Refugee Alan Gratz, 2017-07-25 The award-winning, #1 New York Times bestselling novel from Alan Gratz tells the timely--and timeless--story of three different kids seeking refuge. A New York Times bestseller! JOSEF is a Jewish boy living in 1930s Nazi Germany. With the threat of concentration camps looming, he and his family board a ship bound for the other side of the world... ISABEL is a Cuban girl in 1994. With his homeland torn apart by violence and destruction, he and his family begin a long trek toward Europe... All three kids go on harrowing journeys in search of refuge. All will face unimaginable dangers -- from drownings to bombings to betrayals. But there is always the hope of tomorrow. And although Josef, Isabel, and Mahmoud are separated by continents and decades, shocking connections will tie their stories together in the end. PT 105 James K. Keresey, 2013-08-15 Admittedly small and vulnerable, PT boats were, nevertheless, fast—the fastest craft on the water during World War II—and Dick Keresey's account of these tough little fighters throws new light on their contributions to the war effort. As captain of PT

105, the author was in the same battle as John F. Kennedy when Kennedy's PT 109 was rammed and sunk. The famous incident, Keresey says, has often been described inaccurately and the PT boat depicted as unreliable and ineffective. This book helps set the record straight by presenting an authentic picture of PT boats that draws on the author's experience at Guadalcanal, New Georgia, Bougainville, and Choiseul Island. Action-filled, his account describes evading night bombers, rescuing coast watchers and downed airmen, setting down Marine scouts behind Japanese lines, engaging in vicious gun battles with Japanese barges and small freighters, and contending with heat, disease, and loneliness. First published in 1996, the book has been hailed for telling an exciting yet fully accurate story.

Drawing Futures Bob Sheil, Frédéric Migayrou, Luke Pearson, Laura Allen, 2016-11-11 Drawing Futures brings together international designers and artists for speculations in contemporary drawing for art and architecture. Despite numerous developments in technological manufacture and computational design that provide new grounds for designers, the act of drawing still plays a central role as a vehicle for speculation. There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world. In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world, the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation. Drawing Futures will present a compendium of projects, writings and interviews that critically reassess the act of drawing and where its future may lie. Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments. The book coincides with an international conference of the same name, taking place at The Bartlett School of Architecture, UCL, in November

2016. Bringing together practitioners from many creative fields, the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas.

Risotto in a Roman trattoria? Don't even consider it. Visit Venice and not eat cichetti? Unthinkable. *Eating My Way Through Italy*, celebrates the differences in the world's favorite cuisine--Provided by publisher.

The Uninhabitable Earth David Wallace-Wells, 2019-02-19 #1 NEW YORK TIMES BESTSELLER • “The Uninhabitable Earth hits you like a comet, with an overflow of insanely lyrical prose about our pending Armageddon.”—Andrew Solomon, author of *The Noonday Demon* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New Yorker • The New York Times Book Review • Time • NPR • The Economist • The Paris Review • Toronto Star • GQ • The Times Literary Supplement • The New York Public Library • Kirkus Reviews It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible—food shortages, refugee emergencies, climate wars and economic devastation. An “epoch-defining book” (The Guardian) and “this generation’s *Silent Spring*” (The Washington Post), *The Uninhabitable Earth* is both a travelogue of the near future and a meditation on how that future will look to those living through it—the ways that warming promises to transform global politics, the meaning of technology and nature in the modern world, the sustainability of capitalism and the

trajectory of human progress. The Uninhabitable Earth is also an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation—today's. **LOGLISTED FOR THE PEN/E.O. WILSON LITERARY SCIENCE WRITING AWARD** "The Uninhabitable Earth is the most terrifying book I have ever read. Its subject is climate change, and its method is scientific, but its mode is Old Testament. The book is a meticulously documented, white-knuckled tour through the cascading catastrophes that will soon engulf our warming planet."—Farhad Manjoo, The New York Times "Riveting. . . . Some readers will find Mr. Wallace-Wells's outline of possible futures alarmist. He is indeed alarmed. You should be, too."—The Economist "Potent and evocative. . . . Wallace-Wells has resolved to offer something other than the standard narrative of climate change. . . . He avoids the 'eerily banal language of climatology' in favor of lush, rolling prose."—Jennifer Szalai, The New York Times "The book has potential to be this generation's Silent Spring."—The Washington Post "The Uninhabitable Earth, which has become a best seller, taps into the underlying emotion of the day: fear. . . . I encourage people to read this book."—Alan Weisman, The New York Review of Books

