Pale Fire Vladimir Nabokov, 2024-02-18 The American poet John Shade is dead. His last poem, 'Pale Fire', is put into a book, together with a preface, a lengthy commentary and notes by Shade's editor, Charles Kinbote. Known on campus as the 'Great Beaver', Kinbote is haughty, inquisitive, intolerant, but is he also mad, bad - and even dangerous? As his wildly eccentric annotations slide into the personal and the fantastical, Kinbote reveals perhaps more than he should be. Nabokov's darkly witty, richly inventive masterpiece is a suspenseful whodunit, a story of one-upmanship and dubious penmanship, and a glorious literary conundrum.

**Plasmonics: Fundamentals and Applications** Stefan Alexander Maier, 2007-05-16 Considered a major field of photonics, plasmonics offers the potential to confine and guide light below the diffraction limit and promises a new generation of highly miniaturized photonic devices. This book combines a comprehensive introduction with an extensive overview of the current state of the art. Coverage includes plasmon waveguides, cavities for field-enhancement, nonlinear processes and the emerging field of active plasmonics studying interactions of surface plasmons with active media.

**V.I. Lenin** Maria Prilezhayeva, 2013

**The Russian Folktale by Vladimir Yakovlevich Propp** Vladimir Yakovlevich Propp, 2012-09-12 Vladimir Propp is the Russian folklore specialist most widely known outside Russia thanks to the impact of his 1928 book Morphology of the Folktale-but

Morphology is only the first of Propp's contributions to scholarship. This volume translates into English for the first time his book *The Russian Folktale*, which was based on a seminar on Russian folktales that Propp taught at Leningrad State University late in his life. Edited and translated by Sibelan Forrester, this English edition contains Propp's own text and is supplemented by notes from his students. *The Russian Folktale* begins with Propp's description of the folktale's aesthetic qualities and the history of the term; the history of folklore studies, first in Western Europe and then in Russia and the USSR; and the place of the folktale in the matrix of folk culture and folk oral creativity. The book presents Propp's key insight into the formulaic structure of Russian wonder tales (and less schematically than in *Morphology*, though in abbreviated form), and it devotes one chapter to each of the main types of Russian folktales: the wonder tale, the novellistic or everyday tale, the animal tale, and the cumulative tale. Even Propp's bibliography, included here, gives useful insight into the sources accessible to and used by Soviet scholars in the third quarter of the twentieth century. Propp's scholarly authority and his human warmth both emerge from this well-balanced and carefully structured series of lectures. An accessible introduction to the Russian folktale, it will serve readers interested in folklore and fairy-tale studies in addition to Russian history and cultural studies.

**The Complete Kagan** Vladimir Kagan, Tom Ford, Aric Chen, Anne Hellman, 2004 1st complete compendium of Kagan's life and work and includes dozens of never before published photographs and sketches from his personal archives.

**Liquid Modernity** Zygmunt Bauman, 2013-07-10 In this new book, Bauman examines how we have moved away from a 'heavy' and 'solid', hardware-focused modernity to a

'light' and 'liquid', software-based modernity. This passage, he argues, has brought profound change to all aspects of the human condition. The new remoteness and unreachability of global systemic structure coupled with the unstructured and under-defined, fluid state of the immediate setting of life-politics and human togetherness, call for the rethinking of the concepts and cognitive frames used to narrate human individual experience and their joint history. This book is dedicated to this task. Bauman selects five of the basic concepts which have served to make sense of shared human life - emancipation, individuality, time/space, work and community - and traces their successive incarnations and changes of meaning. Liquid Modernity concludes the analysis undertaken in Bauman's two previous books Globalization: The Human Consequences and In Search of Politics. Together these volumes form a brilliant analysis of the changing conditions of social and political life by one of the most original thinkers writing today.

*The Film Sense* Sergei Eisenstein, 1947 A renowned Soviet director discusses his theory of film as an artistic medium which must appeal to all senses and applies it to an analysis of sequences from his major movies.

**Technological Slavery (Large Print 16pt)** Theodore J. Kaczynski, David Skrbina, 2011-02 Theodore Kaczynski saw violent collapse as the only way to bring down the techno-industrial system, and in more than a decade of mail bomb terror he killed three people and injured 23 others. One does not need to support the actions that landed Kaczynski in supermax prison to see the value of his essays disabusing the notion of heroic technology while revealing the manner in which it is destroying the planet. For the first time, readers will have an uncensored personal account of his anti-technology philosophy,

including a corrected version of the notorious "Unabomber Manifesto," Kaczynski, s critique of anarcho-primitivism, and essays regarding "the Coming Revolution."

