*China's High-tech Companies: Case Studies Of China And Hong Kong Special Administrative Region (Sar)* Tai Wei Lim, 2023-10-12 China is now considered a tech superpower in many areas. This book illustrates certain aspects and case studies of China's technological developments and further analyzes them under various areas like coal energy, housing, connectivity, digital and space technologies. Furthermore, it examines technological developments in the periphery of China, focusing especially on Hong Kong Special Administrative Region (HKSAR). This book does not pretend to be comprehensive in its coverage albeit surveys a spectrum of sectors in China and Hong Kong to get an idea of their developments. By peering into China through the mainland continental perspective and also looking into China from its periphery (e.g., 'Greater China' perspectives from HKSAR), this book provides readers with the broad contours of technological development in China through a multidisciplinary area studies perspective.

*Catholics and Everyday Life in Macau* Chen Hon-Fai, 2017-03-16 Catholicism has had an important place in Macau since the earliest days of Portuguese colonization in the sixteenth century. This book, based on extensive original research including in-depth interviews, examines in detail the everyday life of Catholics in Macau at present. It outlines the tremendous societal pressures which Macau is currently undergoing – sovereignty handover and its consequences, the growth of casinos and tourism and the transformation of a serene and somewhat obscure colony into a vibrantly developing city. It shows how, although the formal structures of Catholicism no longer share in rule by the colonial power, and although formal religious observance is declining, nevertheless the personal piety and ethical religious outlook of individual Catholics continue to be strong, and have a huge, and possibly increasing, impact on public life through the application of personal religious ethics to issues of human rights and social justice and in the fields of education and social services.

**Mann's Pharmacovigilance** Elizabeth B. Andrews, Nicholas Moore, 2014-06-23 Highly Commended at the BMA Medical Book Awards 2015 Mann's Pharmacovigilance is the definitive reference for the science of detection, assessment, understanding and prevention of the adverse effects of medicines, including vaccines and biologics. Pharmacovigilance is increasingly important in improving drug safety for patients and reducing risk within the practice of pharmaceutical medicine. This new third edition covers the regulatory basis and the practice of pharmacovigilance and spontaneous adverse event reporting throughout the world. It examines signal detection and analysis, including the use of population-based databases and pharmacoepidemiological methodologies to proactively monitor for and assess safety signals. It includes chapters on drug safety practice in specific organ classes, special populations and special products, and new developments in the field. From an international team of expert editors and contributors, Mann's Pharmacovigilance is a reference for everyone working within pharmaceutical companies, contract research organisations and medicine regulatory agencies, and for all researchers and students of pharmaceutical medicine. The book has been renamed in honor of Professor Ronald Mann, whose vision and leadership brought the first two editions into being, and who dedicated his long career to improving the safety and safe use of medicines.

**Linking Language, Trade and Migration** Ruriko Otomo, 2023-06-21 This book examines the effect of trade policy on language which represents an underrecognized area in the field of language policy and planning. It argues that trade policies like Japan's Economic Partnership Agreements (EPAs) have important consequences for national language (education) policies and for discourses about language and nation. Since 2008, Japan has signed the EPAs with Indonesia, the Philippines and Vietnam to recruit migrant nurses and eldercare workers and manage their mobility by means of pre-employment language training and the Japanese-medium licensure examinations. Through the analysis

of these language management devices, this book demonstrates that the EPAs are a manifestation and representation of contemporary language issues intertwined particularly with pressing issues of Japan's social aging and demographic change. As the EPAs are intertwined with welfare, economy, social cohesion, and international political and economic relations and competitiveness, the book presents a far more complex picture of and a richer potential of language policy.

**Business, Economic and Financial Issues in Emerging Markets and Advanced Economies after the COVID-19 Crisis** Giray Gozgor, Chi Lau, 2023-11-22 This Research Topic is Volume 2 in the Research Topic series 'Economic and Financial Issues in the Post-COVID-19 World: Implications and Role of Public Health'. Both developed and developing economies have experienced significant risks and uncertainties due to the COVID-19 pandemic. There are still risks and uncertainty shocks of the COVID-19 in every aspect of the global economic and financial system, including investors' decisions and the financial sector's development. In this Research Topic, we aim to understand the dynamics of business, economic, and financial issues - including potential structural changes after the COVID-19 in emerging markets and advanced economies. This Research Topic's main goal is to provide different aspects and consequences of economic and financial issues in emerging markets and advanced economies after the COVID-19 pandemic. In particular, we welcome interdisciplinary, empirical, and theoretical papers (panel data studies, survey studies, and time-series analyses) focusing on the business, economic, and financial issues after the COVID-19 crisis. We also welcome policy briefs of people working at central banks, governments, and other public institutions, focusing on these issues.

**The Law and Policy of Biofuels** Yves Le Bouthillier, Annette Cowie, Paul Martin, Heather McLeod-Kilmurray, 2016-05-27 In the last twenty years the biofuels industry has developed rapidly in many regions of the world. This book provides an in-depth and critical study of the law and policies in many of the key biofuels producing countries, such as Brazil, China, the US, as well as the EU, and a number of other countries where this industry is quickly developing. The multidisciplinary contributors examine the roles of the public and private sectors in the governance of biofuels. They propose recommendations for more effective and efficient biofuel policies.

