*European Research Reloaded: Cooperation and Integration among Europeanized States* Ronald Holzhaecker, Markus Haverland, 2006-09-01 This book argues that a third wave of research on the EU is needed to adequately understand the increased interconnectedness between the European and national political levels. In particular, the book asks: how has Europeanization affected current modes of integration and cooperation in the EU? The authors argue that deeper integration in other areas requires a degree of input legitimacy that is currently lacking in the EU.

Sharov, 2021-07-28 This book is useful for administrators of different levels involved in counteracting COVID-19, surveillance professionals, clinicians, researchers specializing in epidemiology, microbiology, and infectious diseases, and politicians / legislators engaged in public health sector. A team of authors from Europe, Russia and China summarizes their experience and knowledge useful for containing SARS-CoV-2 and overcoming social and managerial consequences of the pandemic. The editors are sure that sharing our different experience would help to elaborate necessary strategies, protocols, and principles that may be effectively applied in the future to avoid dramatic consequences of not only COVID-19 but also any possible epidemiological hazards for people and medicine.

**Alternative Paths to Influence** Giulio M. Gallarotti, 2023-06-06 This book offers new and cutting-edge analyses of under-explored subjects and issues in the realm of soft power. It attempts to fill significant scholarly gaps in understanding the process by which soft power is created, as well as gaps in demonstrating its impact. Soft power is one of the most influential ideas in the study of international politics over the past thirty years. Can nations attain their most vital foreign policy objectives in agreeable ways? Advocates of the concept of soft power have vociferously answered in the affirmative. After many years of thinking in the field of international affairs that the only effective path to influence in international politics was military and economic power, the idea of soft power offers new and exciting possibilities of gaining such influence through a more benign path, one that elevates cooperation and esteem as preferred alternatives to violence, threat and military capacity. This book posits that the realization of the full potential of soft power as a foundation for international relations is a crucial goal for our present world, one beset by war and planetary crises. The book will be of special interest to researchers across political science, international relations, cultural studies and foreign policy. It was originally published as a special issue of the Journal of Political Power.

**Practical Biopolitics of COVID-19** Andrey Makarychev, Gede Wahyu Wicaksana, 2023-09-18 The book introduces the concept of practical biopolitics and discusses its applicability for anti-pandemic crisis management in Indonesia and Russia. The authors scrutinize the functioning of sovereign power and governmentality during the state of exception.

*Value Added Tax Fraud* Marius-Cristian Frunza, 2018-12-07 Serving as an introduction to one of the hottest topics in financial crime, the Value Added Tax (VAT) fraud, this new and original book aims to analyze and decrypt the fraud and explore multi-disciplinary avenues, thereby exposing nuances and shades that remain concealed by traditional taxation oriented researches. Quantifying the impact of the fraud on the real economy underlines the structural damages propagated by this crime in the European Union. The 'fraudsters' benefit when policy changes are inflicted in an economic space without a fully fledged legal framework. Geopolitical events like the creation of the Eurasian Union and 'Brexit' are analyzed from the perspective of the VAT fraud, thereby underlining the foreseeable risks of such historical turnarounds. In addition, this book also provides a unique collection of case studies that depict the main characteristics of VAT fraud. Introduction to VAT Fraud will be of interest to students at an advanced level, academics and reflective practitioners. It addresses the topics with

regards to banking and finance law, international law, criminal law, taxation, accounting, and financial crime. It will be of value to researchers, academics, professionals, and students in the fields of law, financial crime, technology, accounting and taxation.

The Caucasus Emirate Mujahedin Gordon M. Hahn, 2014-09-29 Russia's North Caucasus mujahedin of the self-declared Caucasus Emirate and the history thereof is part and parcel of the global jihadi revolutionary movement which includes but is no longer led by Al Qaeda. This book corrects the inadequate previous treatments of the violence in the Caucasus, almost all of which explain what ought to be called the rise of jihadism in the Caucasus solely in terms of Russian actions. The author brings the international jihadist and local North Caucasian causes back into the picture, detailing the global Jihadist/Islamist revolutionary movement's propagation of the "jihadi method" and material support to nationalist and Islamic extremists in Chechnya and the Caucasus since the mid-1990s. Like jihadi groups in Afghanistan and Pakistan, Iraq, Syria, and Africa, the Caucasus Emirate is an Al Qaeda ally and de facto affiliate. It represents a threat to Russian, U.S., and international security as evidenced by terrorist plots perpetrated or inspired by it in Belgium, the Czech Republic, Denmark, Spain, Azerbaijan, and Boston.

