🔖 **How Information Warfare Shaped the Arab Spring** Nathaniel Greenberg, 2019-06-03 On January 28 2011 WikiLeaks released documents from a cache of US State Department cables stolen the previous year. The Daily Telegraph in London published one of the memos with an article headlined ‘Egypt protests: America’s secret backing for rebel leaders behind uprising’. The effect of the revelation was immediate, helping set in motion an aggressive counter-narrative to the nascent story of the Arab Spring. The article featured a cluster of virulent commentators all pushing the same story: the CIA, George Soros and Hillary Clinton were attempting to take over Egypt. Many of these commentators were trolls, some of whom reappeared in 2016 to help elect Donald J. Trump as President of the United States. This book tells the story of how a proxy-communications war ignited and hijacked the Arab uprisings and how individuals on the ground, on air and online worked to shape history.

🔖 **Egypt Under El-Sisi** Maged Mandour, 2024-01-25 Since the coup of 2013 ended Egypt’s brief democratic experiment and retired army chief, Abdel Fattah El-Sisi, became president of Egypt, his regime has unleashed mass repression and severe restrictions on an unprecedented scale. This has been characterized by arbitrary arrests, forced disappearances, and the torture of real – or suspected – political activists and dissidents. The Sisi regime has not only entangled the country in political violence, but has also mired Egypt in a deep economic crisis. This book follows President Sisi’s regime in the aftermath of the coup that brought him to power. It is a chronology of the devastating political, economic and social consequences of direct military rule. Written by Egyptian political analyst and Egypt pundit, Maged Mandour, it is a compelling account built on years of writing and research. This includes analysis of primary sources, such as laws, constitutional amendment issued by the regime, statements made by regime officials, and local media, as well as official economic data from state sources and international organisations. Mandour explains exactly how Sisi operates and what makes his regime so different, and so dangerous, compared to those that came before. It shows, for the first time, how Egypt has been pushed to the brink of the abyss and why this will change the country for decades to come.

🔖 **In Search of Greater Syria** Christopher Solomon, 2021-09-23 The Syrian Social Nationalist Party (SSNP) is one of the most enigmatic and active political forces in the Middle East. For observers in the West, the SSNP is regarded as a far-right organization, subservient to the Baathist government of Syrian President Bashar al-Assad, which dictates its activities from Damascus. However, the SSNP’s complicated history and its ideology of Pan-Syrianism has meant the party has been overlooked and forgotten by the daily output of news, analysis, studies and policy recommendations. Very little academic scholarship has been dedicated to understanding its origins, identity, and influence. Addressing the need for scholarship on the SSNP, this book is a political history from the party’s foundation in 1932 to today. A comprehensive and objective study on the little known nationalist group, the author uses interviews from current members to gain insights into its everyday activities, goals, social interstices and nuances. Given the SSNP’s history of violence, their own persecution, influence on other secular parties in the region, and their impact in Syria and Lebanon’s politics, the book’s analysis sheds light on the party’s status in Lebanon and its potential role in a future post-war Syria. The SSNP is gaining popularity among regime supporters in Syria and will be one part of understanding the political developments on the ground. This book is essential reading for those wanting to understand the SSNP, its motives, and prospects.

🔖 **Tunisia’s International Relations since the ‘Arab Spring’** Tasnim Abderrahim, Laura-Theresa Krüger, Salma Besbes, Katharina McLarren, 2017-09-22 When popular protests started in Tunisia in late 2010, few anticipated the implications these events would have for the entire Arab region. In the following years, this region witnessed deep changes, increased divisions, and even failing states. Meanwhile, Tunisia managed to assert itself as a new democracy. How did this small country manage its democratic transition within such a short period? And what implications has this had for its foreign policy and its role in international politics? This book assesses Tunisia’s transition ‘inside and out’ from four angles: Tunisian polity and politics which provide the framework for its foreign policy since the ‘Arab Spring’; bilateral relations before and after the ‘Arab Spring’; Tunisia’s activism in international organisations as well as their presence in Tunisia; and transnational issues in Tunisia. Drawing on a broad range of primary sources, including authors’ own interview material conducted with politicians and representatives of civil society and international NGOs involved in the transition process, the book shows that since 2011 Tunisia has not only developed fundamentally at the domestic level, but also at the level of external relations. New and old alliances, a broadening of relations, and new activism of civil society and of Tunisia in international organisations certify that Tunisia has the potential to play an increasingly important role regionally as well as internationally. Providing an encompassing picture of Tunisia’s changed role and successful transition from an autocracy to a democracy, the book allows students and scholars in the field to understand the ‘last country standing’ better, a country that both the scientific community and the political scene should not underestimate for the promises it holds.

