**Handbook on Railway Regulation** Matthias Finger, Juan

Montero, 2020-09-25 Taking a global approach, this insightful Handbook brings together leading researchers to provide a comprehensive overview of the state-of-the-art in railway regulation with a particular focus on countries that rely heavily on railways for transportation links. The Handbook also considers the most pressing issues for those working in and with railway systems, and outlines future trends in the development of rail globally.

Alternative Paths to Influence Giulio M. Gallarotti, 2023-06-06

This book offers new and cutting-edge analyses of under-explored subjects and issues in the realm of soft power. It attempts to fill significant scholarly gaps in understanding the process by which

soft power is created, as well as gaps in demonstrating its impact.

Soft power is one of the most influential ideas in the study of international politics over the past thirty years. Can nations attain their most vital foreign policy objectives in agreeable ways?

Advocates of the concept of soft power have vociferously answered in the affirmative. After many years of thinking in the field of international affairs that the only effective path to influence in international politics was military and economic power, the idea of soft power offers new and exciting possibilities of gaining such influence through a more benign path, one that elevates cooperation and esteem as preferred alternatives to violence, threat and military capacity. This book posits that the realization of the full potential of soft power as a foundation for international relations is a crucial goal for our present world, one beset by war and planetary crises. The book will be of special interest to researchers across political science, international relations, cultural studies and foreign policy. It was originally published as a special issue of the Journal of Political Power.

**SARS-CoV-2 and Coronacrisis** Fr archpriest Evgeny I.

Legach, Konstantin S. Sharov, 2021-07-28 This book is useful for administrators of different levels involved in counteracting

COVID-19, surveillance professionals, clinicians, researchers specializing in epidemiology, microbiology, and infectious diseases, and politicians / legislators engaged in public health sector. We use an innovative approach of combining both epidemiological and sociological analyses, as the very problem is mainly an issue of correct governance. A team of authors from Europe, Russia and China summarizes their experience and knowledge useful for containing SARS-CoV-2 and overcoming social and managerial consequences of the pandemic. The editors are sure that sharing our different experience would help to elaborate necessary strategies, protocols, and principles that may be effectively applied in the future to avoid dramatic consequences of not only COVID-19 but also any possible epidemiological hazards for people and medicine.

### Strategic Planning in Local Communities Călin Emilian

Hințea, Marius Constantin Profireoiu, Tudor Cristian

Încău, 2019-01-29 This is a comparative international study of the patterns of planning in local governments. While strategic planning has been a field of interest for public management and administrative science for over half a century there are very few cross-national studies of the specifics of planning in local

governments. The book analyses the planning activities of local authorities in 7 diverse countries: France, Hungary, Romania, Russia, Spain, Turkey and USA. Although theoretical models of strategic planning are used, the book's findings point to a very diverse and interesting environment with cultural, political and legal factors playing a significant role in shaping how planning is done in each country.

**Circassia and Ukraine** Adel Bashqawi, 2023-08-23 In light of the war of extermination that waged against Ukraine, the aggression is a typical scorched-earth policy. Genocide, ethnic cleansing, and forced deportation committed in the nineteenth century in Circassia are similar to Russia's war in Ukraine since February 24, 2022. The book reminds of dozens of peoples and nations eager to restore their confiscated rights since the dissolution of the Soviet Union until now. It is divided into time periods (chapters). It touches on articles, studies, prominent occasions, developments, events, and commemorations that occurred during the mentioned period. What happened in the past and is developing nowadays necessitated the documentation, showing and exposing facts and events, which will set the record straight. Where actions speak louder than words, this confirms an undeniable reality. With

peoples deprived of their rights, the Russian state did not care so far for mending fences and reconciling for peace and fairness. That confirms an undeniable fact, which is that the Russian state has not cared so far to carry out the duty entrusted to it in order to correct what the successive Russian regimes have committed against the Circassian nation and other victims of wars, occupation, genocide, deportation, and forced annexation.

