Craft: Volume 01 Carla Sinclair, 2006-11-28 CRAFT is the first project-based magazine dedicated to the renaissance that is occurring within the world of crafts. Celebrating the DIY spirit, CRAFT's goal is to unite, inspire, inform and entertain a growing community of highly imaginative people who are transforming traditional art and crafts with unconventional, unexpected and even renegade techniques, materials and tools; resourceful spirits who undertake amazing crafting projects in their homes and communities. Volume 01, the premier issue, features 23 projects with a twist! Make a programmable LED shirt, turn dud shoes into great knitted boots, felt an iPod cocoon, embroider a skateboard, and much more.

Augmented Reality Art Vladimir Geroimenko, 2014-06-17
Written by a team of world-renowned artists, researchers and practitioners - all pioneers in using augmented reality based creative works and installations as a new form of art - this is the first book to explore the exciting new field of augmented reality art and its enabling technologies. As well as investigating augmented reality as a novel artistic medium the book covers cultural, social, spatial and cognitive facets of augmented reality art. Intended as a starting point for exploring this new fascinating area of research and creative practice it will be essential reading not only for artists, researchers and technology developers, but also for students (graduates and undergraduates) and all those interested in emerging augmented reality technology and its current and future applications in art.

Owlbert Nicholas Harris, 1989-01-01 Nicholas longs for a pet, but his parents say, No, until one with all the right qualifications comes along.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most

significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

I Feel Jealous Stephanie Finne, 2021-06-15 In this book, readers will learn about jealousy and envy in themselves and others, how and why they feel it, how to best respond to it, and how to communicate these feelings. Social and emotional learning (SEL) concepts support growth mindset throughout, while Try This! and Grow with Goals activities at the end of the book further reinforce the content. Vibrant, full-color photos and carefully leveled text engage young readers as they learn more about states of mind, moods, and emotions. Also includes sidebars, a table of contents, glossary, index, and tips for educators and caregivers. I Feel Jealous is part of Jump!'s States of Mind series.

Designer Relationships Mark Michaels, 2015-09-08 Contemporary relationships are in a state of rapid evolution. These changes can and should empower people with the opportunity to develop partnerships based on their own sexualities, understandings, and agreements. This makes it possible to create what Kenneth Haslam, founder of the Kinsey Institute's Polyamory Archive, has called "designer relationships." Designer relationships may encompass: people who bond emotionally but not sexually; people who agree to be non-exclusive; single people who have occasional lovers or friends with benefits; multiple partner configurations where long-term bonds exist among all or some; partnerships in which people are kinky and that

make room to explore kink. The possibilities are limitless, and thinking about a partnership as something people can craft allows for flexibility and change. Relationships can open and close or have varying degrees and kinds of openness as circumstances demand. In the context of a designer relationship, decisions are made mutually, consciously, and deliberately. Best-selling authors and nationally known relationship experts Patricia Johnson and Mark A. Michaels are exemplars of this life choice, and have studied polyamory for over 20 years. This book explains exactly how you and your loved ones can design your own life and love.

Motor Dolls Lori Bentley Law, 2013-08 Heart Stopping Stunts! Cameras Galore! And a shadowy man in gray with nefarious plans... Welcome to the world of the MOTOR DOLLS! An encounter with a stranger on the day of her grandmother's death steers Jeda into a life of danger as she chases one bizarre challenge after another-like jumping off of a pier with a handmade kite strapped to her back, or zapping herself silly with a stun-gun. But when the game escalates from a thrilling adventure to something darker, Jeda begins to question the reason for it all. Is someone really trying to drive her to her death? Or is she simply nuts? In her quest to find answers, she enlists the help of fellow hotrod girl Benny to chronicle the madness on film, and together they race to discover the truth behind Jeda's odd life and at last get to the bottom of the mystery behind the man in gray.

Typographic Systems of Design Kimberly Elam,2007-05-03
Typographic organization has always been a complex system in that there are so many elements at play, such as hierarchy, order of reading, legibility, and contrast. In *Typographic Systems*, Kim Elam, author of our bestselling books, *Geometry of Design* and *Grid Systems*, explores eight major structural frameworks beyond the grid including random, radial, modular, and bilateral systems. By taking the reader through exercises, student work, and professional examples, Elam offers a broad range of design solutions. Once essential visual organization systems are understood the designer can fluidly organize words or images within a structure, combination of structures, or a variation of a structure. With clarity and substance, each system from the structured axis to the nonhierarchical radial array is explained and explored so that the reader comes away with a better understanding of these intricate complex arrangements. *Typographic Systems* is the seventh title in our bestselling *Design Briefs* series, which has sold more than 100,000 copies worldwide.

Harem Royale -When the Game Ends- Vol. 1

Ryukishi07,2019-01-07 From the mind of Ryukishi07, creator of classics such as Higurashi and Umineko, comes a heart-pounding, full-throttle Harem Royale! Kohinata Asunaro is your regular everyday high school student. He likes light novels, porn games, and fantasizing about the girls in his class. One day when walking home from school he inexplicably releases a demon from a sealed bottle. Her name is Zepafur, and she won't rest until her debt is repaid! Now begins the Lovey Dovey Harem Royale! cries the demon, weaving a most curious magic. As a result, Asunaro's regular high school life transforms into a love-comedy series of harem shenanigans, with four girls from his school all vying for his affection, wow! But...

Unbeknownst to our dopey protagonist, the four girls are in the midst of a horrific survival game under threat of death and eternal torture. She who fails to capture Asunaro's heart will be confined to the depths of Hell and killed ad infinitum! Just who will survive? Who will thrive? And who will meet their demise?
