The Infinite and The Divine Robert Rath, 2021-07-20 Explore a story told across the millennia that delves deep into a pair of fascinating necron characters, their relationship and their plans for the galaxy. Before the being called the Emperor revealed Himself, before the rise of the aeldari, before the necrontyr traded their flesh for immortal metal, the world was born in violence. Even when they inhabited bodies of flesh, Trazyn the Infinite and Orikan the Diviner were polar opposites. Trazyn, a collector of historical oddities, presides over a gallery full of the most dangerous artefacts – and people – of the galactic past. Orikan, a chronomancer without peer, draws zodiacs that predict and manipulate the future. But when an artefact emerges that may hold the key to the necrons' next evolution, these two obsessives enter a multi-millennia game of cat and mouse that ends civilisations, reshapes timelines, and changes both forever. As riddles unwind and ancient secrets are revealed, the

question remains: will their feud save the necron race or destroy it?

Necropolis Dan Abnett, 2015-08-04 Book three in Black Library's longest running Sci-fi series returns For a thousand years, the Sabbat Worlds have been lost to the Imperium, claimed by the dread powers of Chaos. Now, a mighty crusade seeks to return the sector to Imperial rule. And at the forefront of that crusade are Colonel-Commissar Ibram Gaunt and the Tanith First and Only – better known as Gaunt's Ghosts. On the world of Verghast, a grinding war between two hive cities – one loyal to the Imperium, the other fallen to the worship of the Dark Gods – is bolstered by the forces of the Imperial Guard. But bitter rivalries and treachery threaten to derail the defence of Vervunhive, and it falls to Gaunt to take command of the Imperial forces and forge victory from an almost certain defeat. This edition includes the epilogue short story 'In Remembrance', in which Gaunt's Ghosts are accompanied into battle by an artist commissioned to create a sculpture in commemoration of a great victory by the Tanith First.

Lords of Mars Graham McNeill, Henry Zou, 2014-06 Pursued by vengeful eldar, Magos Kotov's Explorator armada heads into a newly revealed area of space in pursuit of ancient secrets. As the Adeptus Mechanicus forces and Black Templars Space Marines tackle the twin threats of the wrathful aliens and insurrection aboard the fleet, a greater danger reveals itself.

As vessels in their thousands burn through the cold void, the attention of Fleetmistress VanLeskus turns to the Machorta Sound – a region under attack by a dreaded Slaughter Host of the Dark
