The Prop Builder's Molding & Casting Handbook

Thurston James,1989-11-15 The Prop Builder's Molding & Casting Handbook & break;& break;This is the first book to contain, in one comprehensive volume, every molding and casting procedure of use to the theater props builder (no matter what his or her level or proficiency). The author demonstrates the techniques involved in using more than thirty different materials ranging from papier-mache to breakaway glass. & break;& break;While the use of some materials-plaster and polyester resins, for example-is covered to some extent in other publications, information on the selection and use of rubber materials (latex, neoprene, silicone, and the urethanes) and the procedure for making breakaway windows and bottles is available only in The Prop Builder's Molding & Casting Handbook. & break;& break;Written in an easy, conversational style, the book will be useful to anyone involved with theater properties, puppetry, and costuming (as professionals or amateurs). It will also serve admirably the needs of students taking classes in those subjects.

& break;& break;Completing the book is a special section on

designing and building a vacuum forming machine suitable for use in constructing theater props. More than 450 photographs illustrate the step-by-step procedures explained throughout the entire text.

Servants of the Imperium Various,2019-08-20 Great value Warhammer 40,000 anthology from Black Library. The Imperium of Man has stood inviolate for 10,000 years. Its uncountable worlds are home to a vast array of servants who stand as the only bulwark against the encroaching darkness. From each of them it demands a high price: total servitude to the God-Emperor. Their hands forced by the opening of the Great Rift, these servants move to intercept the enemy and prevent loyal worlds falling. Shield Captain Cartovandis of the Adeptus Custodes must travel across the galaxy to uncover the truth behind a mysterious distress call from the world of Vorganthian. The righteous warriors of Sister Superior Augusta wield their holy wrath as a sword, cleaving the stain of the heretic and the mutant from the planet Lautis. Meanwhile, the dogged soldiers of the Astra Militarum must face creatures of nightmare made real with little but their inner mettle to protect them on the world of Regallus. If any of these worlds should fall, the harrowing consequences will echo across the Imperium. In this collection are the novellas *Auric Gods*, *The Bloodied Rose* and *Steel Daemon*, by Nick Kyme, Danie Ware and Ian St. Martin.

All this and Sailing, Too Olin Stephens,1999 Olin Stephens is the most successful racing-yacht designer of the 20th century, a legend in his own time almost from the day in 1931 when he and his brother Rod and father Roderick, Sr. finished a transatlantic race to England in the revolutionary 52' yawl Dorade a full two days ahead of the competition. His autobiography begins with youthful family sailing, moves on to Six-Metre designs and victories, to J-Boat experience in the 1930s, to war work in the 1940s, to American Cup design and sailing from 1958 to 1983, and to a fleet of great cruising and racing yachts in between. This personal history of Olin and his brother, Rod, of the renowned design firm of Sparkman and Stephens, and of international yachting in this century, is informed, introspective, eloquent.
