Military Modernisation in Southeast Asia after the Cold War Shang-Su Wu,2024-04-01 Southeast Asian countries represent a wide range of approaches to military modernisation due to their great diversity in politics, economies, geography and other factors. Bounded by the Pacific and Indian Oceans and located between China and India is the setting for the geostrategic impacts of military modernisation in Southeast Asian countries. Differing from previous research focused on military acquisition, this book additionally covers retention of assets and carefully examines the ageing issues that affect readiness and capabilities. In doing so, it provides a comprehensive view of military modernisation. This book also compares each country's situation in the region in terms of military strength and security challenges to elaborate on the geostrategic impacts of military modernisation. The ten cases of military modernisation in the post-Cold War context provide rich content for readers to explore the evolution of military modernisation in developing countries after 1991. This book sheds light on security studies of Southeast Asia and is a useful resource for academic researchers, policy-makers and defence practitioners.

Current Perspectives on Asian Women in Leadership Yonjoo Cho,Rajashi Ghosh,Judy Y. Sun,Gary N. McLean,2017-09-27 This book explores the unique socioeconomic challenges encountered by female leaders in China, India, Japan, Korea, and other Asian countries where traditional cultural expectations and modernized values coexist. It provides insight into gender inequality and underutilization of female talent as well as ways to develop highly qualified women in organizations. Chapters from expert contributors analyze the similarities and differences between each Asian country, the organizational and institutional challenges for women in the workplace, and how they balance work-family relationships. It will appeal to researchers and students in human resource development, management, leadership, Asia studies, women's studies, and political science, among others.

The Displaced Rohingyas Sk Tawfique M Haque,Bulbul Siddiqi,Mahmudur Rahman Bhuiyan,2023-08-25 This volume offers a comprehensive overview of the Rohingya refugee crisis in Bangladesh. It analyses the socio-cultural and humanitarian challenges of the crisis, along with the discourses that have developed on this issue via the local and international media and literature. The volume also suggests ways to build sustainable solutions for the Rohingya refugees. It discusses wide-ranging issues including a historical overview of the Rohingyas; the Rakhine State of Myanmar and the issue of religious toleration; the struggle for existence in Malaysia and Thailand; vulnerable Rohingya in Bangladesh; and stratified lives in Bangladeshi camps. It also sheds light on social insecurity among Rohingya adolescent girls; understanding gender-based violence in camps; the portrayal of the crisis in Chinese and Indian newspapers; and Bangladesh's policy in addressing the Rohingya crisis and repatriation. This book will be useful for scholars and researchers of sociology, social anthropology, refugee studies, peace and conflict studies, international relations, human rights, political studies, gender studies, and South Asian studies.

China's High-tech Companies: Case Studies Of China And Hong Kong Special Administrative Region (Sar) Tai Wei Lim,2023-10-12 China is now considered a tech superpower in many areas. This book illustrates certain aspects and case studies of China's technological developments and further analyzes them under various areas like coal energy, housing, connectivity, digital and space technologies. Furthermore, it examines technological developments in the periphery of China, focusing especially on Hong Kong Special Administrative Region (HKSAR). This book does not pretend to be comprehensive in its coverage albeit surveys a spectrum of sectors in China and Hong Kong to get an idea of their developments. By peering into China through the mainland continental perspective and also looking into China from its periphery (e.g., 'Greater China' perspectives from HKSAR), this book provides readers with the broad contours of technological development in China through a multidisciplinary area studies perspective.

Mobile Communication Systems and Security Man Young Rhee,2009-07-23 Mobile Communication Systems and Security arms readers with a thorough understanding of all major cellular air-interface technologies and their security layer techniques. Rhee covers the technological development of wireless mobile communications in compliance with each iterative generation up to 3G systems and beyond, with an emphasis on wireless security aspects. By progressing in a systematic manner, presenting the theory and practice of wireless mobile technologies along with various security problems, readers will gain an intimate sense of how mobile systems operate and how to address complex security issues. Written by a top expert in information security Details each generation of cellular technology Gives a clear understanding of wireless security protocol analysis Offers complete coverage of various protocols and specifications in 3GPPs Forecasts new features and promising technologies Presents numerical examples in each chapter for easier understanding Provides source code that can be used for individual practice The book is ideal for advanced undergraduate and postgraduate students enrolled in courses such as Wireless Networking, Wireless Security, or Mobile Radio Communications. Practicing engineers in industry and research scientists can use the book as a reference to get reacquainted with mobile radio fundamentals or to gain deeper understanding of the security layer. Imagine Alex Sangha,2010 Imagine places ideas in society and gets readers thinking critically about their most cherished beliefs and values. The topics are vast and varied. Abortion, immigration, gay rights, love, mentorship, and sustainable development. There is no right answer. We must come to our own conclusions. If we can listen and learn from each other, we can accept our differences. Everyone has ideas on how to make the world a better place and fill humankind with hope. Imagine espouses humanitarian and egalitarian ideals such as every citizen deserves to reach their potential and contribute to society. Imagine is written from the perspective of protecting the people and the planet for current and future generations. You will learn of thought-provoking issues. The book proposes that we are all one and connected by spiritual energy. This will help us look for what we have in common and bring about social peace, social progress, and social change that lights our soul and lifts humanity in one colossal embrace.

The Design of Rijndael Joan Daemen,Vincent Rijmen,2020-05-23 An authoritative and comprehensive guide to the Rijndael algorithm and Advanced Encryption Standard (AES). AES is expected to gradually replace the present Data Encryption Standard (DES) as the most widely applied data encryption technology. This book, written by the designers of the block cipher, presents Rijndael from scratch. The underlying mathematics and the wide trail strategy as the basic design idea are explained in detail and the basics of differential and linear cryptanalysis are reworked. Subsequent chapters review all known attacks against the Rijndael structure and deal with implementation and optimization issues. Finally, other ciphers related to Rijndael are presented.