*Youth in Putin's Russia* Elena Omelchenko, 2021-12-02 This edited volume sheds light on the lives of young people in various central and peripheral regions of Russia, including youth belonging to different ethnic and religious groups and who have differing views on contemporary politics. While the literature continues to grow regarding the inclusion of youth in global contexts, the specific cultural, political, and economic circumstances of being young in Russia make the Russian case unique. Chapter authors focus on four key aspects that characterize the youth experience in contemporary Russia: cultural practices and value affiliations, citizenship and patriotism, ethnic and religious diversity, and the labor market. This collection will appeal to readers interested in contemporary life in Russia and looking for the latest empirical material on youth identities and cultures, as well as those looking

to learn about the critical viewpoint of local academics regarding the ongoing processes in contemporary Russian society.

*Macedonia's Long Transition* Robert Hudson, Ivan

Dodovski, 2023-02-24 This book provides a broad, interdisciplinary analysis of events impacting on North Macedonia since its independence, particularly during the last decade. In the past thirty years, the country has gone through deep political, social and economic transition, along with a name change from 'Macedonia' to the 'Republic of North Macedonia' following the Prespa Agreement signed with Greece. The contributors consider Macedonia's challenges, its multi-ethnic make-up and its ambition to enter the European mainstream through the auspices of the European Union and NATO. The volume includes chapters on international politics and North Macedonia's place in the region's security architecture as well as the difficulties of the privatisation of socially owned enterprises, political corruption, state capture and backsliding. The book also covers the controversial 'Skopje 2014' project in addition to the impact of migration along the 'Balkan Route' and the current wranglings with Bulgaria over identity politics.

*Emigration and Diaspora Policies in the Age of Mobility*

Agnieszka Weiner, 2017-07-05 This volume examines the ways different countries around the world have responded to rising numbers of mobile citizens. Complete with detailed case studies, it provides a groundbreaking and global analysis of emigration and diaspora policies in the 21st century. First, an introduction considers factors that determine a state's policy choices. It draws on rich empirical material to present readers with information on the determinants of policy definition and implementation, reactions to emigration, and converging and diverging trends. Next, the volume offers detailed case studies from 15 countries around the world, including Argentina, Vietnam, Senegal, the Russian Federation, Denmark, and Turkey. Coverage for each country critically analyzes its emigration or diaspora policies as well as how these policies affect its mobile citizens. The contributors also place the policies in context and explore the consequences of pertinent rules and provisions. In addition, a conclusion presents a comparative analysis of all case studies as well as details a set of best practices. Emigration and immigration are two sides of the same coin that every country experiences and, in one way or the other, must face. This book offers readers a new look on diaspora and emigration governance across the globe and explores the

future paradigm of reactions to emigration.

The Donbas Conflict in Ukraine Daria Platonova, 2021-09-27

This book examines why, when the conflict in eastern Ukraine began in 2014, fighting broke out in the Donetsk region, whereas it did not in Kharkiv city, despite the city, like the Donetsk region, being geographically proximate to Russia and similar in ethnic and linguistic make up. Based on extensive original research, the book argues that a key factor was the nature and behaviour of local elites, with those in Kharkiv having diffuse ties to the centre and therefore being more capable of adapting to sudden, profound regime change at the centre, whereas the elites in the Donetsk region had much more concentrated ties to the centre, were dependent on one network, and therefore were much less able to cope with change. The book thereby demonstrates how crucial for Ukraine are patronal politics, patronage networks, and informal centre-region relations, and that it was these local political circumstances, rather than Russia, which brought about the conflict.

**Russia's Role in the Contemporary International Agri-Food Trade System** Stephen K. Wegren, Frode Nilssen, 2021-11-11 This Open Access book analyses the emergence of Russia as a global

food power and what it means for global food trade. Russia's strategy for food production and trade has changed significantly since the end of the Soviet period, and this is the first book to take account of Russia's rise as a food power and the global implications of that rise. It includes food trade policy and practice, and developments in regional food trade. This book will be of interest to academics and practitioners in agricultural economics, international trade, and international food trade.

