The Structure and Function of Aquatic Microbial Communities Christon J. Hurst,2019-05-13 This book discusses how aquatic microbial communities develop interactive metabolic coordination both within and between species to optimize their energetics. It explains that microbial community structuration often includes functional stratification among a multitude of organisms that variously exist either suspended in the water, lodged in sediments, or bound to one another as biofilms on solid surfaces. The authors describe techniques that can be used for preparing and distributing microbiologically safe drinking water, which presents the challenge of successfully removing the pathogenic members of the aquatic microbial community and then safely delivering that water to consumers. Drinking water distribution systems have their own microbial ecology, which we must both understand and control in order to maintain the safety of the water supply. Since studying aquatic microorganisms often entails identifying them, the book also discusses techniques for successfully isolating and cultivating bacteria. As such, it appeals to microbiologists, microbial ecologists and water quality scientists.

Writing With An Accent Edvige Giunta,2002-01-10 Mary Cappello, Louise DeSalvo, Sandra M. Gilbert, Maria Mazziotti Gillan, Carole Maso, Agnes Rossi. These are some of the best-known Italian American writers today. They are part of a literary tradition with mid-twentieth century roots that began to develop, in earnest, in the late 1970s and early 1980s. During those decades, a number of

Italian American women, such as Helen Barolini, began to publish books that depicted their perspectives on life through the critical lenses of gender, class, and ethnicity. At the end of the twentieth century, this literature finally blossomed into a fully fledged cultural movement that also took into account issues of sexuality, age, illness, and familial and societal abuse. *Writing with an Accent* takes a look at this vibrant literary movement by discussing those first writers of the 1970s and 1980s as well as later authors. At the center of Edvige Giunta's *Writing with an Accent* is the literal notion of accent, the marker of linguistic and cultural difference that separates and identifies recent immigrants to the United States. In this study, an accent symbolically embodies the differences and creative strategies through which contemporary Italian American women writers engage Italian American culture in works of fiction, poetry, and memoir. Giunta also looks at the links between the literature and art, music, film, and video produced by contemporary Italian American women. The literature of the Italian American women in *Writing with an Accent* is shaped by the complicated connections these authors maintain with their cultural origins, but also, and perhaps more importantly, by their feminist consciousness and politicized sense of ethnic identity. *Writing with an Accent* celebrates and explores a group of authors who characteristically mix the joy and pain of Italian American life to paint a multifaceted picture of Italian American women and their complex place in U.S. culture.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen

years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Oceans Past Poul Holm, Michaela Barnard, David J. Starkey, 2012 ♦ [A] fascinating volume, which establishes marine environmental history as a major new discipline for academics as well as an exciting way to bring history and the natural world alive for the public. ♦ ANDREW A. ROSENBERG, UNIVERSITY OF NEW HAMPSHIRE ♦ The HMAP project is to be congratulated on this book, which presents vivid, evidence-based reconstructions of historical fisheries and the prolific ecosystems in which they were embedded. ♦ TONY J. PITCHER, UNIVERSITY OF BRITISH COLUMBIA ♦ The ingenuity and scholarship of the authors allow us to see ... how human societies have depended on and influenced marine living resources from periwinkles to whales. ♦ MIKE SINCLAIR, BEDFORD INSTITUTE OF OCEANOGRAPHY ♦ This book exalts the surprisingly fruitful marriage of historians and marine

scientists - a union that has proven to be one of the most exciting developments in ocean research in recent years. ♦ KATHERINE RICHARDSON, UNIVERSITY OF COPENHAGEN For centuries the seas appeared to offer limitless supplies of food and other resources, their waters a cornucopia never to be exhausted. In more recent times, episodes such as the extreme exploitation and subsequent collapse of cod populations of the Grand Banks off Newfoundland have highlighted the fallaciousness of this view. Yet all too often the lessons from our historical interactions with marine animals are little known, let alone learned. Based on research for the History of Marine Animal Populations project, *Oceans Past* examines the complex relationship our forebears had with the sea and the animals that inhabit it. It presents eleven studies ranging from fisheries and invasive species to offshore technology and the study of marine environmental history, bringing together the perspectives of historians and marine scientists to enhance understanding of ocean management of the past, present and future. In doing so, it also highlights the influence that changes in marine ecosystems have upon the politics, welfare and culture of human societies.