*Postcolonialism and Postsocialism in Fiction and Art* Madina Tlostanova, 2017-02-08 This book tackles the intersections of postcolonial and postsocialist imaginaries and sensibilities focusing on the ways they are reflected in contemporary art, fiction, theater and cinema. After the defeat of the Socialist modernity the postsocialist space and its people have found themselves in the void. Many elements of the former Second world experience, echo the postcolonial situations, including subalternization, epistemic racism, mimicry, unhomedness and transit, the revival of ethnic nationalisms and neo-imperial narratives, neo-Orientalist and mutant Eurocentric tendencies, indirect forms of resistance and life-asserting modes of re-existence. Yet there are also untranslatable differences between the postcolonial and the postsocialist human conditions. The monograph focuses on the aesthetic principles and mechanisms of sublime, the postsocialist/postcolonial decolonization of museums, the perception and representation of space and time through the tempolocalities of post-dependence, the anatomy of characters-tricksters with shifting multiple identities, the memory politics of the post-traumatic conditions and ways of their overcoming.

*Celebrating Borderlands in a Wider Europe* Andrey Makarychev, Alexandra Yatsyk, 2016-04-22 Die Autoren untersuchen Identitäten in den postsowjetischen Grenzgebieten in der Ukraine, Estland und Georgien seit dem Fall der Sowjetunion. Anstatt auf die großen geopolitischen Akteure richten sie den Fokus auf eine Vielzahl unterschiedlicher Akteure in den Grenzgebieten und Ihre verschiedenen kulturellen, ethnischen, religiösen und zivilisatorischen Strömungen.

**Internet Memes and Society** Anastasia Denisova, 2019-03-21 This book provides a solid, encompassing definition of Internet memes, exploring both the common features of memes around the globe and their particular regional traits. It also offers unique comparative case studies of Internet memes in Russia and the United States.

**Circassia and Ukraine** Adel Bashqawi, 2023-08-23 In light of the war of extermination that waged against Ukraine, the aggression is a typical scorched-earth policy. Genocide, ethnic cleansing, and forced deportation committed in the nineteenth century in Circassia are similar to Russia's war in Ukraine since February 24, 2022. The book reminds of dozens of peoples and nations eager to restore their confiscated rights since the dissolution of the Soviet Union until now. It is divided into time periods (chapters). It touches on articles, studies, prominent occasions, developments, events, and commemorations that occurred during the mentioned period. What happened in the past and is developing nowadays necessitated the documentation, showing and exposing facts and events, which will set the record straight. Where actions speak louder than words, this confirms an undeniable

reality. With peoples deprived of their rights, the Russian state did not care so far for mending fences and reconciling for peace and fairness. That confirms an undeniable fact, which is that the Russian state has not cared so far to carry out the duty entrusted to it in order to correct what the successive Russian regimes have committed against the Circassian nation and other victims of wars, occupation, genocide, deportation, and forced annexation.

*Different Shades of the Past* Mateusz Kamionka, Przemysław Łukasik, 2023-01-30 In his book *21 Lessons for the 21st Century* the historian Yuval Noah Harari wrote that man had the possibility to conquer the world precisely because he could create fictional stories and believe in them. People created more and more complex stories about themselves that served and continue to serve, according to the professor of the University of Jerusalem, building unity, social harmony and gaining power. A narrative about past, in which memory fragmentation and victimisation play a large role, may be a temptation to instrumentalise the past. This is especially true in relation to the events of the twentieth century, when a series of bloody war conflicts occurred. As shown in the following post-conference volume, today the wars of the past (World War I and World War II, Indian-Pakistani war) and current conflicts (Russo-Ukrainian war, war in Sudan or Nagorno-Karabakh) are also a catalyst for the process of instrumentalisation. This process can be analysed both at the level of the evolution of the language of conflict, including the erosion of the values of democratic dialogue, and the use of specific means of commemorating the past (monuments, museums, the Internet).

Strategic Planning in Local Communities Călin Emilian Hînțea, Marius Constantin Proftoiu, Tudor Cristian Țiclău, 2019-01-29 This is a comparative international study of the patterns of planning in local governments. While strategic planning has been a field of interest for public management and administrative science for over half a century there are very few cross-national studies of the specifics of planning in local governments. The book analyses the planning activities of local authorities in 7 diverse countries: France, Hungary, Romania, Russia, Spain, Turkey and USA. Although theoretical models of strategic planning are used, the book's findings point to a very diverse and interesting environment with cultural, political and legal factors playing a significant role in shaping how planning is done in each country.

