Yves Montand in the USSR Mila Oiva,Hannu Salmi,Bruce Johnson,2021-04-29 This volume is the first book-length account of Yves Montand's controversial tour of the Soviet Union at the turn of the years 1956/57. It traces the mixed messages of this internationally visible act of cultural diplomacy in the middle of the turbulent Cold War. It also provides an account of the celebrated French singer-actor's controversial career, his dedication to music and to peace activism, as well as his widespread fandom in the USSR. The book describes the political background for the events of the year 1956, including the changing Soviet atmosphere after Stalin's death, portrays the rising transnational stardom of Montand in the 1940s and 1950s, and explores the controversies aroused by his plan to visit Moscow after the Hungarian Uprising. The book pays particular attention to Montand's reception in the USSR and his concert performances, drawing on unique archival material and oral history interviews, and analyses the documentary *Yves Montand Sings* (1957) released immediately after his visit.

The Vortex That Unites Us Jacob Emery,2023-05-15 The Vortex That Unites Us is a study of totality in Russian literature, from the foundation of the modern Russian state to the present day. Considering a diversity of texts that have in common chiefly their prominence in the Russian literary canon, Jacob Emery examines the persistent ambition in Russian literature to gather the whole world into an artwork. Emery reveals how the diversity of totalizing figures in the Russian canon—often in alliance with ideologies like the totalitarian state or enlightenment reason—strive for the frontiers of space and time in order to guarantee the coherence of the globe and the continuity of history. He exposes subjects like romantic metaphors of supernatural possession; Tolstoy's conception of art as a vector of emotional contagion; the panoramic ambitions of the avant-garde to grasp the globe in a new poetic medium; efforts of Soviet utopians to harmonize the whole of social life along aesthetic lines; Mandelstam's evocation of writing as a transcendental authority that guarantees a grandiose historical rhythm even when manifested as authoritarian repression; and the mass market of cultural commodities in which the exiled Vladimir Nabokov found success with his novel *Lolita*. The Vortex That Unites Us reveals a common thread in the disparate works it explores, bringing into a single horizon a variety of typically siloed texts and aesthetic approaches. In all these cases, the medium of totality is the body, inspired by artistic vision and compelled by aesthetic response.

Roots of Russia's War in Ukraine Elizabeth A. Wood,William E. Pomeranz,E. Wayne Merry,Maxim Trudolyubov,2015-12-15 In February 2014, Russia initiated a war in Ukraine, its reasons for aggression unclear. Each of this volume's authors offers a distinct interpretation of Russia's motivations, untangling the social, historical, and political factors that created this war and continually reignite its tensions. What prompted President Vladimir Putin to send troops into Crimea? Why did the conflict spread to eastern Ukraine with Russian support? What does the war say about Russia's political, economic, and social priorities, and how does the crisis expose differences between the EU and Russia regarding international jurisdiction? Did Putin's obsession with his macho image start this war, and is it preventing its resolution? The exploration of these and other questions gives historians, political watchers, and theorists a solid grasp of the events that have destabilized the region.

Jihadism in the Russian-Speaking World Danis Garaev,2022-08-29 This book contends that the discourses of jihadism in Russia's North Caucasus, and their offshoots in other parts of the Russian Federation, are not just reflections of jihadi ideologies that came from abroad, rather that post-Soviet jihadism is a phenomenon best understood when placed in the broader cultural environment in which it emerged, an environment which comprises the North Caucasus, the whole of Russia, and beyond. It examines how post-Soviet jihadism is also part of global processes, in this case, global jihadism, explores how post-Soviet jihadism bears the imprint of the preceding Soviet context especially in terms of symbols, discursive tools, interpretational frameworks, and dissemination strategies, and discusses how, ironically, Russian-speaking jihadism is an expansionist idea for uniting all Russian regions on a supra-ethnic principle, but an idea that was not born in Moscow or St. Petersburg. Overall, the book demonstrates

that Russian-speaking jihadism is a completely new ideology, which nevertheless has its origins in the intellectual and cultural heritage of the Soviet era and in the broader trends of post-Soviet society and culture.

Popular Biopolitics and Populism at Europe's Eastern Margins Andrey Makarychev, 2022-03-16 In this groundbreaking book, Andrey Makarychev approaches populism through a critical biopolitical lens and shows that populist narratives are grounded intrinsically in corporeality, sexuality, health, bodily life and religious practices. The author demonstrates that populism is a phenomenon deeply rooted in mass culture. He compares three countries -- Estonia, Ukraine and Russia--that all share post-Soviet experiences offering a broad spectrum of populist discourses. The three case studies display the interconnection between biopower and populism through references to culture, media, art, theatrical performances and literature, raising new questions and directions for understanding traditional accounts of populism. This work was supported by European Union's Horizon 2020 research and innovation programme under grant agreement No. 822682: Populist rebellion against modernity in 21st-century Eastern Europe: neo-traditionalism and neo-feudalism – POPREBEL.

