Words in Space and Time Tomasz Kamusella, 2021-11-30 With forty-two extensively annotated maps, this atlas offers novel insights into the history and mechanics of how Central Europe's languages have been made, unmade, and deployed for political action. The innovative combination of linguistics, history, and cartography makes a wealth of hard-to-reach knowledge readily available to both specialist and general readers. It combines information on languages, dialects, alphabets, religions, mass violence, or migrations over an extended period of time. The story first focuses on Central Europe's dialect continua, the emergence of states, and the spread of writing technology from the tenth century onward. Most maps concentrate on the last two centuries. The main storyline opens with the emergence of the Western European concept of the nation, in accord with which the ethnolinguistic nation-states of Italy and Germany were founded. In the Central European view, a "proper" nation is none other than the speech community of a single language. The Atlas aspires to help users make the intellectual leap of perceiving languages as products of human history and part of culture. Like states, nations, universities, towns, associations, art, beauty, religions, injustice, or atheism—languages are artefacts invented and shaped by individuals and their groups.

Global Governance and Interaction between International Institutions Alexander Libman, Anastassia Obydenkova, 2023-09-26 This book builds on theory of authoritarian regionalism and is the first attempt to analyse the interaction of authoritarian regional organizations in Eurasia with their global and regional counterparts (NATO, EU, WTO, IMF etc.). It analyses three decades of the development of post-Soviet regional organizations prior to the tectonic geopolitical and security changes of 2022. Eurasian regional organizations created by Russia have been frequently perceived as attempts to establish 'alternatives' to the global governance institutions and to compete with other regional organizations like, for example, the European Union (EU). They are seen as a pronounced example of 'authoritarian regionalism', i.e., regional organizations established by non-democracies. The way they interact with global and regional institutions has, however, remained understudied. This book aims to close this gap. It places Eurasia within a global context and considers similar trends world-wide as well as outlines the agenda for future studies of global versus regional governance. The book sheds light on long-term strategies of Russia in Eurasia, in global economy and in world politics, and on the interaction between Russia and other post-Soviet states. With an extended introduction and conclusion, this book is an insightful resource for scholars; advanced students; and researchers of politics, international relations, and Eurasian area-studies. The chapters in this book were originally published as a special issue of *Post-Communist Economies*.

Practical Biopolitics of COVID-19 Andrey Makarychev, Gede Wahyu Wicaksana, 2023-09-18 The book introduces the concept of practical biopolitics and discusses its applicability for anti-pandemic crisis management in Indonesia and Russia. The authors scrutinize the functioning of sovereign power and governmentality during the state of exception.

SARS-CoV-2 and Coronacrisis Fr archpriest Evgeny I. Legach, Konstantin S. Sharov, 2021-07-28 This book is useful for administrators of different levels involved in counteracting COVID-19, surveillance professionals, clinicians, researchers specializing in epidemiology, microbiology, and infectious diseases, and politicians / legislators engaged in public health sector. We use an innovative approach of combining both epidemiological and sociological analyses, as the very problem is mainly an issue of correct governance. A team of authors from Europe, Russia and China summarizes their experience and knowledge useful for containing SARS-CoV-2 and overcoming social and managerial consequences of the pandemic. The editors are sure that sharing our different experience would help to elaborate necessary strategies, protocols, and principles that may be effectively applied in the future to avoid dramatic consequences of not only COVID-19 but also any possible epidemiological hazards for people and medicine.

Russian Style Julie A. Cassiday, 2023 In the two decades after the turn of the millennium, Vladimir Putin's control over Russian politics and society grew at a steady pace. As the West liberalized its stance on sexuality and gender, Putin's Russia moved in the opposite direction, remolding the performance of Russian citizenship according to a neoconservative agenda characterized by increasingly exaggerated gender roles. By connecting gendered and sexualized citizenship to developments in Russian popular culture, Julie A. Cassiday argues that heteronormativity and homophobia became a kind of politicized style under Putin's leadership. However, while the multiple modes of gender performativity generated in Russian popular culture between 2000 and 2010 supported Putin's neoconservative agenda, they also helped citizens resist and protest the state's mandate of heteronormativity. Examining everything from memes to the Eurovision Song Contest and self-help literature, Cassiday untangles the discourse of gender to argue that drag, or travesti, became the performative trope par excellence in Putin's Russia. Provocatively, Cassiday further argues that the exaggerated expressions of gender demanded by Putin's regime are best understood as a form of cisgender drag. This smart and lively study provides critical, nuanced analysis of the relationship between popular culture and politics in Russia during Putin's first two decades in power.

Medicine and Ethics in Times of Corona Martin Woesler, Hans-Martin Sass, 2020-11 The Corona pandemic kills people, endangers families, friends, communities, companies, institutions, societies, economies and global networks. It brings about triage, unemployment, social distancing, and home schooling. Countries respond differently, often set aside civil and basic human rights. Families and friends cannot get together, visiting the sick, nor attending funerals. This pestilence is clearly a cultural, economic and political disease. 40 leaders in medical and sociological research, in politics, religion, and consulting from 24 countries offer diverse, sometimes controversial answers, collected by Martin Woesler and Hans-Martin Sass .

The Other Plato Dmitri Nikulin,2012-12-11 Offering a provocative alternative to the dominant approaches of Plato scholarship, the Tübingen School suggests that the dialogues do not tell the full story of Plato's philosophical teachings. Texts and fragments by his students and their followers—most famously Aristotle's Physics—point to an unwritten doctrine articulated by Plato at the Academy. These unwritten teachings had a more systematic character than those presented in the dialogues, which according to this interpretation were meant to be introductory. The Tübingen School reconstructs a historical, critical, and systematic account of Plato that takes into account testimony about these teachings as well as the dialogues themselves. The Other Plato collects seminal and more recent essays by leading proponents of this approach, providing a comprehensive overview of the Tübingen School for English readers.

Circassia and Ukraine Adel Bashqawi,2023-08-23 In light of the war of extermination that waged against Ukraine, the aggression is a typical scorched-earth policy. Genocide, ethnic cleansing, and forced deportation committed in the nineteenth century in Circassia are similar to Russia’s war in Ukraine since February 24, 2022. The book reminds of dozens of peoples and nations eager to restore their confiscated rights since the dissolution of the Soviet Union until now. It is divided into time periods (chapters). It touches on articles, studies, prominent occasions, developments, events, and commemorations that occurred during the mentioned period. What happened in the past and is developing nowadays necessitated the documentation, showing and exposing facts and events, which will set the record straight. Where actions speak louder than words, this confirms an undeniable reality. With peoples deprived of their rights, the Russian state did not care so far for mending fences and reconciling for peace and fairness. That confirms an undeniable fact, which is that the Russian state has not cared so far to carry out the duty entrusted to it in order to correct what the successive Russian regimes have committed against the Circassian nation and other victims of wars, occupation, genocide, deportation, and forced annexation.
