his concert performances, drawing on unique archival material and oral history interviews, and analyses the documentary *Yves Montand Sings* (1957) released immediately after his visit.

Macedonia's Long Transition Robert Hudson, Ivan Dodovski, 2023-02-24 This book provides a broad, interdisciplinary analysis of events impacting on North Macedonia since its independence, particularly during the last decade. In the past thirty years, the country has gone through deep political, social and economic transition, along with a name change from 'Macedonia' to the 'Republic of North Macedonia' following the Prespa Agreement signed with Greece. The contributors consider Macedonia's challenges, its multi-ethnic make-up and its ambition to enter the European mainstream through the auspices of the European Union and NATO. The volume includes chapters on international politics and North Macedonia's place in the region's security architecture as well as the difficulties of the privatisation of socially owned enterprises, political corruption, state capture and backsliding. The book also covers the controversial 'Skopje 2014' project in addition to the impact of migration along the 'Balkan Route' and the current wranglings with Bulgaria over identity politics.

Diaspora Engagement in Times of Severe Economic Crisis Othon Anastasakis, Manolis Pratsinakis, Foteini Kalantzi, Antonis Kamaras, 2022-06-19 How does a severe economic crisis impact on diaspora-homeland relations? The present volume addresses this question by exploring diaspora engagement in Greece during the protracted post-2009 eurozone crisis. In so doing, it looks at the crisis as a critical juncture in Greece's relations with its nationals abroad. The contributors in this book explore aspects of diaspora engagement, including transnational mobilisation, homeland reform, the role of diasporic institutions, crisis driven migration, as well as, comparisons with other countries in Europe. This book provides a compelling and original interdisciplinary study of contemporary diaspora issues, through the lens of an advanced economy and democracy facing a prolonged crisis, and, as such, it is a significant addition to the literature on European diasporas.

The Return of Eurasia Glenn Diesen, Alexander Lukin, 2021-07-23 This book defines Eurasianism, a political idea with a long tradition, for a new century. Historically, Eurasia was depicted as a “third continent” with a geographical and historical space distinctively different from both Europe and Asia. Today, the concept is mobilized by the Russian foreign policy elite to imagine a close relationship with China and indirectly inspires the Chinese Belt and Road Initiative. A Russian-Chinese partnership forms the core of a new Eurasian region, yet Turkey, India, Hungary, Central Asia and the other parts of the supercontinent are also embracing Eurasian concepts. This book is of interest to scholars of Russian and

Chinese foreign policy, to economists, and to scholars of political thought.

Roots of Russia's War in Ukraine Elizabeth A. Wood, William E. Pomeranz, E. Wayne Merry, Maxim Trudolyubov, 2015-12-15 In February 2014, Russia initiated a war in Ukraine, its reasons for aggression unclear. Each of this volume's authors offers a distinct interpretation of Russia's motivations, untangling the social, historical, and political factors that created this war and continually reignite its tensions. What prompted President Vladimir Putin to send troops into Crimea? Why did the conflict spread to eastern Ukraine with Russian support? What does the war say about Russia's political, economic, and social priorities, and how does the crisis expose differences between the EU and Russia regarding international jurisdiction? Did Putin's obsession with his macho image start this war, and is it preventing its resolution? The exploration of these and other questions gives historians, political watchers, and theorists a solid grasp of the events that have destabilized the region.

Circassia and Ukraine Adel Bashqawi, 2023-08-23 In light of the war of extermination that waged against Ukraine, the aggression is a typical scorched-earth policy. Genocide, ethnic cleansing, and forced deportation committed in the nineteenth century in Circassia are similar to Russia’s war in Ukraine since February 24, 2022. The book reminds of dozens of peoples and nations eager to restore their confiscated rights since the dissolution of the Soviet Union until now. It is divided into time periods (chapters). It touches on articles, studies, prominent occasions, developments, events, and commemorations that occurred during the mentioned period. What happened in the past and is developing nowadays necessitated the

documentation, showing and exposing facts and events, which will set the record straight. Where actions speak louder than words, this confirms an undeniable reality. With peoples deprived of their rights, the Russian state did not care so far for mending fences and reconciling for peace and fairness. That confirms an undeniable fact, which is that the Russian state has not cared so far to carry out the duty entrusted to it in order to correct what the successive Russian regimes have committed against the Circassian nation and other victims of wars, occupation, genocide, deportation, and forced annexation.