The Thaw Denis Kozlov, Eleonory Gilburd, 2013-01-01 The period from Stalin's death in 1953 to the end of the 1960s marked a crucial epoch in Soviet history. Though not overtly revolutionary, this era produced significant shifts in policies, ideas, language, artistic practices, daily behaviours, and material life. It was also during this time that social, cultural, and intellectual processes in the USSR began to parallel those in the West (and particularly in Europe) as never before. This volume examines in fascinating detail the various facets of Soviet life during the 1950s and 1960s, a period termed the 'Thaw.' Featuring innovative research by historical, literary, and film scholars from across the world, this book helps to answer fundamental questions about the nature and ultimate fortune of the Soviet order – both in its internal dynamics and in its long-term and global perspectives.

30 Years since the Fall of the Berlin Wall Alexandr Akimov, Gennadi Kazakevitch, 2020-01-08 The year 2019 marks 30 years since the fall of the Berlin wall. This symbolic event led to German unification and the collapse of communist party rule in countries of the Soviet-led Eastern bloc. Since then, the post-communist countries of Central, Eastern and South-eastern Europe have tied their post-communist transition to deep integration into the West, including EU accession. Most of the states in Central and Eastern Europe have been able to relatively successfully transform their previous communist political and economic systems. In contrast, the non-Baltic post-Soviet states have generally been less successful in doing so. This book, with an internationally respected list of contributors, seeks to address and compare those diverse developments in communist and post-communist countries and their relationship with the West from various angles. The book has three parts. The first part addresses the progress of post-communist transition in comparative terms, including regional focus on Eastern and South Eastern Europe, CIS and Central Asia. The second focuses on Russia and its foreign relationship, and internal politics. The third explores in detail economies and societies in Central Asia. The final part of the book draws some historical comparisons of recent issues in post-communism with the past experiences.

Macedonia's Long Transition Robert Hudson, Ivan Dodovski, 2023-02-24 This book provides a broad, interdisciplinary analysis of events impacting on North Macedonia since its independence, particularly during the last decade. In the past thirty years, the country has gone through

deep political, social and economic transition, along with a name change from 'Macedonia' to the 'Republic of North Macedonia' following the Prespa Agreement signed with Greece. The contributors consider Macedonia's challenges, its multi-ethnic make-up and its ambition to enter the European mainstream through the auspices of the European Union and NATO. The volume includes chapters on international politics and North Macedonia's place in the region's security architecture as well as the difficulties of the privatisation of socially owned enterprises, political corruption, state capture and backsliding. The book also covers the controversial 'Skopje 2014' project in addition to the impact of migration along the 'Balkan Route' and the current wranglings with Bulgaria over identity politics.

SARS-CoV-2 and Coronacrisis Fr archpriest Evgeny I. Legach, Konstantin S. Sharov, 2021-07-28 This book is useful for administrators of different levels involved in counteracting COVID-19, surveillance professionals, clinicians, researchers specializing in epidemiology, microbiology, and infectious diseases, and politicians / legislators engaged in public health sector. We use an innovative approach of combining both epidemiological and sociological analyses, as the very problem is mainly an issue of correct governance. A team of authors from Europe, Russia and China summarizes their experience and knowledge useful for containing SARS-CoV-2 and overcoming social and managerial consequences of the pandemic. The editors are sure that sharing our different experience would help to elaborate necessary strategies, protocols, and principles that may be effectively applied in the future to avoid dramatic consequences of not only COVID-19 but also any possible epidemiological hazards for people and medicine.

The Discourse on Gender Identity in Contemporary Russia Dennis Scheller-Boltz, 2017-08-01 Conchita Wursts Sieg beim Eurovision Song Contest 2014 war ein zentrales diskursives Moment, welches das derzeitige Spannungsfeld zwischen Postgenderismus und Traditionalismus in Russland offenlegte und aufzeigte, wie sehr Geschlecht und Sexualität, nicht zuletzt für das russische Selbstbild und die Konstruktion einer russischen nationalen Identität, instrumentalisiert und politisiert werden und wie sehr Identitätskonzepte den russischen Alltag mitbestimmen. Die Monografie widmet sich der Diskussion um Geschlecht und Sexualität in Russland nach dem Sieg von Conchita Wurst und untersucht das Verhältnis von Diskurs und Identität. Im Vordergrund steht die Funktion von Sprache sowohl für die Identitätskonstruktion als auch für die Schaffung und Abgrenzung von Räumen. Dabei lassen sich nicht nur lexikologische und wortbildnerische Besonderheiten beobachten, sondern es liegt insgesamt ein auffälliger Sprachgebrauch mit interessanten Argumentationsstrategien vor. Ausführungen zu Identität und kritische Anmerkungen zur russischen Gender- und Queer-Linguistik komplettieren diesen Band. Conchita Wurst's 2014 victory in the Eurovision Song Contest was a significant discursive moment which revealed the current tensions between postgenderism and traditionalism in contemporary Russia. This case also made clear just how far gender and sexuality are instrumentalised and politicised – not least in creating Russians' self-perception and constructing a Russian national identity – and how massively notions of identity impact on Russian everyday life. The monograph focuses on the discussion of gender and sexuality in Russia following the 2014 event and investigates the relation between discourse and identity. Above all, it is concerned with the function of language in identity construction, and in the creation and demarcation of spaces. In this context, Dr. Scheller-Boltz's study not only analyses lexicological and word-formation peculiarities, but also provides some revealing research findings about specific language use, including certain argumentation strategies. The monograph begins with a detailed introduction to notions of identity and concludes with some critical remarks on Russian gender and queer linguistics.

