Once allies, Optimus and Megatron are now enemies in a civil war. To prevent Cybertron from falling into Megatron's hands, Optimus jettisons the planet's heart, the AllSpark, into space, then sets out to find it with Megatron hot on his heels. Optimus is determined to defeat Megatron, bring the AllSpark home, and restore Cybertron to its former glory. But a saboteur lurks aboard Optimus's spaceship, and ahead lie lost colonies, some of them hostile. Optimus needs help of the highest caliber, but from whom? Heroes such as Solus, Nexus, and Vector Prime are just names from make-believe stories of long ago. Or are they? Maybe it's time for Optimus Prime to find out. Maybe it's the only chance he has to vanquish mighty Megatron.

Original Grin Ron English,2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie Supersize Me; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on The Simpsons secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

Flesh Tearers Andy Smillie,2016-02-09 Formed in the aftermath of the Horus Heresy, the Flesh Tearers, veterans of the Blood Angels Legion now cast adrift, gather behind their leader, Chapter Master Amit, and set out to forge their own destiny. None of the scions of Sanguinius are as bloody or wrathful as the Flesh Tearers. The fury of this Chapter, scorned by the Blood Angels and many of their successors, is legendary. Within them, the Black Rage is made manifest, a curse on the Imperium and its enemies. In the uncertain years following the end of the Great Heresy, it fell to Amit to lead this benighted Chapter.

Upon his shoulders lay a heavy burden, for to prevent their own self-annihilation, the Flesh Tearers must not only fight their many foes but their very nature itself.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Off Our Chests - A Candid Tour Through the World of Cancer John Marshall,Liza Marshall,2021-05-04 A surprisingly open memoir co-authored by the married duo of a world class oncologist and a cancer survivor about love, pain, hope, strength and resilience while navigating the overwhelming breast cancer advocacy movement. Off Our Chests recounts the story of Liza and John's experience with her diagnosis and treatment. Written in alternating voices, Liza details her treatment, the complex decisions she had to make throughout her course of chemotherapy and radiation, including clinical trial participation and an elective double mastectomy, the added complexity of being treated at the cancer center of which John was the chief of hematology and oncology, and the emotional impact of knowing she may die as a young woman with young children. John, who lost his own mother to cancer at the age of 13, provides an inside look into the world of cancer care and research, but also the perspective of someone who understands the medicine but who was unprepared for assuming the role of caregiver and worried husband. John adds insights into his world of running the clinical operations of the cancer center where Liza would receive her care, commentary on the breast cancer machine, the need for clinical research, the high cost of cancer care, and an easy to understand explanation of the clinical and scientific background of oncology. While they both felt that they were already expert commentators on their own Cancer Channel during the course of Liza's illness, they both came to realize how little understanding they truly had of what a cancer diagnosis does to the patient, caregivers, children, family members, and friends. Liza and John share their most intimate thoughts, including many that were previously unsaid--even between the two of them. Both gain an understanding of the other's life, a deeper appreciation of what it means to be a cancer patient, and of the emotional strains of being an oncologist where so many of the patients die on their watch.
