**EA-6B Prowler Model** Glenn Hoover, 2021-04-13 This book contains detailed instructions on building the Grumman EA-6B Prowler 1/48 scale model aircraft from Kinetic (Kit K48044). These instructions can also be used for kit K48022. In addition to the kit's instructions, there are several aftermarket kits. AM 48114 Wolfpack Radar & Avionics Resin kit, AM 48672 eduard Exterior photo etch, AM 48680 eduard Wing Fold photo etch, AM 48681 eduard Undercarriage photo etch, AM 48684 eduard Electronics Equipment Cage photo etch, AM 49519 eduard Interior photo etch, AM 49520 eduard Seatbelts photo etch. Can you imagine merging all of these instructions? Well, I've done that for you and more. I take the model kit instructions from Kinetic along with the eduard and Wolfpack AM sets and break them up into individual steps. The aftermarket steps are colored gray making them easy to skip if you just have the basic model. This book provides a little history of the EA-6B Prowler, a detailed list of tools that I used to build this model, along with a list of paints. The actual instruction section contains 1,178 steps and 163 plus figures over 226 pages that tell you what to dry fit, glue, and/or paint for each individual piece. Each step instruction shows the source (i.e., either Kinetic or AM) along with a block to mark that you completed the step. I provide an index of the individual sprue parts that show where in the book the part is mentioned. This index was a great way to make sure that no pieces were overlooked. Finally, there are several pages of in-process photos with assembly tips and the final photos of my build for reference. This book is a great checklist to make your build go smoothly. Of course, you can feel free to use different tools, paint, weathering, etc. or even add

your own diorama. I hope you find this book useful. See a 25-page sample along with photos of finished models and other books at glennhooovermodels.com.