PISA Education in Eastern Europe and Central Asia Findings from PISA OECD, United Nations Children's Fund, 2021-07-30 Countries in Eastern Europe and Central Asia have clear aspirations to strengthen civic participation and increase prosperity for all. A highly skilled and knowledgeable population is critical to achieving these goals, which makes creating and maintaining high quality and equitable education systems a

vital part of regional development efforts. Results from the Programme for International Student Assessment (PISA) show that learning outcomes in the region have generally improved, but that the improvement has not been equitable. While countries in the region are producing some of the top performing students in the world, many other students are being left behind.

The Caucasus Emirate Mujahedin Gordon M. Hahn, 2014-10-09 Russia's North Caucasus mujahedin of the self-declared Caucasus Emirate and the history thereof is part and parcel of the global jihadi revolutionary movement which includes but is no longer led by Al Qaeda. This book corrects the inadequate previous treatments of the violence in the Caucasus, almost all of which explain what ought to be called the rise of jihadism in the Caucasus solely in terms of Russian actions. The author brings the international jihadist and local North Caucasian causes back into the picture, detailing the global Jihadist/Islamist revolutionary movement's propagation of the jihadi method and material support to nationalist and Islamic extremists in Chechnya and the Caucasus since the mid-1990s. Like jihadi groups in Afghanistan and Pakistan, Iraq, Syria, and Africa, the Caucasus Emirate is an Al Qaeda ally and de facto affiliate. It represents a threat to Russian, U.S., and international security as evidenced by terrorist plots perpetrated or inspired by it in Belgium, the Czech Republic, Denmark, Spain, Azerbaijan, and Boston.

Alternative Paths to Influence Giulio M. Gallarotti, 2023-06-06 This book offers new and cutting-edge analyses of under-explored subjects and issues in the realm of soft power. It attempts to fill significant scholarly gaps in understanding the process by which soft power is created, as well as gaps in demonstrating its impact. Soft power is one of the most influential ideas in the study of international politics over the past thirty years. Can nations attain their most vital foreign policy objectives in agreeable ways? Advocates of the concept of soft power have vociferously answered in the affirmative. After many years of thinking in the field of international affairs that the only effective path to influence in international politics was military and economic power, the idea of soft power offers new and exciting possibilities of gaining such influence through a more benign path, one that elevates cooperation and esteem as preferred alternatives to violence, threat and military capacity. This book posits that the realization of the full potential of soft power as a foundation for international relations is a crucial goal for our present world, one beset by war and planetary crises. The book will be of special interest to researchers across political science, international relations, cultural studies and foreign policy. It was originally published as a special issue of the Journal of Political Power.

Red Leviathan Ryan Tucker Jones, 2022-05-30 A revealing and authoritative history that shows how Soviet whalers secretly helped nearly destroy endangered whale populations, while also contributing to the scientific understanding necessary for these creatures' salvation. The Soviet Union killed over six hundred thousand whales in the twentieth century, many of them illegally and secretly. That catch helped bring many whale

species to near extinction by the 1970s, and the impacts of this loss of life still ripple through today's oceans. In this new account, based on formerly secret Soviet archives and interviews with ex-whalers, environmental historian Ryan Tucker Jones offers a complete history of the role the Soviet Union played in the whales' destruction. As other countries—especially the United States, Great Britain, Japan, and Norway—expanded their pursuit of whales to all corners of the globe, Stalin determined that the Soviet Union needed to join the hunt. What followed was a spectacularly prodigious, and often wasteful, destruction of humpback, fin, sei, right, and sperm whales in the Antarctic and the North Pacific, done in knowing violation of the International Whaling Commission's rules. Cold War intrigue encouraged this destruction, but, as Jones shows, there is a more complex history behind this tragic Soviet experiment. Jones compellingly describes the ultimate scientific irony: today's cetacean studies benefited from Soviet whaling, as Russian scientists on whaling vessels made key breakthroughs in understanding whale natural history and behavior. And in a final twist, Red Leviathan reveals how the Soviet public began turning against their own country's whaling industry, working in parallel with Western environmental organizations like Greenpeace to help end industrial whaling—not long before the world's whales might have disappeared altogether.

Как перестать портить жизнь себе и окружающим Александр Димидов, 2019-07-12 Эссе «Поправка 3:17» представляет собой беспрецедентную, написанную простым «человеческим» языком, попытку анализа наших повседневных проблем сквозь парадигму христианских ценностей. Отношения между церковью и человеком. Конфликт биологии и нравственности. Роль личностных ориентиров. Почему все в мире происходит так, как происходит? Почему моя судьба складывается так, а не иначе? И наконец, что необходимо изменить, чтобы перестать портить жизнь себе и окружающим.
