*Macedonia's Long Transition* Robert Hudson, Ivan Dodovski, 2023-02-24 This book provides a broad, interdisciplinary analysis of events impacting on North Macedonia since its independence, particularly during the last decade. In the past thirty years, the country has gone through deep political, social and economic transition, along with a name change from 'Macedonia' to the 'Republic of North Macedonia' following the Prespa Agreement signed with Greece. The contributors consider Macedonia's challenges, its multi-ethnic make-up and its ambition to enter the European mainstream through the auspices of the European Union and NATO. The volume includes chapters on international politics and North Macedonia's place in the region's security architecture as well as the difficulties of the privatisation of socially owned enterprises, political corruption, state capture and backsliding. The book also covers the controversial 'Skopje 2014' project in addition to the impact of migration along the 'Balkan Route' and the current wranglings with Bulgaria over identity politics.

**Strategic Planning in Local Communities** Călin Emilian Hînțea, Marius Constantin Profiroiu, Tudor Cristian Țiclău, 2019-01-29 This is a comparative international study of the patterns of planning in local governments. While strategic planning has been a field of interest for public management and administrative science for over half a century there are very few cross-national studies of the specifics of planning in local governments. The book analyses the planning activities of local authorities in 7 diverse countries: France, Hungary, Romania, Russia, Spain, Turkey and USA. Although theoretical models of strategic planning are used, the book's findings point to a very diverse and interesting environment with cultural, political and legal factors playing a significant role in shaping how planning is done in each country.

*Human Aspects of IT for the Aged Population. Supporting*

*Everyday Life Activities* Qin Gao, Jia Zhou, 2021-07-03 This two-volume set constitutes the refereed proceedings of the 7th International Conference on Human Aspects of IT for the Aged Population, ITAP 2021, held as part of the 23rd International Conference, HCI International 2021, held as a virtual event, in July 2021. The total of 1276 papers and 241 posters included in the 39 HCII 2021 proceedings volumes was carefully reviewed and selected from 5222 submissions. ITAP 2021 includes a total of 67 papers; they focus on topics related to designing for and with older users, technology acceptance and user experience of older users, use of social media and games by the aging population, as well as applications supporting health, wellbeing, communication, social participation and everyday activities.

**Inventing Majorities** Mykhailo Minakov, 2022-03-22 The recent history of post-Soviet societies is heavily shaped by the successor nations' efforts to geopolitically re-identify themselves and to reify certain majorities in them. As a result of these fascinating processes, various new ideologies have appeared. Some are specific to the post-Soviet space while others are comparable to ideational processes in other parts of the world. In this collected volume, an international group of contributors delves deeper into recent theoretical constructions of various post-Soviet majorities, the ideologies that justify them, and some respectively formulated policy prescriptions. The first part analyzes post-Soviet state-builders' fixation on certain constructed majorities as well as on these imagined communities' symbolic self-identifications, in- or outward othering, and national languages. The second part deals specifically with post-Soviet ideas of sovereignty and the way they define majorities as well as imply changes in internal and external policies and legal systems. These processes are analyzed in comparison to similar phenomena in Western societies. The book's contributors include (in the order of their appearance): Natalia Kudriavtseva, Petra Colmorgen, Nadiia Koval, Ivan Gomza, Augusto Dala Costa,

Roman Horbyk, Yana Prymachenko, Yuliya Yurchuk, Oleksandr Fisun, Nataliya Vinnykova, Ruslan Zaporozhchenko, Mikhail Minakov, Gulnara Shaikhutdinova, and Yurii Mielkov.

**SARS-CoV-2 and Coronacrisis** Fr archpriest Evgeny I. Legach, Konstantin S. Sharov, 2021-07-28 This book is useful for administrators of different levels involved in counteracting COVID-19, surveillance professionals, clinicians, researchers specializing in epidemiology, microbiology, and infectious diseases, and politicians / legislators engaged in public health sector. We use an innovative approach of combining both epidemiological and sociological analyses, as the very problem is mainly an issue of correct governance. A team of authors from Europe, Russia and China summarizes their experience and knowledge useful for containing SARS-CoV-2 and overcoming social and managerial consequences of the pandemic. The editors are sure that sharing our different experience would help to elaborate necessary strategies, protocols, and principles that may be effectively applied in the future to avoid dramatic consequences of not only COVID-19 but also any possible epidemiological hazards for people and medicine.