**Physical Foundations of Cosmology** Viatcheslav Mukhanov, 2005-11-10 Inflationary cosmology has been developed over the last twenty years to remedy serious shortcomings in the standard hot big bang model of the universe. This textbook, first published in 2005, explains the basis of modern cosmology and shows where the theoretical results come from. The book is divided into two parts; the first deals with the homogeneous and isotropic model of the Universe, the second part discusses how inhomogeneities can explain its structure. Established material such as the inflation and quantum cosmological perturbation are presented in great detail, however the reader is brought to the frontiers of current cosmological research by the discussion of more speculative ideas. An ideal textbook for both advanced students of physics and astrophysics, all of the necessary background material is included in every chapter and no prior knowledge of general relativity and quantum field theory is assumed.

*Art of the October Revolution* Mikhail ĪŮŖ'evich German, 1979 Presents reproductions of paintings, posters, sculptures, graphic art, designs for the festive decoration of cities, pieces of propaganda porcelain, the first Soviet postage stamps, stage sets, costumes, commemorative medals, and designs for the decoration of agit-prop trains. This book offers the reader an opportunity to sample the full range of the creative efforts of Russian artists in the years 1917-1923.

Khwadāynāmag The Middle Persian Book of Kings Jaakko Hämeen-Anttila, 2018-04-17 In *Khwadāynāmag*. The Middle Persian Book of Kings Jaakko Hämeen-Anttila analyses the lost

sixth-century historiographical work of the Sasanians, its lost Arabic translations, and the sources of Firdawsī's Shāhnāme.

*Architectural Drawings of the Russian Avant-garde* Catherine Cooke, Museum of Modern Art (New York, N.Y.), 1990

*Collected Works of Velimir Khlebnikov: Letters and theoretical writings* Велимир Хлебников, 1987 Dubbed by his fellow Futurists the King of Time, Velimir Khlebnikov (1885-1922) spent his entire brief life searching for a new poetic language to express his convictions about the rhythm of history, the correspondence between human behavior and the language of the stars. The result was a vast body of poetry and prose that has been called hermetic, incomprehensible, even deranged. Of all this tragic generation of Russian poets (including Blok, Esenin, and Mayakovsky), Khlebnikov has been perhaps the most praised and the more censured. This first volume of the Collected Works, an edition sponsored by the Dia Art Foundation, will do much to establish the counterimage of Khlebnikov as an honest, serious writer. The 117 letters published here for the first time in English reveal an ebullient, humane, impractical, but deliberate working artist. We read of the continuing involvement with his family throughout his vagabond life (pleas to his smartest sister, Vera, to break out of the mold, pleas to his scholarly father not to condemn and to send a warm overcoat); the naive pleasure he took in being applauded by other artists; his insistence that a young girl's simple verses be included in one of the typically outrageous Futurist publications of the time; his jealous fury at the appearance in Moscow of the Italian Futurist Marinetti; a first draft of his famous zoo poem (O Garden of Animals!); his seriocomic but ultimately shattering efforts to be released from army service; his

inexhaustibly courageous confrontation with his own disease and excruciating poverty; and always his deadly earnest attempt to make sense of numbers, language, suffering, politics, and the exigencies of publication. The theoretical writings presented here are even more important than the letters to an understanding of Khlebnikov's creative output. In the scientific articles written before 1910, we discern foreshadowings of major patterns of later poetic work. In the pan-Slavic proclamations of 1908-1914, we find explicit connections between cultural roots and linguistic ramifications. In the semantic excursions beginning in 1915, we can see Khlebnikov's experiments with consonants, nouns, and definitions spelled out in accessible, if arid, form. The essays of 1916-1922 take us into the future of Planet Earth, visions of universal order and accomplishment that no longer seem so farfetched but indeed resonate for modern readers.

**Mistrust** Matthew Carey, 2017 Trust occupies a unique place in contemporary discourse. Seen as both necessary and good, it is variously depicted as enhancing the social fabric, lowering crime rates, increasing happiness, and generating prosperity. It allows for complex political systems, permits human communication, underpins financial instruments and economic institutions, and holds society itself together. There is scant space within this vision for a nuanced discussion of mistrust. With few exceptions, it is treated as little more than a corrosive absence. This monograph, instead, proposes an ethnographic and conceptual exploration of mistrust as a legitimate epistemological stance in its own right. It examines the impact of mistrust on practices of conversation and communication, friendship and society, as well as politics and cooperation, and suggests that suspicion, doubt, and uncertainty can also ground ways of organizing human society

and cooperating with others.

