### **Egypt under El-Sisi** Maged Mandour, 2024-01-25

Since the coup of 2013 ended Egypt's brief democratic experiment and retired army chief, Abdel Fattah El-Sisi, became president of Egypt, his regime has unleashed mass repression and severe restrictions on an unprecedented scale. This has been characterized by arbitrary arrests, forced disappearances, and the torture of real - or suspected - political activists and dissidents. The Sisi regime has not only entangled the country in political violence, but has also mired Egypt in a deep economic crisis. This book follows President Sisi's regime in the aftermath of the coup that brought him to power. It is a chronology of the devastating political, economic and social consequences of direct military rule. Written by Egyptian political analyst and Egypt pundit, Maged Mandour, it is a compelling account built on years of writing and research. This includes analysis of primary sources, such as laws, constitutional amendment issued by the regime, statements made by regime officials, and local media, as well as official economic data from state sources and international organisations. Mandour explains exactly how Sisi operates and what makes his regime so different, and so dangerous, compared to those that came before. It shows, for the first time, how Egypt has been pushed to the brink of the abyss and why this will change the country for decades to come.

*Iran Unveiled* Ali Alfoneh, 2013-04-18 Iran is currently experiencing the most important change in its history since the revolution of 1979 and the establishment of the Islamic Republic: The regime in Tehran, traditionally ruled by the Shia clergy, is transforming into a military dictatorship dominated by the officers of the Islamic Revolutionary Guards Corps (IRGC; Sepah-e Pasdaran-e Enqelab-e

Eslami). This transformation is changing not only the economy and society in Iran, but also the Islamic Republic's relations with the United States and its allies.

**Tunisia's International Relations since the 'Arab Spring'** Tasnim Abderrahim, Laura-Theresa Krüger, Salma Besbes, Katharina McLarren, 2017-09-22 When popular protests started in Tunisia in late 2010, few anticipated the implications these events would have for the entire Arab region. In the following years, this region witnessed deep changes, increased divisions, and even failing states. Meanwhile, Tunisia managed to assert itself as a new democracy. How did this small country manage its democratic transition within such a short period? And what implications has this had for its foreign policy and its role in international politics? This book assesses Tunisia's transition 'inside and out' from four angles: Tunisian polity and politics which provide the framework for its foreign policy since the 'Arab Spring'; bilateral relations before and after the 'Arab Spring'; Tunisia's activism in international organisations as well as their presence in Tunisia; and transnational issues in Tunisia. Drawing on a broad range of primary sources, including authors' own interview material conducted with politicians and representatives of civil society and international NGOs involved in the transition process, the book shows that since 2011 Tunisia has not only developed fundamentally at the domestic level, but also at the level of external relations. New and old alliances, a broadening of relations, and new activism of civil society and of Tunisia in international organisations certify that Tunisia has the potential to play an increasingly important role regionally as well as internationally. Providing an encompassing picture of Tunisia's changed role and successful transition from an autocracy to a democracy, the book allows

students and scholars in the field to understand the 'last country standing' better, a country that both the scientific community and the political scene should not underestimate for the promises it holds.

### **The Huthi Movement in Yemen** Abdullah

Hamidaddin, 2022-06-30 The Huthi rebels in Yemen are a resistance movement going back decades. Their coup against Yemeni President Abdrabbuh Mansur Hadi in 2015 - and the subsequent Yemeni civil war and the intervention of the Arab coalition in support of Hadi - has brought absolute devastation to the country. But who are the Huthis and how can we understand the group away from armed conflict and war? What has motivated their social movement to fundamentally re-shape Yemen, and what are the group's local and regional ambitions? This book provides the first comprehensive critical analysis dedicated to the Huthis. Across four parts and 17 chapters, the book examines how the movement is challenging traditional religious authority, re-shaping tribal values and roles in Yemen, constructing new collective memories and identities, and infusing Yemen's mediascape with their ideological creed. In examining the movement's specific ways of thinking and beliefs, the book also highlights its foreign policy within a regional policy of resistance to the United States, and it points towards what its impact on both Yemen and the security of the Arab Gulf region will be. The book brings together the leading experts on Yemen from diverse disciplines to provide readers with a nuanced and multi-layered approach to understanding the Huthi movement.

