David Bullock,Alexander Deryabin

Lorgar Gav Thorpe,2017-10-10 The fifth title in The Horus Heresy: Primarchs series, delving into the story of Lorgar, primarch of the Word Bearers Legion and the first of the Emperor's sons to fall to Chaos. Most devoted of all the primarchs, it was Lorgar who first fell to the lure of Chaos. Once known as Aurelian, this golden son of the Emperor of Mankind found himself an outcast because he worshipped his father as a god. Humbled before the ruins of Monarchia, chastened and brought low, Lorgar yearned for deeper meaning. He found it in the power of Ruin and thus began the descent into heresy. His fate had not always been so. On Colchis, his adopted birth world, Lorgar was not always the zealot, though his path would be nurtured by one: the priest Kor Phaeron.

**Armored Trains** Steven J. Zaloga,2011-07-20 First seen during the American Civil War and later appearing in the Franco-Prussian War and the Anglo-Boer Wars, the armored train came to prominence on the Eastern Front during World War I. It was also deployed during the Russian Civil War and the technology traveled east into the Chinese Civil War, and the subsequent war with Japan. It saw service on the Russian Front in World War II, but was increasingly sidelined because of its vulnerability to air attack. Steven J Zaloga examines the origins and development of the armored train, focusing equally on the technical detail and on the fascinating story of how armored trains were actually used in combat. This title will appeal to armor, military history and railroad enthusiasts alike.

*Perturabo* Guy Haley,2017-07-11 Perturabo, primarch of the Iron Warriors, is forced to crush his own home world rather than see it fall to rebellion. Born to a life of political conflict, Perturabo was always considered a child prodigy among the people of Olympia – indeed, his philosophical and scientific works were beyond compare. But then, after his rediscovery by the Emperor and decades of thankless military campaigning on the Great Crusade, the primarch begins to resent his Legion's place in the Imperium. When word reaches him of turmoil on his adoptive home world, he orders the Iron Warriors to abandon their campaign against the alien hrud and crush this emerging rebellion by any means necessary...

**Armored Units of the Russian Civil War** David Bullock,2013-02-20 By 1920 the Red Army of Russia fielded an overwhelming array of armored cars, armored trains and tank detachments. These armored units played an important part in consolidating the newly won Bolshevik empire in the early 1920s; as a consequence of the fact that railways were the strategic arteries that essentially controlled Russia, armored trains have never played such a significant role in military history as they did in the Russian Civil War. This title details the management, construction, repair, personnel, training and combat of the Red Army's armored units on all fronts, including such famous vehicles as Trotsky's armored train.

Armored Units of the Russian Civil War David Bullock,Alexander Deryabin,2003-12-17 One of the most important conflicts of the 20th century, the Russian Civil War was the struggle that led to the formation of the Soviet Union. Following the overthrow of the Russian Provisional Government on 7 November 1917, the All-Russian Congress of Soviets met and handed over power to the Soviet Council of People's Commissars. Immediately forces began to assemble in opposition to the Bolshevik regime, and these became known as the Whites. This title examines the armour that they had at their disposal throughout the course of the war. It was a varied collection including British and French vehicles and, perhaps most famously, the armoured trains that enabled the Whites to dominate much of Siberia.

M8 Greyhound Light Armored Car 1941–91 Steven J. Zaloga,2012-09-20 The M8 light armored car was the only significant wheeled combat vehicle used by the US Army in World War II. In conjunction

with the lightly armed utility version, the M20, it was the staple of the army's cavalry squadrons for use in reconnaissance and scouting. First entering combat in Italy in 1943, it was widely used throughout the campaign in northwest Europe, though its off-road performance was found to be wanting. This title describes the design and development of the M8, covering the many variants that were produced during World War II and afterwards, along with a comprehensive survey of its operational use.

**Ferrus Manus** David Guymer, 2018-04-03 Ferrus Manus, primarch of the Iron Hands, employs his brutal methods of war to bring a world to heel in the Emperor's name. The Great Crusade has swept across half the galaxy, a million human worlds now embracing the truth and reason that comes with allegiance to the rule of Terra. But even such unparalleled success comes at a cost. Rumours abound that the Emperor plans to step back from the Crusade and raise one of his primarch sons to lead in his stead. Faced with the bitterly non-compliant human empire of Gardinaal and a leaderless host of Ultramarines, Thousand Sons and Emperor's Children at his Legion's command, the Iron Hands primarch Ferrus Manus decides to make an example that even the Emperor cannot ignore.

**Fulgrim** Josh Reynolds, 2018-01-09 The sixth title in The Horus Heresy: Primarchs series, focusing on Fulgrim, primarch of the Emperor's Children Legion. Lord of Chemos and bearer of the Palatine Aquila, Fulgrim, primarch of the Emperor's Children, is determined to take his rightful place in the Great Crusade, whatever the cost. A swordsman without equal, the Phoenician has long studied the art of war and grows impatient to put his skills, and those of his loyal followers, to a true test. Now, accompanied by only seven of his finest warriors, he seeks to bring a rebellious world into compliance, by any means necessary. But Fulgrim soon learns that no victory comes without cost, and the greater the triumph, the greater the price one must pay...

**Magnus the Red** Graham McNeill, 2017-04-18 The third novel in The Horus Heresy: Primarchs series, a brand new sequence of novels focused on the superhuman sons of the Emperor. Lord of the mystical and uncanny, Magnus the Red has long studied the ancient crafts of sorcery. A psyker without peer, save only for the Emperor himself, he commands his loyal followers of the Thousand Sons Legion in the Great Crusade, always vigilant for any lost knowledge they might recover from the remains of dead human civilisations. Now, fighting alongside his brother Perturabo of the Iron Warriors, Magnus begins to foresee an approaching nexus of fate. Will he remain true to their mutual aims, or divert his own efforts towards furthering his own mastery of the warp?

**Annihilation Plan** John Andrew Karr, 2022-01-24 Mars, in the throes of resurrection. If you happened to have an illegal telescope, or proxied your galaxynet address well enough to pirate your way to satellite images of Mars, you might glimpse a damaged but operational Mars Orbiter 1, alive with 'rebels.' You could see clusters of superheated propellant burning beyond Earth space, as the EFF (Earth First Faction) sends armed planetary shuttles on an attack route to relieve the rebels of their existence. If so, you'd be witnessing Mars Wars.

**German Armoured Cars and Reconnaissance Half-Tracks 1939–45** Bryan Perrett, 1999-09-01 Flexibility, mobility, and the ability to effectively communicate were all key requirements that the units operating armoured cars and reconnaissance half-tracks demanded – and that were also crucial to the Panzerwaffe and German Army as a whole. Bryan Perrett's treatment of the development and history of German armoured cars and recce vehicles fully accounts for the crucial role that such units, and more importantly their

vehicles, played during the course of World War II. Full orders of battle are also given, along with technical details and specifications of the vehicles assigned to particular units.