*PISA Education in Eastern Europe and Central Asia Findings from PISA* OECD, United Nations Children's Fund, 2021-07-30 Countries in Eastern Europe and Central Asia have clear aspirations to strengthen civic participation and increase prosperity for all. A highly skilled and knowledgeable population is critical to achieving these goals, which makes creating and maintaining high quality and equitable education systems a vital part of regional development efforts. Results from the Programme for International Student Assessment (PISA) show that learning outcomes in the region have generally improved, but that the improvement has not been equitable. While countries in the region are producing some of the top performing students in the world, many other students are being left behind.

### **The Donbas Conflict in Ukraine** Daria

Platonova,2021-09-27 This book examines why, when the conflict in eastern Ukraine began in 2014, fighting broke out in the Donetsk region, whereas it did not in Kharkiv city, despite the city, like the Donetsk region, being geographically proximate to Russia and similar in ethnic and linguistic make up. Based on extensive original research, the book argues that a key factor was the nature and behaviour of local elites, with those in Kharkiv having diffuse ties to the centre and therefore being more capable of adapting to sudden, profound regime change at the centre, whereas the elites in the Donetsk region had much more concentrated ties to the centre, were dependent on one network, and therefore were much less able to cope with change. The book thereby demonstrates how crucial for Ukraine are patronal politics, patronage networks, and informal centre-region relations, and that it was these local political circumstances, rather than Russia, which brought about the conflict.

### **Russian Information Warfare** Bilyana Lilly,2022-09-15

Russian Information Warfare: Assault on Democracies in the Cyber Wild West examines how Moscow tries to trample the very principles on which democracies are founded and what we can do to stop it. In particular, the book analyzes how the Russian government uses cyber operations, disinformation, protests, assassinations, coup d'états, and perhaps even explosions to destroy democracies from within, and what the United States and other NATO countries can do to defend themselves from Russia's onslaught. The Kremlin has been using cyber operations as a tool of foreign policy against the political infrastructure of NATO member states for over a decade. Alongside these cyber

operations, the Russian government has launched a diverse and devious set of activities which at first glance may appear chaotic. Russian military scholars and doctrine elegantly categorizes these activities as components of a single strategic playbook —information warfare. This concept breaks down the binary boundaries of war and peace and views war as a continuous sliding scale of conflict, vacillating between the two extremes of peace and war but never quite reaching either. The Russian government has applied information warfare activities across NATO members to achieve various objectives. What are these objectives? What are the factors that most likely influence Russia's decision to launch certain types of cyber operations against political infrastructure and how are they integrated with the Kremlin's other information warfare activities? To what extent are these cyber operations and information warfare campaigns effective in achieving Moscow's purported goals? Dr. Bilyana Lilly addresses these questions and uses her findings to recommend improvements in the design of U.S. policy to counter Russian adversarial behavior in cyberspace by understanding under what conditions, against what election components, and for what purposes within broader information warfare campaigns Russia uses specific types of cyber operations against political infrastructure.

*Commercial Contract Law and Arbitration* Mads

Andenas, Maren Heidemann, 2024-04-30 This book tackles one of the most challenging fields of research and practice in the current global trade environment: integrating doctrines of private and public law for the purpose of international commerce and trade. Traditional concepts of obligatory and proprietary claims and rights reach their limits when placed within an international context of litigation funding, liability and securitisation. Across disciplines, scholars and practitioners are seeking new ways of expanding and reconnecting novel products and services such as data; and the use of international dispute settlement with

indispensable constitutional values and democratic processes is also growing. This book combines contributions on current issues in commercial contract and contract law, making an important contribution to the areas of substantive contract law and arbitration procedure that connect issues across disciplines. Exploring both substantive and procedural laws, the book explores unfair terms in non-consumer contracts, which is complemented by a broader contextual discussion of the regulation of platform operators in the European Union; while a discussion of the procedural role of public reporting of investment arbitration awards by the International Centre for the Settlement of Investment Disputes (ICSID) expands on the procedural aspects of arbitration within the wider context of the rule of law debate. Debating policy issues in general private law reform, and including a juxtaposition of a traditionalist continuation-oriented approach and a call for radical reform of entrenched and outmoded private law concepts to suit global commerce, this book will be of interest to students, academics and practitioners working in the area of commercial contract law and arbitration.

