The Only Astrology Book You'll Ever Need Joanna Martine Woolfold, 2008-06-11 OVER HALF A MILLION COPIES SOLD! This is the classic guide to astrological history, legend, and practice! Readers will enjoy simple, computer-accurate planetary tables that allow anyone born between 1900 and 2100 to pinpoint quickly their sun and moon signs, discover their ascendants, and map out the exact positions of the planets at the time of their birth. In addition to revealing the planets' influence on romance, health, and career, *The Only Astrology Book You'll Ever Need* takes a closer look at the inner life of each sign. Celebrated astrologer Joanna Martine Woolfolk offers abundant insights on the personal relationships and emotional needs that motivate an individual, on how others perceive astrological types, and on dealing with the negative aspects of signs. Readers will also welcome the inclusion of new discoveries in astronomy. Lavishly illustrated and with an updated design, this new edition is an indispensable sourcebook for unlocking the mysteries of the cosmos through the twenty-first century and beyond.

Les Guerillères Monique Wittig, 2007-08-27 One of the most widely read feminist texts of the twentieth century, and Monique Wittig's most popular novel, *Les Guérillères* imagines the attack on the language and bodies of men by a tribe of warrior women. Among the women's most powerful weapons in their assault is laughter, but they also threaten literary and linguistic customs of the patriarchal order with bullets. In this breathtakingly rapid novel first published in 1969, Wittig animates a lesbian society that invites all women to join their fight, their circle, and their community. A path-breaking novel about creating and sustaining freedom, the book derives much of its energy from its vaunting of the female body as a resource for literary invention.

Hal Wallis Bernard F. Dick, 2015-01-13 Hal Wallis might not be as well known as David O. Selznick or Samuel Goldwyn, but the films he produced -- *Casablanca*, *Jezebel*, *Now Voyager*, *The Life of Emile Zola*, *Becket*, *True Grit*, and many other classics (as well as scores of Elvis movies) -- have certainly endured. As producer of numerous films, Wallis made an indelible mark on the course

of America's film industry, but his contributions are often overlooked and no full-length study has yet assessed his incredible career. A former office boy and salesman, Wallis first engaged with the business of film as the manager of a Los Angeles movie theater in 1922. He attracted the notice of the Warner brothers, who hired him as a publicity assistant. Within three months he was director of the department, and appointments to studio manager and production executive quickly followed. Wallis went on to oversee dozens of productions and formed his own production company in 1944. Bernard F. Dick draws on numerous sources such as Wallis's personal production files and exclusive interviews with many of his contemporaries to finally tell the full story of his illustrious career. Dick combines his knowledge of behind-the-scenes Hollywood with fascinating anecdotes to create a portrait of one of Hollywood's early power players.

The Concept of Water Rupert D. V. Glasgow, 2009 Water is commonly taken for granted and treated with contempt, yet it is the very foundation of human existence. Assuming countless forms, it is deeply associated both with life and death, body and soul, purity and pollution, creation and destruction. *The Concept of Water* seeks to bring together the various aspects of our deeply ambiguous relationship with water, providing a systematic account of its symbolic and philosophical significance. This involves looking at how water has been conceived and the role it has played in everyday thought, mythology, literature, religion, philosophy, politics and science, both across cultures and through history. R. D. V. Glasgow was born in Sheffield and currently lives in Zaragoza. His previous books are *Madness, Masks and Laughter* (1995), *Split Down the Sides* (1997), and *The Comedy of Mind* (1999).

Climate Adaptation and Resilience Across Scales Nicholas B. Rajkovich, Seth H. Holmes, 2021-11-15 *Climate Adaptation and Resilience Across Scales* provides professionals with guidance on adapting the built environment to a changing climate. This edited volume brings together practitioners and researchers to discuss climate-related resilience from the building to the city scale. This book highlights North American cases that deal with issues such as climate projections, public health, adaptive capacity of vulnerable populations, and design interventions for floodplains, making the content applicable to many locations around the world. The contributors in this book discuss topics

ranging from how built environment professionals respond to a changing climate, to how the building stock may need to adapt to climate change, to how resilience is currently being addressed in the design, construction, and operations communities. The purpose of this book is to provide a better understanding of climate change impacts, vulnerability, and resilience across scales of the built environment. Architects, urban designers, planners, landscape architects, and engineers will find this a useful resource for adapting buildings and cities to a changing climate.

How To Stop Worrying And Start Living (Self-Improvement Series) Dale Carnegie,2024-01-14 This carefully crafted ebook: *How To Stop Worrying And Start Living (Self-Improvement Series)* is formatted for your eReader with a functional and detailed table of contents. The goal of *How To Stop Worrying And Start Living* is to lead the reader to a more enjoyable and fulfilling life, helping them to become more aware of, not only themselves, but others around them. A Grammar of Maonan Tian Qiao Lu,2008 Maonan is a Kam-Tai (Tai-Kadai) language spoken by 75,000 people in the border area of Guangxi and Guizhou provinces of China. This grammar book is the first volume to account for the phonology, word-formation, syntax, grammaticalization and lexicalization patterns of Maonan from a typological and ethno-linguistic perspective. It renders a comprehensive description of Maonan with analysis of the neutralization of semantic macroroles and the dialectic interrelations between subject and topic. Particular attention is paid to the interplay between syntactic and semantic valencies. The detailed analysis of the Maonan aspects is also unprecedented. It examines Maonan tone sandhi from a totally new approach. The book also gives a full description of the clause final particles of Maonan.

Man's War Against Nature Rachel Carson,2021-08-26 In twenty short books, Penguin brings you the classics of the environmental movement. With the precision of a scientist and the simplicity of a fable, Rachel Carson reveals how man-made pesticides have destroyed wildlife, creating a world of polluted streams and silent songbirds. Over the past 75 years, a new canon has emerged. As life on Earth has become irrevocably altered by humans, visionary thinkers around the world have raised their voices to defend the planet, and affirm our place at the heart of its restoration. Their words have endured through the decades, becoming the classics of a movement. Together, these books show the richness of environmental thought, and point the way to a fairer, saner, greener world.