**False Mirrors: The Weaponization of Social Media in Russia's Operation to Annex Crimea** Andrey Demartino, 2021-09-21 In his timely study, Andrii Demartino investigates the multitude of techniques how social media can be used to advance an aggressive foreign policy, as exemplified by the Russian Federation's operation to annex Crimea in 2014. Drawing on a wide range of sources, Demartino traces the implementation of a series of Russian measures to create channels and organisations manipulating public opinion in the Ukrainian segment of the internet and on platforms such as Facebook, VKontakte, Odnoklassniki, LiveJournal, and Twitter. Addressing the pertinent question of how much the operation to annex Crimea was either improvised or planned, he draws attention to Russia's ad-hoc actions in the

sphere of social media in 2014. Based on an in-depth analysis of the methods of Russia's influence operations, the book proposes a number of counterstrategies to prevent such "active measures." These propositions can serve to improve Ukraine's national information policy as well as help to develop adequate security concepts of other states.

### **Diaspora Engagement in Times of Severe Economic Crisis**

Othon Anastasakis, Manolis Pratsinakis, Foteini Kalantzi, Antonis Kamaras, 2022-06-19 How does a severe economic crisis impact on diaspora-homeland relations? The present volume addresses this question by exploring diaspora engagement in Greece during the protracted post-2009 eurozone crisis. In so doing, it looks at the crisis as a critical juncture in Greece's relations with its nationals abroad. The contributors in this book explore aspects of diaspora engagement, including transnational mobilisation, homeland reform, the role of diasporic institutions, crisis driven migration, as well as, comparisons with other countries in Europe. This book provides a compelling and original interdisciplinary study of contemporary diaspora issues, through the lens of an advanced economy and democracy facing a prolonged crisis, and, as such, it is a significant addition to the literature on European diasporas.

## **Tourism and Heritage in the Chernobyl Exclusion Zone**

Magdalena Banaszekiewicz, 2022-09-28 *Tourism and Heritage in the Chernobyl Exclusion Zone* (CEZ) uses an ethnographic lens to explore the dissonances associated with the commodification of Chernobyl's heritage. The book considers the role of the guides as experience brokers, focusing on the synergy between tourists and guides in the performance of heritage interpretation. Banaszekiewicz proposes to perceive tour guides as important actors in the bottom-up construction of heritage discourse contributing to more inclusive and participatory approach to heritage management. Demonstrating that the CEZ has been going through a dynamic transformation into a mass tourism attraction, the book offers a critical reflection on heritagisation as a meaning-making process in which the resources of the past are interpreted, negotiated, and recognised as a valuable legacy. Applying the concepts of dissonant heritage to describe the heterogeneous character of the CEZ, the book broadens the interpretative scope of dark tourism which takes on a new dimension in the context of the war in Ukraine. *Tourism and Heritage in the Chernobyl Exclusion Zone* argues that post-disaster sites such as Chernobyl can teach us a great deal about the importance of preserving cultural and natural heritage for future

generations. The book will be of interest to academics and students who are engaged in the study of heritage, tourism, memory, disasters and Eastern Europe.

**Benefit Sharing in the Arctic** Maria Tysiachniouk, Andrey N Petrov, Violetta Gassiy, 2020-12-29 This book provides a first-of-its-kind review and analysis of benefit sharing frameworks between extractive industries and Indigenous and local communities in different parts of the Arctic. The authors describe a wealth of case studies in order to examine predominant practices, policies, arrangements, mechanisms and impact assessment methodologies. They also discuss possible ways to improve and advance existing benefit sharing regimes, in order to attain fair and equitable benefit sharing and support sustainable development. Among the topics covered in the book are corporate social responsibility and social license to operate, principles and methodologies of determining compensation, legal and informal frameworks of benefit sharing, community response to extractive activities, and global-to-local linkages that shape benefit sharing processes. The book will be of interest to academics, industry experts, legal specialists, policymakers, community members concerned with industrial activities, and anyone interested in

sustainable development in the Arctic.

*1917 and the Consequences* Gerhard Besier,Katarzyna Stokłosa,2019-09-30 The Russian Revolution of 1917 has been

one of the most important events of modern history. It changed the course of the events not only in Russia but, on a wider scale, across the world while it influenced the flow of history throughout the twentieth century until the fall of the Soviet Union and, to some extent, well beyond this time. Radical change in Russia triggered social revolutions and reformations across Europe, while authoritarian systems shaped their societies according to the Russian model. This book analyses these forces, particularly at the European periphery which has been underexplored until this volume.