**Proceedings of the 12th UUM International Legal Conference 2023 (UUMILC 2023)** Rohana Abdul Rahman, Mohamad Fateh Labanieh, Md. Zahurul Haq, Zuryati Mohamed Yusoff, Ahmad Shamsul Abd. Circassia and Ukraine Adel Bashqawi, 2023-08-23 In light of the war of extermination that waged against Ukraine, the aggression is a typical scorched-earth policy. Genocide, ethnic cleansing, and forced deportation committed in the nineteenth

century in Circassia are similar to Russia's war in Ukraine since February 24, 2022. The book reminds of dozens of peoples and nations eager to restore their confiscated rights since the dissolution of the Soviet Union until now. It is divided into time periods (chapters). It touches on articles, studies, prominent occasions, developments, events, and commemorations that occurred during the mentioned period. What happened in the past and is developing nowadays necessitated the documentation, showing and exposing facts and events, which will set the record straight. Where actions speak louder than words, this confirms an undeniable reality. With peoples deprived of their rights, the Russian state did not care so far for mending fences and reconciling for peace and fairness. That confirms an undeniable fact, which is that the Russian state has not cared so far to carry out the duty entrusted to it in order to correct what the successive Russian regimes have committed against the Circassian nation and other victims of wars, occupation, genocide, deportation, and forced annexation.

**Jihadist Infiltration of Migrant Flows to Europe** Sam Mullins, 2019-02-25 This book explores one of the most topical and controversial issues of recent years – jihadist terrorist infiltration of irregular migrant flows to Europe. Utilizing robust sampling criteria, more than a hundred such cases are identified and rigorously assessed. The analysis reveals the characteristics of offenders, their travel patterns and operational activities, and critically evaluates subsequent law enforcement and judicial responses. The author draws upon interviews with a range of European security officials, as well as non-governmental organization employees, and a recent refugee, in order to provide a series of practical recommendations.

**Digital Literacy for Teachers** Łukasz Tomczyk, Laura Fedeli, 2022-05-26 This book shows the results of research in different countries on how to measure digital competence among future generations of teachers and facing the challenges brought

by the convergence of analogue and digital media. This book provides answers to the research questions: How should the key competencies related to media pedagogy be effectively measured and compared? What is the level of digital literacy of pre-service teachers in selected countries? The individual chapters are based on a systematic review of research results (from the last two decades) to show trends related to changes in measurement and levels of digital competence. This book is valuable for researchers training future generations of teachers in the use of new media as well as to those trying to measure the development of the information society, as well as those conducting research in the field of comparative pedagogy (including the transfer of the most effective solutions in the field of media pedagogy).

Digital Economy and the New Labor Market: Jobs, Competences and Innovative HR Technologies Svetlana Igorevna Ashmarina, Valentina Vyacheslavovna Mantulenko, 2020 This proceedings book contains papers presented at the XI International Online Forum named after A.Ya. Kibanov Innovative Personnel Management,, which took place in Moscow, Russian Federation, 15th April-5th May 2020. Organized by Moscow State University of Management, the Forum chiefly focused on HR management issues under conditions of active penetration of IT into the management and economic sphere. The authors of contributions included in this book examine both the theoretical basis for the development of the labor landscape in our digital future, and specific practical issues related to the real business practice. The book includes results of multidisciplinary studies on the following issues: employment and the labor market: a future perspective; current trends of HR management development in digital conditions; IT for creating healthy work conditions; digital transformation and new architecture of the labor market; innovative, strategic HR management and HR analytics; leadership, etc. The book consists of six parts corresponding to thematic areas of the Forum. The first part deals with the

transformation of the labor market under the influence of digitalization and international economic relations. The second part is devoted to the analysis of the current changes in the HR management caused by digitalization, as well as issues of creating a healthy work environment and managing well-being with information technology. New architecture of the labor market is considered in the third part of the book in the face of the global uncertainty and the application of digital technology in entrepreneurial activities. The fourth part investigates innovative approaches to the personnel development: from resource management to capacity management. The fifth part presents strategic HR management and HR analytics in the context of current macro-calls. And finally, the sixth part is aimed at considering leadership aspects and relations between investments in the human capital and needed business results. This book is a combination of different scientific opinions and research works of scholars from different countries and regions, offering us a colorful picture of the future labor landscape: jobs, competences and skills that will be in demand.

Abkhazia: 1992-2022 Metin Sonmez, 2022-10-12 The 14th of August 2022 is the 30th anniversary of the start of the war between the Georgians and the Abkhazians in the decades-long dispute over ownership of the small territory known to the autochthonous Abkhazians as Apsny, to the Georgians as apxazeti, and to most of the world as Abkhazia. For much of the world, the territory remains either a thoroughly unknown or, at best, poorly known country and, for many, a disputed region... This project is the continuation of the earlier "Reflections on Abkhazia: [14 August] 1992-2012", which was completed 10 years ago. It aims to bring together different points of view on Abkhazia and the Georgian-Abkhazian conflict. The authors were given complete freedom regarding the content of their texts. Roots of Russia's War in Ukraine Elizabeth A. Wood, William E. Pomeranz, E. Wayne Merry, Maxim Trudolyubov, 2015-12-15 In

