Energiya-Buran Bart Hendrickx,Bert Vis,2007-12-05 This absorbing book describes the long development of the Soviet space shuttle system, its infrastructure and the space agency's plans to follow up the first historic unmanned mission. The book includes comparisons with the American shuttle system and offers accounts of the Soviet test pilots chosen for training to fly the system, and the operational, political and engineering problems that finally sealed the fate of Buran and ultimately of NASA's Shuttle fleet.

End Run Christopher Stasheff,William R. Forstchen,1993-12 When the cat-like Kilrathi begin to gain on their human foes as they attempt to expand their imperial power, it is up to Wing Commander to defeat them. Original.

Introductory Grammar of Amharic Wolf Leslau,2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the

author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Not stopping there, this sweeping survey includes an overview of the most popular items from the rest of the ever-expanding Star Wars collectibles universe. Passion Play (TCG Edition) Sarah Ruhl,2010-09-21 Named one of the Ten Best Plays of 2008 by The New Yorker “Sarah Ruhl’s bold, inventive, and ironic triptych [is] a meditation on devotion and its appropriation by the state. . . . Ruhl is an original; a storyteller with a fine mind evolving her own theatrical idiom.”—John Lahr, The New Yorker “It’s a different kind of morality play . . . an often wondrous work . . . with [Ruhl’s] own special lyrical blend of poetry, humor and grace.”—Frank Rizzo, Variety Passion Play is Sarah Ruhl’s “biggest, most ambitious effort yet” (The New York Times), a three-and-a-half

hour intimate epic, plunging the depths of the timely intersection of politics and religion. Ruhl dramatizes a community of players rehearsing their annual staging of the Easter Passion in three different eras: 1575 northern England, just before Queen Elizabeth outlaws the ritual; 1934 Oberammergau, Bavaria, as Hitler is rising to power; and Spearfish, South Dakota, from the time of Vietnam through Reagan's presidency. In each period, the players grapple in different ways with the transformative nature of art, and politics are never far in the background, as Queen Elizabeth, Hitler, and Reagan each appear, played by a single commanding actor. Sarah Ruhl's plays include *Dead Man's Cell Phone*, *Eurydice*, and *The Clean House*, which was nominated for the Pulitzer Prize. Her work has been widely produced both throughout the country and internationally, and she is the recipient of the MacArthur "Genius" Fellowship.

From Cave Man to Cave Martian Manfred "Dutch" von Ehrenfried,2019-04-05 This book explores the practicality of using the existing subsurface geology on the Moon and Mars for protection against radiation, thermal extremes, micrometeorites and dust storms rather than building surface habitats at great expense at least for those first few missions. It encourages NASA to plan a precursor mission using this concept and employ a "Short Stay" Opposition Class mission to Mars as the first mission rather than the "Long Stay" concept requiring a mission that is too long, too dangerous and too costly for man's first missions to Mars. Included in these pages is a short history on the uses of caves by early humans over great periods of time. It then describes the ongoing efforts to research caves,

pits, tunnels, lava tubes, skylights and the associated technologies that pertain to potential lunar and Mars exploration and habitation. It describes evidence for existing caves and lava tubes on both the Moon and Mars. The work of noted scientists, technologists and roboticists are referenced and described. This ongoing work is more extensive than one would think and is directly applicable to longer term habitation and exploration of the Moon and Mars. Emphasis is also given to the operational aspects of working and living in lunar and Martian caves and lava tubes.

86--EIGHTY-SIX, Vol. 6 (light Novel) Asato Asato, 2020-11-03 Live to fight. Die with honor. That was all they knew, and they were proud. But as they saw themselves reflected in the Sirins-slaughtered by the thousands with nothing to show for it—a crack formed in their ironclad resolve. Shin's mind festered with doubt. Lena's heart tore at the seams as she struggled to understand him. Would they find common ground over the course of the United Kingdom operation? Or would they drift further apart...?

Code Monkey Save World Greg Pak, Jonathan Coulton, 2014-02-15 A put-upon coding monkey teams up with a seething, lovelorn super-villain to fight robots, office worker zombies, and maybe even each other as they struggle to impress the amazing women for whom they fruitlessly long.
