Macedonia's Long Transition Robert Hudson, Ivan Dodovski, 2023-02-24 This book provides a broad, interdisciplinary analysis of events impacting on North Macedonia since its independence, particularly during the last decade. In the past thirty years, the country has gone through deep political, social and economic transition, along with a name change from 'Macedonia' to the 'Republic of North Macedonia' following the Prespa Agreement signed with Greece. The contributors consider Macedonia's challenges, its multi-ethnic make-up and its ambition to enter the European mainstream through the auspices of the European Union and NATO. The volume includes chapters on international politics and North Macedonia's place in the region's security architecture as well as the difficulties of the privatisation of socially owned enterprises, political corruption, state capture and backsliding. The book also covers the controversial 'Skopje 2014' project in addition to the impact of migration along the 'Balkan Route' and the current wranglings with Bulgaria over identity politics.

China's Belt and Road Initiative Alfred Gerstl, Ute Wallenböck, 2020-11-30 This edited volume presents a trans-disciplinary and multifaceted assessment of the strategic and economic impacts of China's Belt and Road Initiative (BRI) on three regions, namely Central Asia, Southeast Asia, and Central Eastern Europe. The contributions to this book demonstrate the requirement of a more realistic view concerning the anticipated economic benefits of the New Silk Road. The contributors critique the strategic effects of China's opaque long-term grand strategy on the regional and global political order. Specific countries that are covered are Finland, Hungary, Kazakhstan, Malaysia, Poland, and Thailand. Additionally, case studies from South Asia and Africa, notably India and Ethiopia, enable insightful comparisons. Encouraging readers to critically challenge mainstream interpretations of the aims and impacts of the BRI, this book should interest academics and students from various disciplines including Political Science, International Relations, Political Geography, Sociology, Economics, International Development, and Chinese Studies.

Global Governance and Interaction between International Institutions Alexander Libman, Anastassia Obydenkova, 2023-09-26 This book builds on theory of authoritarian regionalism and is the first attempt to analyse the interaction of authoritarian regional organizations in Eurasia with their global and regional counterparts (NATO, EU, WTO, IMF etc.). It analyses three decades of the development of post-Soviet regional organizations prior to the tectonic geopolitical and security changes of 2022. Eurasian regional organizations created by Russia have been frequently perceived as attempts to establish 'alternatives' to the global governance institutions and to compete with other regional organizations like, for example, the European Union (EU). They are seen as a pronounced example of 'authoritarian regionalism', i.e., regional organizations established by non-democracies. The way they interact with global and regional institutions has, however, remained understudied. This book aims to close this gap. It places Eurasia within a global context and considers similar trends world-wide as well as outlines the agenda for future studies of global versus regional governance. The book sheds light on long-term strategies of Russia in Eurasia, in global economy and in world politics, and on the interaction between Russia and other post-Soviet states. With an extended introduction and conclusion, this book is an insightful resource for scholars; advanced students; and researchers of politics, international relations, and Eurasian area-studies. The chapters in this book were originally published as a special issue of *Post-Communist Economies*.

SARS-CoV-2 and Coronacrisis Fr archpriest Evgeny I. Legach, Konstantin S. Sharov, 2021-07-28 This book is useful for administrators of different levels involved in counteracting COVID-19, surveillance professionals, clinicians, researchers specializing in epidemiology, microbiology, and infectious diseases, and politicians / legislators engaged in public health sector. The editors are sure that sharing our different experience would help to elaborate necessary strategies, protocols, and principles that may be effectively applied in the future to avoid dramatic consequences of not only COVID-19 but also any possible epidemiological hazards for people and medicine.

Strategic Planning in Local Communities Călin Emilian Hînțea, Marius Constantin Profiroi, Tudor Cristian Țiclău, 2019-01-29 This is a comparative international study of the patterns of planning in local governments. While strategic planning has been a field of interest for public management and administrative science for over half a century there are very few cross-national studies of the specifics of planning in local governments. The book analyses the planning activities of local authorities in 7 diverse countries: France, Hungary, Romania, Russia, Spain, Turkey and USA. Although theoretical models of strategic planning are used, the book's findings point to a very diverse and interesting environment with cultural, political and legal factors playing a significant role in shaping how planning is done in each country.

Understanding Religious Violence James Dingley, Marcello Mollica, 2018-11-23 This book addresses the problem of religiously based conflict and violence via six case studies. It stresses particularly the structural and relational aspects of religion as providing a sense of order and a networked structure that enables people to pursue quite prosaic and earthly concerns. The book examines how such concerns link material and spiritual salvation into a holy alliance. As such, whilst the religions concerned may be different, they address the same problems and provide similar explanations for meaning, success, and failure in life. Each author has conducted their own field-work in the religiously based conflict regions they discuss, and together the collection offers perspectives from a variety of different national backgrounds and disciplines.

IT Crisisology Casebook Sergey V. Zykov, 2022-06-03 The book focuses on the real-world case-based crisis management in digital product development. This includes forecasting, responding, and agile engineering/management methods, patterns, and practices for sustainable development. This book introduces a set of case studies for sustainability in management as a blend, the components of which have been carefully selected from a few domains adjacent to digital production such as IT-intensive operation, human resource management, and knowledge engineering, to name a few. The key ingredients of this crisis management framework include information management, tradeoff optimization, agile product development, and knowledge transfer. The case studies this book features will help the stakeholders in understanding and identifying the key

technology, business, and human factors that may likely result in a digital production crisis, i.e., critically affect the organization outcomes in terms of successful digitalization and sustainable development. These factors are particularly important for the large-scale applications, typically considered very complex in managerial and technological aspects, and, therefore, specifically addressed by the discipline of IT crisisology.

