As the first comprehensive homage to the R and RS models, this is a must-have for all Porsche 911 lovers. At auctions they rack up premium prices, but the makers of the 911 R never intended to create objects of speculation for maximum profit. Their main concern was developing vehicles that would appeal to customers because of their uncompromising sportiness. The story begins 50 years ago, when the first Porsche 911 R achieved five new long-distance world records in Monza; and goes on to the latest 911 R - a car that is aware of its history, with racing stripes, houndstooth bucket seats, manual gear change, and a free-revving naturally aspirated engine. In between the first and the latest lie 50 years, numerous models, and a legion of fans.

Grand Prix Cars Denis Jenkinson,2015-10-02 " In compiling this brief history of Grand Prix racing, along with descriptions of the more successful cars, I have limited myself to the period since World War II as the present

day Grand Prix cars are mostly derived from the development and design of the early post war years. Although many ideas were taking shape in the period of the mid-thirties – such as the use of De Dion rear axle layouts, independent front suspension systems and hydraulic brakes – the main interest lay in engine design under a free ruling on capacity. It was not until about 1950 that a renaissance began in chassis design for Grand Prix cars and from then on a great deal of knowledge was gained; enough in fact, to enable roadholding to become a very exact science rather than a hit-and-miss affair. This development in the chassis and the search for improved road holding and higher cornering power was accentuated by the beginning of the era of unsupercharged racing, when power outputs were severely curtailed and speed had to be found by other means ...” (1959 - Denis Jenkinson)

Working with Margaret Thatcher and her Government, Egan and his team of managers overcame every obstacle, every set-back, every challenge. Again and again, it looked impossible. Yet using innovative techniques, intelligence, eloquence, openness, motor racing and much more, they saved this most charismatic company which has created some of the finest and most loved motor cars of all time. Monte Carlo Rally Graham Robson, 2007-11-15 Hundreds of entrants, in cars of all shapes and sizes, battled through mid-winter snow, fog, ice and darkness from far-flung starting points towards the magical principality of Monaco. Mishaps, breakdowns and smashes abounded, and competitors had tales to tell of cars teetering on the edge of precipices or rammed into snowbanks, frantically improvised repairs, close encounters and feats of crazy bravado. The first rally was run in 1911, with just 20 starters. In 1930 there were 100, in 1949 205, and in the peak year, 1953, there were no less than 404. In this book every Monte Carlo Rally held between 1911 and 1980 is covered individually, with results listings and route maps. As the years unfold we see the successes of Hotchkiss in the late 1940s, Sunbeam-Talbot in the early 1950s, Mini-Cooper in the 1960s, Porsche 911 in the late '60s, and the dominance of Alpine Renault and Lancia Stratos in the 1970s. The author also provides essential information on regulations, routes, on what competitors were required to do, on the tests held after arrival in Monaco, on classes of entries, and on the various Concours, including for instance the Concours de Confort, that were there to be won. Thus a complete picture of the aims and nature of the rally as it evolved is formed. Written by the world's leading

rally historian, and featuring more than 300 archive photographs, this book provides both the definitive history of the greatest motor rally of all time and an evocative view of a golden age of motoring history.