King of the Mississippi Mike Freedman, 2019-07-09 A biting, hilarious literary satire of war, business, and contemporary masculinity, set in the cutthroat-but-ridiculous world of management consulting *King of the Mississippi* is an incisive, uproarious dissection of contemporary male vanity and delusion, centered around a war for dominance of a prestigious Houston consulting firm. On one side of the conflict is Brock Wharton, an old money ex-jock whose delight in telling clients to downsize is matched only by his firm conviction that people like himself deserve to run the world. On the other is Mike Fink, a newly hired wily former soldier trying to ride his veteran status to the top of a corporate world that lionizes the troops without truly understanding them. Brock and Mike are mortal

enemies on sight, bitterly divided not only by background and class but by diametrically opposed (yet equally delusional) visions of what it means to be a man. And as their escalating conflict spirals out of control, it will take them all the way from the hidebound boardrooms and gladiatorial football fields of Texas to the vapid and self-serving upper echelon of Silicon Valley, to the corporatized battlefield of Iraq, all the while serving as a ruthlessly funny takedown of the vacuity and empty machismo of corporate life and alpha-male culture in modern America. Devastatingly witty, unapologetically scathing, and ultimately surprisingly moving, *King of the Mississippi* marks the arrival of a unique and scintillating new voice in American fiction, one that boldly punctures the myths of American manhood like no one has since the heyday of *The Bonfire of the Vanities* and *American Psycho*.

Combat at Close Quarters Edward J. Marolda, R. Blake Dunnivant, Naval History & Heritage Command (U S), Navy Dept (U S), 2015 This work describes riverine combat during the Vietnam War, emphasizing the operations of the U.S. Navy's River Patrol Force, which conducted Operation Game Warden; the U.S. Army-Navy Mobile Riverine Force, the formation that General William Westmoreland said "saved the Mekong Delta" during the Tet Offensive of 1968; and the Vietnam Navy. An important section details the SEALORDS combined campaign, a determined effort by U.S. Navy, South Vietnamese Navy, and allied ground forces to cut enemy supply lines from Cambodia and disrupt operations at base areas deep in the delta. The author also covers details on the combat vessels, helicopters, weapons, and equipment employed in the Mekong Delta as well as the Vietnamese combatants (on both sides) and American troops who fought to secure Vietnam's waterways. Special features focus on the ubiquitous river patrol boats (PBRs) and the Swift boats (PCFs), river warfare training, Vice Admiral Elmo R. Zumwalt Jr., the Black Ponies aircraft squadron, and Navy SEALs. This publication may be of interest to history scholars, veterans, students in advanced placement history classes, and military enthusiasts given the continuing impact of riverine warfare on U.S. naval and military operations in the 21st century. Notes on Chesapeake Bay Skipjacks Howard Irving Chapelle, 1998-03-01

Model Boat Building Steve Rogers, Patricia Staby-Rogers, 1996 Steve Rogers loves working boats, and the skipjacks is one of the best. Following the acclaim of his previous three books on model boat building, Steve offers a guide for building a skipjack. This is, perhaps, the most ambitious of the projects presented to date, and he leads the craftsperson step-by-step through the process. The

result is a beautiful boat in full sail. The model is in 1/2 scale, based on a skipjack that is 45 feet on deck with a 15 foot beam. Drawings, patterns, jigs, and accessories are all detailed for the aid and instruction of the reader. Everything is illustrated in clear color photographs with concise captions which describe the action.