Information Security Practice and Experience Feng Bao,Liqun Chen,Robert H. Deng,Guojun Wang,2016-11-02 This book constitutes the proceedings of the 12th International Conference on Information Security and Practice and Experience, ISPEC 2016, held in Zhangjiajie, China, in November 2016. The 25 papers presented in this volume were carefully reviewed and selected from 75 submissions. They cover multiple topics in information security, from technologies to systems and applications.

Behavioral Cybersecurity Wayne Patterson,Cynthia E. Winston-Proctor,2019-04-25 Since the introduction and proliferation of the Internet, problems involved with maintaining cybersecurity has grown exponentially, and have evolved into many forms of exploitation. Yet, Cybersecurity has had far too little study and research. Virtually all of the Research that has taken place in cybersecurity

over many years, has been done by those with computer science, electrical engineering, and mathematics backgrounds. However, many cybersecurity researchers have come to realize that to gain a full understanding of how to protect a cyber environment requires not only the knowledge of those researchers in computer science, engineering and mathematics, but those who have a deeper understanding of human behavior: researchers with expertise in the various branches of behavioral science, such as psychology, behavioral economics, and other aspects of brain science. The authors, one a computer scientist and the other a psychologist, have attempted over the past several years to understand the contributions that each approach to cybersecurity problems can benefit from this integrated approach that we have tended to call behavioral cybersecurity. The authors believe that the research and curriculum approaches developed from this integrated approach provide a first book with this approach to cybersecurity. This book incorporates traditional technical computational and analytic approaches to cybersecurity, and also psychological and human factors approaches, as well. Features Discusses profiling approaches and risk management Includes case studies of major cybersecurity events and Fake News Presents analyses of password attacks and defenses Addresses game theory, behavioral economics and their application to cybersecurity Supplies research into attacker/defender personality and motivation traits Techniques for measuring cyber attacks/defenses using crypto and stego

Judaic Technologies of the Word Gabriel Levy, 2014-10-14 Judaic Technologies of the Word argues that Judaism does not exist in an abstract space of reflection. Rather, it exists both in artifacts of the material world - such as texts - and in the bodies, brains, hearts, and minds of individual people. More than this, Judaic bodies and texts, both oral and written, connect and feed back on one another. Judaic Technologies of the Word examines how technologies of literacy interact with bodies and minds over time. The emergence of literacy is now understood to be a decisive factor in religious history, and is central to the transformations that took place in the ancient Near East in the first millennium BCE. This study employs insights from the cognitive sciences to pursue a deep history of Judaism, one in which the distinctions between biology and culture begin to disappear.

Fast Software Encryption Alex Biryukov, 2007-08-18 This book contains the thoroughly refereed post-proceedings of the 14th International Workshop on Fast Software Encryption, FSE 2007, held in Luxembourg, Luxembourg, March 2007. It addresses all current aspects of fast and secure primitives for symmetric cryptology, covering hash function cryptanalysis and design, stream ciphers cryptanalysis, theory, block cipher cryptanalysis, block cipher design, theory of stream ciphers, side channel attacks, and macs and small block ciphers.

Catholics and Everyday Life in Macau Chen Hon-Fai, 2017-03-16 Catholicism has had an important place in Macau since the earliest days of Portuguese colonization in the sixteenth century. This book, based on extensive original research including in-depth interviews, examines in detail the everyday life of Catholics in Macau at present. It outlines the tremendous societal pressures which Macau is currently undergoing - sovereignty handover and its consequences, the growth of casinos and tourism and the transformation of a serene and somewhat obscure colony into a vibrantly developing city. It shows how, although the formal structures of Catholicism no longer share in rule by the colonial power, and although formal religious observance is declining, nevertheless the personal piety and ethical religious outlook of individual Catholics continue to be strong, and have a huge, and possibly increasing, impact on public life through the application of personal religious ethics to issues of human rights and social justice and in the fields of education and social services.

Public-key Cryptography Abhijit Das, C. E. Veni Madhavan, 2009 Public-key Cryptography provides a comprehensive coverage of the mathematical tools required for understanding the techniques of public-key cryptography and cryptanalysis. Key topics covered in the book include common cryptographic primitives and symmetric techniques, quantum cryptography, complexity theory, and practical cryptanalytic techniques such as side-channel attacks and backdoor attacks. Organized into eight chapters and supplemented with four appendices, this book is designed to be a self-sufficient resource for all students, teachers and researchers interested in the field of cryptography.

Business, Economic and Financial Issues in Emerging Markets and Advanced Economies after the COVID-19 Crisis Giray Gozgor, Chi Lau, 2023-11-22 This Research Topic is Volume 2 in the Research Topic series 'Economic and Financial Issues in the Post-COVID-19 World: Implications and Role of Public Health'. Both developed and developing economies have experienced significant risks and uncertainties due to the COVID-19 pandemic. There are still risks and uncertainty shocks of the COVID-19 in every aspect of the global economic and financial system, including investors' decisions and the financial sector's development. In this Research Topic, we aim to understand the dynamics of business, economic, and financial issues - including potential structural changes after the COVID-19 in emerging markets and advanced economies. This Research Topic's main goal is to provide different aspects and consequences of economic and financial issues in emerging markets and advanced economies after the COVID-19 pandemic. In particular, we welcome interdisciplinary, empirical, and theoretical papers (panel data studies, survey studies, and time-series analyses) focusing on the business, economic, and financial issues after the COVID-19 crisis. We also welcome policy briefs of people working at central banks, governments, and other public institutions, focusing on these issues.