**International Student Mobility** Jasper Kun-Ting Hsieh, 2020-09-29 International Student Mobility presents an autoethnographic study, which follows a group of non-English speaking international students from Taiwan during a period of study in Australia. The study examines the ways in which the students' sense of identity shifts over time, and why this happens. Hsieh engages Pierre Bourdieu's notions of capital, habitus and field to develop an understanding of complexity of identity movements and asks to what extent the students see themselves as culturally and linguistically 'international', both during their time abroad and upon their return home. Perfect for researchers and advanced students interested in international higher education, International Student Mobility is also an insightful read for those investigating the experiences of Chinese-speaking international students.

**Cultural Heritage Politics in China** Tami Blumenfield, Helaine Silverman, 2013-05-14 This volume explores China's cultural heritage ideology and policies from three interrelated perspectives: the State and World Heritage tourism; cultural heritage tourism at undesignated sites, and the cultural politics of museums and collections. Something of a cultural heritage designation craze is happening in China. This is new within even the last five to ten years. Officials at many levels now see heritage preservation as a means for commoditizing their regions. They are devoting new resources and attention to national and international heritage designations. Thus, addressing cultural heritage politics in a nation dedicated to designation is an important project, particularly in the context of a rapidly growing economy. This volume is also important because it addresses a very wide range of

cultural heritage, providing an excellent sample of case studies: historic vernacular urban environments, ethnic tourism, scenic tourism, pilgrimage as tourism, tourism and economic development, museums, border heritage, underwater remains, and the actual governance and management of the sites. This volume is an outstanding introduction to cultural heritage issues in China while contributing to Chinese studies for those with greater knowledge of the area.

Handbook of Higher Education and Disability Joseph W. Madaus, Lyman L. Dukes III, 2023-12-11 This Handbook is an essential starting point for cross-national examinations, comparisons, and discussions about state-of-the-art practices in higher education accessibility and service delivery support for disabled students. Spanning a broad geographical range, the topics addressed are examined within the context of the practice and philosophy of different countries.

*Hong Kong Professional Services and the Belt and Road Initiative* Linda Chelan Li, Phyllis Lai Lan Mo, 2023-03-03 This book scrutinizes the role of Hong Kong in the expansive, and contested, vision of China's Belt and Road Initiative (BRI). In two main parts, it first discusses the defining features of the BRI and the evolving expectations of the role of Hong Kong in the BRI from the perspectives of policy makers and the professional sectors of accountancy-finance and the law. The second part contemplates the potential opportunities for Hong Kong from the perspectives of recipient countries-Sri Lanka, Vietnam, Cambodia and Myanmar. Utilizing an action research approach and engaging the views of a broad spectrum of actors, the authors observe the critical role of agency and innovations in a context of institutional contradictions, the impact of BRI governance structure for the deficits in international participation, gaps between grand state visions and commercial interests, and the salience of effective communication in navigating complex policy initiatives. Taking these together unpacks the complex processes shaping Hong Kong's participation and role in the BRI. This book will appeal to students and researchers interested in the BRI and Hong Kong, in the contexts of institutional contradictions, agency innovations, and political dynamics, as well as sustainable development.

Two Systems, Two Countries Kevin Carrico, 2022-04-08 As Hong Kong is integrated into the People's Republic of China, ever fewer people in the city identify as Chinese. *Two Systems, Two Countries* explains why. *Two Systems, Two Countries* traces the origins of Hong Kong nationalism and introduces readers to its main schools of thought: city-state theory, self-determination, independence, and returnism. The idea of Hong Kong independence, Kevin Carrico shows, is more than just a provocation testing Beijing's red lines: it represents a collective awakening to the failure of One Country Two Systems and the need to transcend obsolete orthodoxies. With a conclusion that examines Hong Kong nationalism's influence on the 2019 protest movement, *Two Systems, Two Countries* is an engaging and accessible introduction to the tumultuous shifts in Hong Kong politics and identity over the past decade.

**Sinicizing Christianity**, 2017-04-18 *Sinicizing Christianity* investigates the ways in which Chinese people contextualized Christianity for local use. It contributes to the larger debate on sinicization and offers insight on the transition from Christianity in China to Chinese Christianity.

**Fast Software Encryption** Bimal Roy, 2004-06-16 This book constitutes the refereed proceedings of the 11th International Workshop on Fast Software Encryption, FSE 2004, held in Delhi, India in February 2004. The 28 revised full papers presented together with 2 invited papers were carefully reviewed and selected from 75 submissions. The papers are organized in topical sections on algebraic attacks, stream cipher cryptanalysis, Boolean

functions, stream cipher design, design and analysis of block ciphers, cryptographic primitives-theory, modes of operation, and analysis of MACs and hash functions.

**The Design of Rijndael** Joan Daemen,Vincent Rijmen,2020-05-23 An authoritative and comprehensive guide to the Rijndael algorithm and Advanced Encryption Standard (AES). AES is expected to gradually replace the present Data Encryption Standard (DES) as the most widely applied data encryption technology. This book, written by the designers of the block cipher, presents Rijndael from scratch. The underlying mathematics and the wide trail strategy as the basic design idea are explained in detail and the basics of differential and linear cryptanalysis are reworked. Subsequent chapters review all known attacks against the Rijndael structure and deal with implementation and optimization issues. Finally, other ciphers related to Rijndael are presented.
