Color Train David W. Miles, 2019-03 All aboard the Color Train! This adorable two-in-one board book featuring 18 world famous artists unfolds into a 56 train bursting with color and art.

Dragon Rampant Daniel Mersey, 2015-12-20 Whether you're a nameless Dark Lord looking to conquer the known world, a Champion of Light holding out against the forces of evil or a Northern barbarian facing claimants to a stolen throne, Dragon Rampant allows you to bring those battles to the tabletop. Developed from the popular Lion Rampant system, Dragon Rampant is a standalone wargame that recreates the great battles of Fantasy fiction. Scenarios, army lists, and full rules for magic and monsters give players the opportunity to command unruly orc warbands, raise armies of the undead, campaign across an antediluvian world as the warchief of a barbarian tribe, or exploit the power of mighty creatures and extraordinary sorcery. An army usually consists of 6–8 units comprised of 6–12 individually based figures. These small units move and fight independently, assuming that they follow your orders rather than

just doing their own thing. Command and control is just as important on the battlefield as the power of a troll chieftain or the magic of an archmage.

Gifted by chance and science with a unique endurance for the world of the Ruin he wanders the apocalyptic landscape stalking the monstrous kaiju, ZARIUS. Ronald Hicks strives to make his mark on the world in a way he never could before the Kaiju came. The monsters which crawled out of myth and legend have blighted the land with their poisonous blood and its mutagenic properties. Now the last vestiges of humanity huddle together and desperately cling to what remains of their ruined world. Can a legacy in the making outrun death? Can two orphaned siblings survive? Can a man ever

Dreamspy Jacqueline Lichtenberg, 2013-02-13 In THOSE OF MY BLOOD, humans exploring a galactic spacecraft that had crashed on Earth's moon awakened an alien, a luren, who desperately tried to prevent the contamination of human culture with galactic technology--by lying to Earth's vampires. DREAMSPY reveals the truth behind those lies, presenting the story of Elias, a musician kidnapped from Earth into a tangle of galactic espionage, amidst a galactic war over the destruction of the fabric of space. When Kyllikki, a powerful telepath, rescues Elias from his captors amidst a space battle, they must run for their lives across enemy territory aided by Zuchmul, a distant relative of the luren who'd died on the Earth's moon. Can Elias admit his love for a woman who could enslave his soul--even if the fate of Earth depends on it? Another marvelous tale of intrigue, romance, and magic set in the Earth's future!

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

My Big Little Man Christine Brooks,2020-06-04 Children are inherited from God and we should train up a child in the way that he or she should go and when they are old, they will not depart from it. Parragon, 2015-06-03

Botero Fernando Botero, 2003 One of the most popular artists alive today, Fernando Botero creates paintings with a powerful monumentality that immediately captures the viewer. The joyfully rotund humans who populate his canvasses are among the most recognizable figures in twentieth-century art. But it is women in particular who have always fascinated Botero and make up the core of his long career. This deluxe volume, the first devoted solely to this theme, includes 50 unpublished works and a total of more than 150 paintings, drawings and sketches. With their bulbous figures and solid flesh, Botero's women evoke a primal sensuality and voluptuousness. But, they are also betrayed with a playful sense of humor and underlying irony. Never voyeuristic, his paintings are more complex celebrations of the female form - its palpable plentitude, its sensual exuberance, and its impenetrable mystery. -- back cover.