**Vladimir Nabokov and the Art of Play** Thomas Karshan, 2011-01-13 In a 1925 speech, Nabokov declared that 'everything in the world plays', including 'love, nature, the arts, and domestic puns.' Thomas Karshan draws on untranslated early writings and restricted archival material to argue that play is Nabokov's signature theme, and that his novels form one of the most sophisticated treatments of play ever achieved.

"Tsar and God" and Other Essays in Russian Cultural Semiotics Victor Zhivov, Boris Uspenskij, 2018-05-30 Featuring a number of pioneering essays by the internationally known Russian cultural historians Boris Uspenskij and Victor Zhivov, this collection includes a number of essays appearing in English for the first time. Focusing on several of the most interesting and problematic aspects of Russia's cultural development, these essays examine the survival and the reconceptualization of the past in later cultural systems and some of the key transformations of Russian cultural consciousness. The essays in this collection contain some important examples of Russian cultural semiotics and remain indispensable contributions to the history of Russian civilization.

**Frame by Frame** Hannah Frank, 2019-04-09 At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more. In this beautifully written and deeply researched study, Hannah Frank provides an original way to understand American animated cartoons from the Golden Age of animation (1920-1960). In the pre-digital age of the twentieth century, the making of cartoons was mechanized and standardized: thousands of drawings were inked and painted onto individual transparent celluloid sheets

(called “cels”) and then photographed in succession, a labor-intensive process that was divided across scores of artists and technicians. In order to see the art, labor, and technology of cel animation, Frank slows cartoons down to look frame by frame, finding hitherto unseen aspects of the animated image. What emerges is both a methodology and a highly original account of an art formed on the assembly line.

Young Stalin Simon Sebag Montefiore, 2009-12-09 From the New York Times bestselling author of *The Romanovs*—and one of our pre-eminent historians—comes “a meticulously researched, authoritative biography” (The New York Times), the companion volume to the prize-winning *Stalin*, and essential reading for anyone interested in Russian history. This revelatory account unveils how Stalin became Stalin, examining his shadowy journey from obscurity to power—from master historian Simon Sebag Montefiore. Based on ten years of research, *Young Stalin* is a brilliant prehistory of the USSR, a chronicle of the Revolution, and an intimate biography. Montefiore tells the story of a charismatic, darkly turbulent boy born into poverty, scarred by his upbringing but possessed of unusual talents. Admired as a romantic poet and trained as a priest, he found his true mission as a murderous revolutionary. Here is the dramatic story of his friendships and hatreds, his many love affairs, his complicated relationship with the Tsarist secret police, and how he became the merciless politician who shaped the Soviet Empire in his own brutal image.

**Beyond Memory** Diane Neumaier, 2004 Photography possesses a powerful ability to bear witness, aid remembrance, shape, and even alter recollection. In *Beyond Memory: Soviet Nonconformist Photography and Photo-Related Works of Art*, the general editor, Diane Neumaier, and twenty-three contributors offer a rigorous examination of the

medium's role in late Soviet unofficial art. Focusing on the period between the mid-1950s and the late 1980s, they explore artists' unusually inventive and resourceful uses of photography within a highly developed Soviet dissident culture. During this time, lack of high-quality photographic materials, complimented by tremendous creative impulses, prompted artists to explore experimental photo-processes such as camera and darkroom manipulations, photomontage, and hand-coloring. Photography also took on a provocative array of forms including photo installation, artist-made samizdat (self-published) books, photo-realist painting, and many other surprising applications of the flexible medium. Beyond Memory shows how innovative conceptual moves and approaches to form and content-echoes of Soviet society's coded communication and a Russian sense of absurdity-were common in the Soviet cultural underground. Collectively, the works in this anthology demonstrate how late-Soviet artists employed irony and invention to make positive use of difficult circumstances. In the process, the volume illuminates the multiple characters of photography itself and highlights the leading role that the medium has come to play in the international art world today. Beyond Memory stands on its own as a rigorous examination of photography's place in late Soviet unofficial art, while also serving as a supplement to the traveling exhibition of the same title.