### **The World Powers and Iran** Banafsheh

Keynoush, 2022-10-13 This book reveals the reasons for and ways in which the Islamic Republic of Iran challenged the world powers, through the pursuit of material and

ideational goals, to advance a strong nuclear program in the past decade. The book explores Iran's interactions with the United States of America, the Russian Federation, the People's Republic of China, the United Kingdom of Great Britain and Northern Ireland, the French Republic, the Federal Republic of Germany, and the Republic of India, in the period before (2011-2012), during (2013-2016) and after (2017-2021) the finalization of the nuclear deal known as the Joint Comprehensive Plan of Action in 2015. Iran's narratives and actions to build middle power status are examined at length against the backdrop of its attempts to reshape global politics, the Middle East region, and the future of the nuclear nonproliferation regime.

### **Mosque Architecture: A Transdisciplinary Debate**

Mohammed Fekry, Mady A.A. Mohamed, Anna Visvizi, Asmaa Ibrahim, Lamiaa F. Ghamri, 2023-06-28 Against a backdrop of environmental and societal concerns, best captured by the UN's Sustainable Development Goals (SDGs), this book brings together the leading voices on Mosque architecture to make a case for its role as a purveyor of culture, heritage, and sustainability in the modern world. The Mosque, as an institution, continues to serve as the epicenter of spiritual, moral, and cultural life in Muslim societies. Recognizing that the popular understanding of Muslim culture and archetypes is, at best, minimal among the broader public worldwide, this book has two objectives: i.e., (i) to explore Masjid architecture as a carrier of culture, heritage, and the sustainability of Muslim communities; and (ii) to offer a bias-free introduction to the intricacies of Muslim architecture, culture, and heritage today. The papers featured in this collection were presented at the 5th Memaryat International Conference (MIC), held at Effat University, Jeddah. The MIC's objective is to build bridges between research communities engaged

with diverse aspects of science, technology, and innovation, seen as the key levers for attaining the SDGs.

*Philanthropy in the Muslim World* Shariq A.

Siddiqui, David A. Campbell, 2023-06-01 Philanthropy plays an essential role in Muslim practice around the world. Using a new framing, *Philanthropy in the Muslim World* contributes to the literature by adding Muslim-majority countries that have not been previously included in cross national philanthropy volumes as well as countries that have important Muslim minority communities.

The Struggle for Libya Miral Sabry AlAshry, 2021-04-27

The struggles for Libya provides a comprehensive coverage/analysis of the conflict in Libya, its actors and their goals, local, regional, and external dynamics and how it escalates to a degree that Libya has fallen into a failed state. In the book, there is deep anatomy of the fragmentation process that took place since the 2011 revolution and how competing and, in most cases, conflicting opponents were intervening to share the wealth of Libya. It is clear from reading the book that local forces were, to great extent, coopted by external powers to fight for domination and possession of power notwithstanding the safety and security of Libyans. While external intervention in 2011 was a necessity to topple the Gaddafi regime, later such presents ignited and escalated the civil war. However, lately, the United Nations played and still plays a constructive role in making reconciliation leading to the formation of the national government and national assembly. The struggle for Libya presents a real case study of the transformation from overt conflict and animosity to a national consensus. It provides students, media professionals, academicians and policymakers with tools and processes regarding conflicts, negotiations, compromises, and accords. It is important to think of Libya

now as a post-conflict state going through nation-building and regaining relative sovereignty.

*The Oxford Handbook of Modern Egyptian History* Beth Baron, Jeffrey Culang, 2024 The essays in this Oxford Handbook rethink the modern history of one of the most important and influential countries in the Middle East-- Egypt. For a country and region so often understood in terms of religion and violence, this work explores environmental, medical, legal, cultural, and political histories. It gives readers an excellent view of the current debates in Egyptian history.

*Maritime Security of the Arab Gulf States* Ashraf Mohammed Keshk, 2022-08-11 This book outlines the state of play in maritime security in the Gulf and provides a historical perspective to current issues while also surveying different mechanisms for Gulf maritime security, both at the collective and individual state levels. The book addresses a number of questions related to maritime security in the Gulf States, such as what are the main threats facing maritime security? Do the Arab Gulf States have the necessary naval capabilities to confront these maritime security threats? What are the efforts that the Arab Gulf States have made in order to maintain their maritime security? What are the regional frameworks through which the Arab Gulf States can address maritime security threats? And what are the obstacles hindering the Arab Gulf States' efforts to maintain maritime security? This book would be a valuable read for Gulf Cooperation Council States, the ministries of defense in the Arabian Gulf countries, security institutions, the Arabian Gulf countries' military academies, think tanks and universities in the six Gulf States, Western think tanks concerned with the Arabian Gulf region, and scholars specializing in Arabian Gulf countries.