**Potty Training** J.D. Rockefeller, 2015-06-17 After changing countless wet and dirty diapers, parents of toddlers everywhere are more than ready to potty train their child and move past the diaper stage. Potty training comes with its own headaches and frustrations, however, and you may find yourself wishing for those peaceful days of diaper-dom. Stay patient and persevere, and you will get through this. Despite what you will hear from many sources through the potty training stage, there is no one perfect potty training method. Each child is different and so each child needs his or her own approach to conquering this milestone. With that being said, here are a few things that just don't work: 1. Copying Someone Else's Style Somewhere out there is a super child who was successfully potty trained in two days at 11 months. I'm sure you've all heard the stories. Everybody knows somebody whose child did everything faster, better, and younger than anyone else. And that's great for them. Be happy for them and also be a little jealous. But don't try to copy their style. Just because

it worked for their child doesn't mean that it will work for yours. Stay consistent with your own strategies and routines. It will work better for you than anyone else's miracle fix. 2. Rushing Your Child It's a pretty accepted scientific fact that children simply don't have the muscles needed to hold their urine until they reach 18 months. Some children don't develop those muscles until 24 months or later. But even at that age, there's no guarantee that your child is ready to tackle potty training. There are mental skills that need to be developed as well and some children simply aren't ready for potty training until they are 3 or even 4 years old. Don't rush them, just wait for the signs that they are ready. (We'll talk more about these signs later in this book.) Don't rush into starting potty training, and don't try to rush through it either. This will be a multi-step process that could take three months or even longer. If you put too much pressure on your child, he or she may become nervous and start holding his or her stool, which can create health problems. 3. Punishing Your Child As I said, potty training can get very frustrating. Getting angry with your child for having an accident will only delay forward progress. If you punish your child for a natural setback, they will associate potty training with punishment and become less interested and uncooperative. As difficult as it can be, you have to stay calm and patient while dealing with whatever messes arise throughout this process. With these three things in mind, we're now going to take a look at what can work while potty training your child. We will cover how to tell when your child is ready, tips and tricks from experienced parents, the differences between potty training boys and girls, common problems that arise, and 3-day potty training.

**Diaspora Engagement in Times of Severe Economic Crisis** Othon Anastasakis, Manolis Pratsinakis, Foteini Kalantzi, Antonis Kamaras, 2022-06-19 How does a severe economic crisis impact on diaspora-homeland relations? The present volume addresses this question by exploring diaspora engagement in Greece during the protracted post-2009 eurozone crisis. In so doing, it looks at the crisis as a critical juncture in Greece's relations with its nationals abroad. The contributors in this book explore aspects of diaspora engagement, including transnational mobilisation, homeland reform, the role of diasporic institutions, crisis driven migration, as well as, comparisons with other countries in Europe. This book provides a compelling and original interdisciplinary study of contemporary diaspora issues, through the lens of an advanced economy and democracy facing a prolonged crisis, and, as such, it is a significant addition to the literature on European diasporas.

*Money Rules: Parties, Oligarchs and Funding Regulation in Post-Soviet Countries* Fernando Casal Bértoa, Levan Tsutskiridze, 2024-04-10 This book provides a comprehensive overview of the regulation of party finance in post-Soviet countries by leading academics and practitioners in the field. Through a series of cutting-edge chapters, using both original quantitative and qualitative data, it systematically sheds theoretical and empirical light on the way party funding regulation has evolved since the fall of the Soviet Union in 1991, as well as on the manner in which the legal regulation of party finances has had an impact (or not) on the evolution of party politics and democratic consolidation in the region. The book examines regulation in post-Soviet countries like Armenia, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Mongolia, Russia and Ukraine. In analysing the various dimensions of party funding regulation and their impact on political parties, party systems and democracy, it looks at the past and future, and makes recommendations on how legislation could be improved in order to further party development, party system stabilisation and democratic consolidation for all the countries in the region. This book will be of key interest to scholars, students, practitioners and journalists interested in political party finance and anti-corruption, and more broadly to political parties, democracy and democratic governance, and post-Soviet/Russian and East European politics.