🔖 **Handbook of Applied Journalism** Leon Barkho,

🔖 **Civil Disobedience in Islam** Muhammad Haniff Hassan, 2017-04-13 This book addresses contemporary debates on civil disobedience in Islam within the rich Sunni tradition, especially during the height of the non-violent people revolution in various Arab countries, popularly known as the Arab Spring. It illustrates the Islamic theological and jurisprudential arguments presented by those who either permit or prohibit acts of civil disobedience for the purpose of changing government, political systems or policy. The book analyses the nature of the debate and considers how a theological position on civil disobedience should be formulated in contemporary time, and makes the case for alternatives to violent political action such as jihadism, terrorism and armed rebellion.

🔖 **Routledge Handbook of Non-Violent Extremism** Elisa Orofino, William Allchorn, 2023-03-09 This handbook provides the first in-depth analysis of non-violent extremism across different ideologies and geographic centres, a topic overshadowed until now by the political and academic focus on violent and jihadi extremism in the Global North. Whilst acknowledging the potentiality of non-violent extremism as a precursor to terrorism, this handbook argues that non-violent extremism ought to be considered a stand-alone area of study. Focusing on Islamist, Buddhist, Hindu, far-right, far-left, environmentalist and feminist manifestations, the handbook discusses the ideological foundation of their ‘war on ideas’ against the prevailing socio-political and cultural systems in which they operate, and provides an empirical examination of their main claims and perspectives. This is supplemented by a truly global overview of non-violent extremist groups not only in Europe and the United States, but also in Africa, Asia, Oceania and the Middle East. The handbook thus answers a call to decolonise knowledge that is especially prescient given both the complicity of non-violent extremists with authoritarian states and the dynamic of oppression towards more progressive groups in the Global South. The handbook will appeal to those studying extremism, radicalisation and terrorism. It intersects several relevant disciplines, including social movement studies, political science, criminology, Islamic studies and anthropology.

🔖 **Women, Entrepreneurship and Development in the Middle East** Beverly Dawn Metcalfe, Bettina Lynda Bastian, Haya Al-Dajani, 2021-12-20 The Middle East was the region least impacted in the 2008 crisis, has investment systems markedly different to the West, is largely governed by Islamic Shari’a, and has varying forms of governance and institutional organization, which are not understood by many, nor how these systems shape entrepreneurial and industrial development. While the Middle East as a region has seen a small growth in entrepreneurship for women, and business scholarship on the Middle East has grown, there is no text in English that has brought critical insights from the Middle East together in a single volume. In examining women’s entrepreneurship in the Middle East, this book aims to challenge Global North assumptions about the disempowering impacts of Islamic Shari’a and governance. Referring to the constraints of Islam on women’s subjectivity and agency greatly misunderstands religious identity, of both men and women, and the way in which public administration and private sector institutions are organized in very different ways to Western regions. This timely text expands and adds new insights to the theorizations of women’s entrepreneurship in the Middle East, through unravelling spatialized themes, and incorporates contemporary themes including: an Islamic science reading of women, work and venturing; changing families and entrepreneurship development; women managing social crises; Islamization, governance and women; Islamic feminist activisms and entrepreneurship; representations of women’s entrepreneurship on social media; and women’s collectives leading entrepreneurship via Facebook entrepreneurship. It will be of interest to researchers, academics, and students in the fields of entrepreneurship, gender, work and organizations.