### Decolonial Queering in Palestine Walaa

Alqaisiya, 2022-11-07 This book provides a vivid account of the political valence of weaving queer into native positionality and the struggle for decolonisation in the settler colonial context of Palestine, referred to as decolonial queering. It discusses how processes of gender and sexuality that privilege hetero-colonising authority shaped and continue to define both the Israeli-Zionist conquest of Palestine and the Palestinian struggle for liberation, thus future imaginings of free Palestine. This account emerges directly from the voices and experiences of Palestinian activists and artists; particularly, it draws on fieldwork with Palestine's most established queer grassroots movement, alQaws for Sexual and Gender Diversity in Palestinian Society, and a variety of artistic Palestinian productions (photography, fashion, music, performance, and video art). Offering a comprehensive and in-depth engagement with the situated context, history, and local practices of Palestinian queerness, scholars, students, and activists across (de)colonial, race, and gender/sexuality studies would appreciate its unique insights; its empirical focus also reaches to those academics in the wider fields of Middle Eastern, anthropological, and political studies.

### **COVID-19 and Risk Society across the MENA**

**Region**, 2022-01-27 The impact of the COVID-19 pandemic – at the interlocking levels of politics, economy, and society – have been different across regions, states, and societies. In the case of the Middle East and North Africa, which was already in the throes of intense tumult following the onset of the 2011 Arab Spring, COVID's blows have on the one hand followed the trajectory of some global patterns, while at the same time playing out in regionally specific ways. Based on empirical country-level analysis, this volume

brings together an international team of contributors seeking to untangle how COVID-19 unfolds across the MENA. The analyses are framed through a contextual adaptation of Ulrich Beck's famous concept of "risk society" that pinpointed the negative consequences of modernity and its unbridled capitalism. The book traces how this has come home in full force in the COVID-19 pandemic. The editors, Larbi Sadiki and Layla Saleh, use the term Arab risk society. They highlight short-term and long-term repercussions across the MENA. These include socio-economic inequality, a revitalized state of authoritarianism challenged by relentless democratic struggles. But the analyses are attuned to problem-solving research. The ethnographies of the pandemic included in this book investigate transformations and coping mechanisms within each country case study. They provide an ethically-informed research praxis that can respond to the manifold crises crashing down upon MENA politics and societies

**Handbook of Applied Journalism** Leon Barkho, Rethinking Salafism Raihan Ismail, 2021-10-01 Salafism has received scrutiny as the one of the main ideological sources for extremist violence perpetrated by jihadi groups. There is a significant corpus of literature discussing transnational jihadi networks, especially after the 9/11 attacks in the United States. These discussions include the radicalization of Salafi thought by jihadi theoreticians and 'ulama. However, Salafism is not monolithic. It contains numerous streams, and an examination of these streams is crucial to understanding its influence on Muslim societies. Besides Salafi jihadist those who sanction violence there are two other broad trends in Salafism: quietist and activist. Quietist Salafis endorse an apolitical tradition and find political

activism in any form unacceptable. Activist Salafis advocate peaceful political change. Each stream is led by 'ulama, seen as the preservers of Salafi traditions. The quietist and activist 'ulama are active participants in their communities. Studies of such clerics have tended to be country-specific, focusing on the influence and nature of Salafism and its dynamics in those countries. In *Rethinking Salafism* Raihan Ismail assesses the origins, interactions, and dynamics of the transnational networks of Salafi 'ulama in the region comprising Saudi Arabia, Egypt, and Kuwait, showing how quietist and activist 'ulama work across borders to preserve and promote what they see as authentic Salafism while taking domestic circumstances of the 'ulama into consideration. The book offers a reassessment of the quietist/activist dichotomy, arguing that this dichotomy does not apply to such aspects of Salafi thought as attitudes towards the Shi'a and social matters in Muslim societies.

#### How Information Warfare Shaped the Arab Spring

Nathaniel Greenberg, 2019-06-03 On January 28 2011 WikiLeaks released documents from a cache of US State Department cables stolen the previous year. The Daily Telegraph in London published one of the memos with an article headlined 'Egypt protests: America's secret backing for rebel leaders behind uprising'. The effect of the revelation was immediate, helping set in motion an aggressive counter-narrative to the nascent story of the Arab Spring. The article featured a cluster of virulent commentators all pushing the same story: the CIA, George Soros and Hillary Clinton were attempting to take over Egypt. Many of these commentators were trolls, some of whom reappeared in 2016 to help elect Donald J. Trump as President of the United States. This book tells the story of how a proxy-communications war ignited and hijacked the

Arab uprisings and how individuals on the ground, on air and online worked to shape history.