February 2014, Russia initiated a war in Ukraine, its reasons for aggression unclear. Each of this volume's authors offers a distinct interpretation of Russia's motivations, untangling the social, historical, and political factors that created this war and continually reignite its tensions. What prompted President Vladimir Putin to send troops into Crimea? Why did the conflict spread to eastern Ukraine with Russian support? What does the war say about Russia's political, economic, and social priorities, and how does the crisis expose differences between the EU and Russia regarding international jurisdiction? Did Putin's obsession with his macho image start this war, and is it preventing its resolution? The exploration of these and other questions gives historians, political watchers, and theorists a solid grasp of the events that have destabilized the region.

*Handbook of Research on Big Data Storage and Visualization Techniques* Segall, Richard S., Cook, Jeffrey S., 2018-01-05 The digital age has presented an exponential growth in the amount of data available to individuals looking to draw conclusions based on given or collected information across industries. Challenges associated with the analysis, security, sharing, storage, and visualization of large and complex data sets continue to plague data scientists and analysts alike as traditional data processing applications struggle to adequately manage big data. The *Handbook of Research on Big Data Storage and Visualization Techniques* is a critical scholarly resource that explores big data analytics and technologies and their role in developing a broad understanding of issues pertaining to the use of big data in multidisciplinary fields. Featuring coverage on a broad range of topics, such as architecture patterns, programming systems, and computational energy, this publication is geared towards professionals, researchers, and students seeking current research and application topics on the subject.

**Conspiracy Theories in Eastern Europe** Anastasiya Astapova, Onoriu Colăcel, Corneliu Pintilescu, Tamás

Scheibner,2020-10-29 This collection of state-of-the-art essays explores conspiracy cultures in post-socialist Eastern Europe, ranging from the nineteenth century to contemporary manifestations. Conspiracy theories about Freemasons, Communists and Jews, about the Chernobyl disaster, and about George Soros and the globalist elite have been particularly influential in Eastern Europe, but they have also been among the most prominent worldwide. This volume explores such conspiracy theories in the context of local Eastern European histories and discourses. The chapters identify four major factors that have influenced cultures of conspiracy in Eastern Europe: nationalism (including ethnocentrism and antisemitism), the socialist past, the transition period, and globalization. The research focuses on the impact of imperial legacies, nation-building, and the Cold War in the creation of conspiracy theories in Eastern Europe; the effects of the fall of the Iron Curtain and conspiracism in a new democratic setting; and manifestations of viral conspiracy theories in contemporary Eastern Europe and their worldwide circulation with the global rise of populism. Bringing together a diverse landscape of Eastern European conspiracism that is a result of repeated exchange with the West, the book includes case studies that examine the history, legacy, and impact of conspiracy cultures of Bulgaria, Estonia, Hungary, Moldova, Poland, Romania, Russia, Slovakia, Ukraine, the former Yugoslav countries, and the former Soviet Union. The book will appeal to scholars and students of conspiracy theories, as well as those in the areas of political science, area studies, media studies, cultural studies, psychology, philosophy, and history, among others. Politicians, educators, and journalists will find this book a useful resource in countering disinformation in and about the region.

**Financial Markets Evolution** Galina Panova,2021-06-07 Influenced by technological innovation, banks and their businesses are changing dramatically. This book explores the transformation and prospects of financial market institutions

(banks, insurance companies, pension funds and microfinance organizations) in the context of the development of financial innovation, financial engineering and financial technologies, taking into account risks and new opportunities for development. It presents new approaches to the sustainable development of financial and credit institutions, taking into account the risk management and crisis management of their activities in the macro and microeconomic environment. Contributors from Russia, Kazakhstan, Azerbaijan, Mongolia, Ireland and Italy present their expert opinions on the practice of financial intermediaries in the conditions of economic transformation under the influence of the 4th Industrial Revolution and the Covid-19 pandemic. This book includes some of the key debates in this area including the genesis of financial markets in the paradigm of economic digitalization, the evolution of financial intermediaries from the classical model to the ecosystem, and the regulation of neo-banks. The book will be of interest to academics and practitioners in various spheres of theoretical and empirical knowledge, including economics, finance and banking, who are interested in investigation of the complex of fundamental (international and domestic) trends in the development of financial intermediation in the globalized financial markets.

formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing books and manuals, several platforms offer an extensive collection of resources. One

such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for books and manuals is Open Library.