Jihadism in the Russian-Speaking World Danis Garaev, 2022-08-29 This book contends that the discourses of jihadism in Russia's North Caucasus, and their offshoots in other parts of the Russian Federation, are not just reflections of jihadi ideologies that came from abroad, rather that post-Soviet jihadism is a phenomenon best understood when placed in the broader cultural environment in which it emerged, an environment which comprises the North Caucasus, the whole of Russia, and beyond. It examines how post-Soviet jihadism is also part of global processes, in this case, global jihadism, explores how post-Soviet jihadism bears the imprint of the preceding Soviet context especially in terms of symbols, discursive tools, interpretational frameworks, and dissemination strategies, and discusses how, ironically, Russian-speaking jihadism is an expansionist idea for uniting all Russian regions on a supra-ethnic principle, but an idea that was not born in Moscow or St. Petersburg. Overall, the book demonstrates that Russian-speaking jihadism is a completely new ideology, which nevertheless has its origins in the intellectual and cultural heritage of the Soviet era and in the broader trends of post-Soviet society and culture.

Turkey and the Balkans Başak Z. Alpan, Ahmet Erdi Öztürk, 2022-12-26 This book delves into Turkey's

increasing ethno-religious, pragmatic, and complicated involvement and activism in the Balkans since 2002, under the Justice and Development Party (Adalet ve Kalkınma Partisi – AKP). It primarily focusses on the intersectionality between domestic and foreign policy that has played an important role in Turkey's recent relations with the Balkan countries as well as exploring how the Europeanisation process influences this relationality. Broadly, the chapters in this volume posit that religion, ethnicity and kin politics are indispensable components of identity politics and have the capacity to transform Turkey's foreign policy attitudes as well as the orientations of the Balkan countries. The book also asserts that the impact of the processes of Europeanisation and de-Europeanisation on the relationship between Turkey and the Balkans needs to be included into the analysis. This book will be useful to students, researchers and academics interested in Politics, International Relations and Southeast European Studies. The chapters in this book were originally published as a special issue of Southeast European and Black Sea Studies.

The Caucasus Emirate Mujahedin Gordon M. Hahn, 2014-10-09 Russia's North Caucasus mujahedin of the self-declared Caucasus Emirate and the history thereof is part and parcel of the global jihadi revolutionary movement which includes but is no longer led by Al Qaeda. This book corrects the inadequate previous treatments of the violence in the Caucasus, almost all of which explain what ought to be called the rise of jihadism in the Caucasus solely in terms of Russian actions. The author brings the international jihadist and local North Caucasian causes back into the picture, detailing the global Jihadist/Islamist revolutionary movement's propagation of the jihadi method and material support to nationalist and Islamic extremists in Chechnya and the Caucasus since the mid-1990s. Like jihadi groups in

Afghanistan and Pakistan, Iraq, Syria, and Africa, the Caucasus Emirate is an Al Qaeda ally and de facto affiliate. It represents a threat to Russian, U.S., and international security as evidenced by terrorist plots perpetrated or inspired by it in Belgium, the Czech Republic, Denmark, Spain, Azerbaijan, and Boston.

The Russian Federation in Global Knowledge Warfare Holger Mölder, Vladimir Sazonov, Archil Chochia, Tanel Kerikmäe, 2021-07-24 This book examines Russian influence operations globally, in Europe, and in Russia's neighboring countries, and provides a comprehensive overview of the latest technologies and forms of strategic communication employed in hybrid warfare. Given the growing importance of comprehensive information warfare as a new and rapidly advancing type of international conflict in which knowledge is a primary target, the book examines Russia's role in Global Knowledge Warfare. The content is divided into three parts, the first of which addresses conceptual issues such as the logic of information warfare, the role of synthetic media, and Russia's foreign policy concepts, including the impact of the COVID-19 pandemic on influence operations. The second part analyzes technological, legal and strategic challenges in modern hybrid warfare, while the third focuses on textual, cultural and historical patterns in information warfare, also from various regional (e.g. the Western Balkans, Romania, Ukraine, and the Baltic) perspectives. The book is primarily intended for scholars in the fields of international relations, security and the military sciences who are interested in Russian foreign policy and influence operations, but also their impact on the global security environment.

The Jews of Contemporary Post-Soviet States Vladimir Ze'ev Khanin, 2023-10-23 Since the end of the USSR, post-Soviet Jewry has evolved into an ethnically and culturally diverse Russian speaking

community. This process is taking place against the gradual inflation of a collective identity among Russian-speaking Jews that survived the first post-Soviet decade. The infrastructure for this new entity is provided by new local (or ethno-civic) groups of East European Ashkenazi Jewry with specific communal, subcultural, and ethno-political identities (“Ukrainian,” “Moldavian,” or “Russian” Jews, e.g.). These communities demonstrate a changing balance of identification between their countries of residence and the “transnational Russian-Jewish community”, and they absorb a significant number of persons of non-Jewish and ethnically heterogeneous origins as well. This book discusses identity, community modes, migration dynamics, socioeconomic status, attitudes toward Israel, social and political environments, and other parameters framing these trends using the results of a comprehensive sociological study of the extended Jewish population conducted in 2019–2020 by this author in the five former-Soviet Union countries (Russia, Ukraine, Belarus, Moldova, and Kazakhstan).