### **Politics of Oil and Nuclear Technology in Iran**

Akbar E. Torbat, 2020-02-19 This book focuses on oil politics and the development of nuclear technology in Iran, providing a broader historical context to understand Iran's foreign relations and nuclear policy. The author assesses Iran's encounters with the West in light of major confrontations both in terms of open conflict as well as controversies surrounding treaties with foreign powers. In seeking to understand the geopolitics of oil in direct parallel to the geopolitics of nuclear technology, the book concentrates on Iran's struggles to nationalize its oil, neo-colonialism, the formation of the oil consortium, and the more recent US backtracking on the nuclear deal with Iran.

### **How China's Rise is Changing the Middle East**

Anoushiravan Ehteshami, Niv Horesh, 2019-07-09 This book explores the extent to which China's rise is changing the economic, security, political, and social-cultural aspects of the Middle East – a region of significant strategic importance to the West and of increasing importance to the East. With its growing dependence on Middle East oil and gas, China has more at stake in this region than any other Asian power and, not surprisingly, has begun increasing its engagement with the region, with profound implications for other stakeholders. The book charts the history of China's links with the Middle East, discusses China's involvement with each of the major countries of the region, considers how China's rise is reshaping Middle Easterners' perceptions of China and the Chinese people, and examines the very latest developments.

*New Wave of Revolutions in the MENA Region* Leonid Issaev, Andrey Korotayev, 2022-11-05 This book offers a

comparative perspective on the new wave of revolutions in the MENA region. Recently, a new wave of revolutions has swept the Middle East and North Africa (MENA) region, comparable in some respects to the events of the Arab Spring. Revolutionary events have significantly changed the political regimes in Sudan, Algeria and Mali, while Lebanon and Iraq have also witnessed serious revolutionary episodes. Further, a new quality of protests has manifested in Iran, Egypt, Morocco and Jordan. Presenting a variety of country studies, this book identifies similarities and differences between the events of the Arab Spring and the current upheavals in the MENA region and examines their causes and world-system context. It also analyzes the motivating forces, goals and organizational forms of the protesters and other actors involved, as well as the political and economic consequences of these revolutionary events. Moreover, it seeks to understand why some countries that were actively involved in the Arab Spring have remained largely unaffected by these developments. The book appeals to scholars of political science with a focus on comparative politics, Middle Eastern politics and political sociology.

**Iran in the World** Shahram Akbarzadeh, Dara Conduit, 2016-04-08 This book evaluates President Hassan Rouhani's foreign policy during his first two years in office, looking at the case studies of Armenia, Azerbaijan, the UAE, Turkey, and Syria, as well as the Iran-US relationship. President Rouhani came to power in Iran in 2013 promising to reform the country's long-contentious foreign policy. His top priorities were rehabilitating the Iranian economy, ending the nuclear dispute, rebuilding relations with the US, and mending ties with Iran's neighbors. It is argued here that while President Rouhani has made progress in the Iran-US relationship, in nuclear

negotiations and some bilateral relationships, his broader success has been hampered by regional political developments and domestic competition. Further, it is contended that his future success will be guided by emerging regional tensions, including whether Iran's neighbors will accept the terms of the nuclear agreement.

### **The Lure of Authoritarianism** Stephen J.

King,Abdeslam Maghraoui,2019-04-04 The works collected in *The Lure of Authoritarianism* consider the normative appeal of authoritarianism in light of the 2011 popular uprisings in the Middle East. Despite what seemed to be a popular revolution in favor of more democratic politics, there has instead been a slide back toward authoritarian regimes that merely gesture toward notions of democracy. In the chaos that followed the Arab Spring, societies were lured by the prospect of strong leaders with firm guiding hands. The shift toward normalizing these regimes seems sudden, but the works collected in this volume document a gradual shift toward support for authoritarianism over democracy that stretches back decades in North Africa. Contributors consider the ideological, socioeconomic, and security-based justifications of authoritarianism as well as the surprising and vigorous reestablishment of authoritarianism in these regions. With careful attention to local variations and differences in political strategies, the volume provides a nuanced and sweeping consideration of the changes in the Middle East in the past and what they mean for the future.
