**Universe Revealed More** Eng. Wasfi A. M. Alshdaifat,2020-03-15 This book is providing a non-preceded simplified knowledge and answers to the big questions for either a normal reader or a scientist. It is trying to draw a united scientific picture for the universe shape and movement in whole and part depending on a unified harmony in-between the science and the holy books, far away from twisting any of them to be coherent with the other. The author's innovative capabilities are employed to create, design, and draw tens of models to shape parts of a picture for a working dynamic universe like a natural machine with threaded parts. The book is revealing the mysterious natural shape and expanded logarithmic spiral movement of the universe (heavens boundaries) since the big fission up to the big rip, which affects physically and mechanically on its inner constituents (matter and forces) formation and movement, such as dark matter, galaxies, stars, planets, moons, electrons, gravity, electromagnetic waves, dark energy...etc., to be shaped and moved in such a manner which we are discovering and going to discover, as a natural fingerprint of the universe moving boundaries, or in another way as natural products by the giant universal machine. The seven heavens effects on our inner lower universe are discussed thoroughly via the subjects of parallel worlds, multiple universes, overlapping wavy orbits, and higher dimensions.

*War Diary of My Prussian Grandfather* Kurt Asmis,2010 On August 3rd, 1914, on day 3 of the war, Hans and his colleagues, mostly family men in mid-career, marched off to war. They were in the Landwehr, the third tier of the Prussian army created primarily for border defense. The diary starts with the men relearning old skills of marching in the garrison town of Brieg, a scant 40 km from the Russian border. Nobody in Hans's group expects the war to last more than 4 months. Certainly they don't expect to see serious action. A few long, perhaps boring months and then back to the office where Hans was Director of the local branch of the Remington office machine company. What Hans and his mates did not know that in a few weeks they would be caught up in a whirlwind of clashing armies akin to Napoleon's epic battles of marching, out-flanking, retreating, and counter-attacking. Contrary to the war in the West which stalemated quickly, the war in the East, for the six months of Hans's diary, was dynamic, uncertain and very deadly. Here, is his story.