🔖 **The Lure of Authoritarianism** Stephen J. King, Abdeslam Maghraoui, 2019-04-04 The works collected in The Lure of Authoritarianism consider the normative appeal of authoritarianism in light of the 2011 popular uprisings in the Middle East. Despite what seemed to be a popular revolution in favor of more democratic politics, there has instead been a slide back toward authoritarian regimes that merely gesture toward notions of democracy. In the chaos that followed the Arab Spring, societies were lured by the prospect of strong leaders with firm guiding hands. The shift toward normalizing these regimes seems sudden, but the works collected in this volume document a gradual shift toward support for authoritarianism over democracy that stretches back decades in North Africa. Contributors consider the ideological, socioeconomic, and security-based justifications of authoritarianism as well as the surprising and vigorous reestablishment of authoritarianism in these regions. With careful attention to local variations and differences in political strategies, the volume provides a nuanced and sweeping consideration of the changes in the Middle East in the past and what they mean for the future.

🔖 **The Struggle for Libya** Miral Sabry Alashry, 2021-04-27 The struggles for Libya provides a comprehensive coverage/analysis of the conflict in Libya, its actors and their goals, local, regional, and external dynamics and how it escalates to a degree that Libya has fallen into a failed state. In the book, there is deep anatomy of the fragmentation process that took place since the 2011 revolution and how competing and, in most cases, conflicting opponents were intervening to share the wealth of Libya. It is clear from reading the book that local forces were, to great extent, coopted by external powers to fight for domination and possession of power notwithstanding the safety and security of Libyans. While external intervention in 2011 was a necessity to topple the Gaddafi regime, later such presents ignited and escalated the civil war. However, lately, the United Nations played and still plays a constructive role in making reconciliation leading to the formation of the national government and national assembly. The struggle for Libya presents a real case study of the transformation from overt conflict and animosity to a national consensus. It provides

STUDENTS, MEDIA PROFESSIONALS, ACADEMICIANS AND POLICYMAKERS WITH TOOLS AND PROCESSES REGARDING CONFLICTS, NEGOTIATIONS, COMPROMISES, AND ACCORDS. IT IS IMPORTANT TO THINK OF LIBYA NOW AS A POST-CONFLICT STATE GOING THROUGH NATION-BUILDING AND REGAINING RELATIVE SOVEREIGNTY.

Handbook of Political Islam in Europe Thomas J. Ger,

Chronicles of the Egyptian Revolution and its Aftermath: 2011–2016 M. Cherif Bassiouni, 2017 This book analyses Egypt’s 2011 Revolution, highlighting the struggle for freedom, justice, and human dignity in the face of economic and social problems, and an on-going military regime.

Wireless Communications Systems Architecture Khaled Salah Mohamed, 2022-10-31 This book discusses wireless communication systems from a transceiver and digital signal processing perspective. It is intended to be an advanced and thorough overview for key wireless communication technologies. A wide variety of wireless communication technologies, communication paradigms and architectures are addressed, along with state-of-the-art wireless communication standards. The author takes a practical, systems-level approach, breaking up the technical components of a wireless communication system, such as compression, encryption, channel coding, and modulation. This book combines hardware principles with practical communication system design. It provides a comprehensive perspective on emerging 5G mobile networks, explaining its architecture and key enabling technologies, such as M-MIMO, Beamforming, mmWaves, machine learning, and network slicing. Finally, the author explores the evolution of wireless mobile networks over the next ten years towards 5G and beyond (6G), including use-cases, system requirements, challenges and opportunities.

Selected Areas in Cryptography Michael J. Jacobson, Vincent Rijmen, Rei Safavi-Naini, 2009-11-05 This volume constitutes the selected papers of the 16th Annual International Workshop on Selected Areas in Cryptography, SAC 2009, held in Calgary, Alberta, Canada, in August 13-14 2009. From a total of 99 technical papers, 27 papers were accepted for presentation at the workshop. They cover the following topics: hash functions, on block and stream ciphers, public key schemes, implementation, and privacy-enhancing cryptographic systems.

Judaic Technologies of the Word Gabriel Levy, 2014-10-14 Judaic Technologies of the Word argues that Judaism does not exist in an abstract space of reflection. Rather, it exists both in artifacts of the material world - such as texts - and in the bodies, brains, hearts, and minds of individual people. More than this, Judaic bodies and texts, both oral and written, connect and feed back on one another. Judaic Technologies of the Word examines how technologies of literacy interact with bodies and minds over time. The emergence of literacy is now understood to be a decisive factor in religious history, and is central to the transformations that took place in the ancient Near East in the first millennium BCE. This study employs insights from the cognitive sciences to pursue a deep history of Judaism, one in which the distinctions between biology and culture begin to disappear.