This book considers the roles played by US, British and German multinational companies (MNCs) in Central and Eastern Europe

The Donbas Conflict in Ukraine Daria Platonova,2021-09-28 This book examines why, when the conflict in eastern Ukraine began in 2014, fighting broke out in the Donets’k region, whereas it did not in Kharkiv city, despite the city, like the Donets’k region, being geographically proximate to Russia and similar in ethnic and linguistic make up. Based on extensive original research, the book argues that a key factor was the nature and behaviour of local elites, with those in Kharkiv having diffuse ties to the centre and therefore being more capable of adapting to sudden, profound regime change at the centre, whereas the elites in the Donets’k region had much more concentrated ties to the centre, were dependent on one network, and therefore were much less able to cope with change. The book thereby demonstrates how crucial for Ukraine are patronal politics, patronage networks, and informal centre-region relations, and that it was these local political circumstances, rather than Russia, which brought about the conflict.

Commercial Contract Law and Arbitration Mads Andenas,Maren Heidemann,2024-04-30 This book tackles one of the most challenging fields of research and practice in the current global trade environment: integrating doctrines of private and public law for the purpose of international commerce and trade. Traditional concepts of obligatory and proprietary claims and rights reach their limits when placed within an international context of litigation funding, liability and securitisation. Across disciplines, scholars and practitioners are seeking new ways of expanding and reconnecting novel products and services such as data; and the use of international dispute settlement with indispensable constitutional values and democratic processes is also growing. This book combines contributions on current issues in commercial contract and contract law, making an important contribution to the areas of substantive contract law and arbitration procedure that connect issues across disciplines. Exploring both substantive and procedural laws, the book explores unfair terms in non-consumer contracts, which is complemented by a broader contextual discussion of the regulation of platform operators in the European Union; while a discussion of the procedural role of public reporting of investment arbitration awards by the International Centre for the Settlement of Investment Disputes (ICSID) expands on the procedural aspects of arbitration within the wider context of the rule of law debate. Debating policy issues in general private law reform, and including a juxtaposition of a traditionalist continuation-oriented approach and a call for radical reform of entrenched and outmoded private law concepts to suit global commerce, this book will be of interest to students, academics and practitioners working in the area of commercial contract law and arbitration.

1917 and the Consequences Gerhard Besier,Katarzyna Stokłosa,2019-09-30 The Russian Revolution of 1917 has been one of the most important events of modern history. It changed the course of the events not only in Russia but, on a wider scale, across the world while it influenced the flow of history throughout the twentieth century until the fall of the Soviet Union and, to some extent, well beyond this time. Radical change in Russia triggered social revolutions and reformations across Europe, while authoritarian systems shaped their societies according to the Russian model. This book analyses these forces, particularly at the European periphery which has been underexplored until this volume.

Internet Memes and Society Anastasia Denisova,2019-03-21 This book provides a solid, encompassing definition of Internet memes, exploring both the common features of memes around the globe and their particular regional traits. It identifies and explains the roles that these viral texts play in Internet communication: cultural, social and political implications; significance for self-representation and identity formation; promotion of alternative opinion or trending interpretation; and subversive and resistant power in relation to professional media, propaganda, and traditional and digital political campaigning. It also offers unique comparative case studies of Internet memes in Russia and the United States.

Pan-Slavism and Slavophilia in Contemporary Central and Eastern Europe Mikhail Suslov,Marek Čejka,Vladimir Đorđević,2023-02-13 This book explores origins, manifestations, and functions of Pan-Slavism in contemporary Central and Eastern Europe, arguing that despite the extinction of Pan-Slavism as an articulated Romantic-era geopolitical ideology, a number of related discourses, metaphors, and emotions have spilled over into the mainstream debates and popular imagination. Using the term Slavophilia to capture the range of representations, the volume analyses how geopolitical discourses shape the identity and policies of a community, providing a comparative analysis that covers a range of Slavic countries in order to understand how Pan-Slavism works and resonates across geographic and political contexts.

Circassia and Ukraine Adel Bashqawi,2023-08-23 In light of the war of extermination that waged against Ukraine, the aggression is a typical scorched-earth policy. Genocide, ethnic cleansing, and forced deportation committed in the nineteenth century in Circassia are similar to Russia’s war in Ukraine since February 24, 2022. The book reminds of dozens of peoples and nations eager to restore their confiscated rights since the dissolution of the Soviet Union until now. It is divided into time periods (chapters). It touches on articles, studies, prominent occasions, developments, events, and commemorations that occurred during the mentioned period. What happened in the past and is developing nowadays necessitated the documentation, showing and exposing facts and events, which will set the record straight. Where actions speak louder than words, this confirms an undeniable reality. With peoples deprived of their rights, the Russian state did not care so far for mending fences and reconciling for peace and fairness. That confirms an undeniable fact, which is that the Russian state has not cared so far to carry out the duty entrusted to it in order to correct what the successive Russian regimes have committed against the Circassian nation and other victims of wars, occupation, genocide, deportation, and forced annexation.

COVID-19 and a World of Ad Hoc Geographies Stanley D. Brunn,Donna Gilbreath,2022-09-15 This book provides an interdisciplinary overview of the causes and impacts of COVID-19 on populations, economies, politics, institutions and environments from all world regions. The book maps the causes, effects and impacts of the virus and describes the impact of the virus on among others health care, teaching and learning, travel, tourism, daily life, local and regional economies, media impacts, elections, and indigenous populations and much more. Contributions to this book come from the humanities, social and policy science disciplines as well as from emerging transdisciplinary fields including climate change, sustainability, health care and epidemiology, security, art, visualization, economic and social well-being, law and borderland studies. As such, this book will be a rich source of information to all those geographers, social scientists and urban and regional planners working in this field.
