The Infinite and The Divine Robert Rath, 2021-07-20 Explore a story told across the millennia that delves deep into a pair of fascinating necron characters, their relationship and their plans for the galaxy. Before the being called the Emperor revealed Himself, before the rise of the aeldari, before the necrontryr traded their flesh for immortal metal, the world was born in violence. Even when they inhabited bodies of flesh, Trazyn the Infinite and Orikan the Diviner were polar opposites. Trazyn, a collector of historical oddities, presides over a gallery full of the most dangerous artefacts – and people – of the galactic past. Orikan, a chronomancer without peer, draws zodiacs that predict and manipulate the future. But when an artefact emerges that may hold the key to the necrons' next evolution, these two obsessives enter a multi-millennia game of cat and mouse that ends civilisations, reshapes timelines, and changes both forever. As riddles unwind and ancient secrets are revealed, the question remains: will their feud save the necron race or destroy it?

The Wargaming Compendium Henry Hyde, 2013-08-19 An extensive reference guide to the exciting hobby, for beginners as well as longtime players. Wargaming is a fascinating, engrossing, and exciting pastime that encompasses a wide range of different talents. The average wargamer uses the skills of artist, designer, sculptor, illustrator, historian, librarian, researcher, mathematician, and creative writer, as well as the more obvious ones of general, admiral, or air marshal for large games, or perhaps lieutenant, commodore, or squadron leader for skirmishes. Aside from calling upon many skills, wargaming also covers many aspects of combat, spanning the history of Earth. With science fiction gaming, we plunge into imagined worlds many thousands of years into the future, and a fantasy gamer, of course, deals with eons of imagined history, as anyone who has read The Lord of the Rings will know. A wargamer may find themselves recreating an encounter between a handful of adversaries one day, or a massed battle involving perhaps hundreds of miniature troops the next. Moreover, it is possible to play wargames that recreate warfare on land, on sea, in the air, or even in outer space. This book demonstrates the wonderfully varied hobby of wargaming with miniatures, looking at the broad scope of what it has to offer as well as detailed explanations of how to get involved, including comprehensive rules for gladiator combat, Wild West skirmishes, and the horse and musket era, as well as lots of advice for anyone new to wargaming. Whether you're a complete newcomer to the hobby, or a veteran of many years, you'll find plenty in The Wargaming Compendium to entertain and inspire you.
