*American Fire Engines* Cristina Berna, Eric Thomsen, 2023-07-31 Fire engines are some of the most interesting vehicles of them all! They are beautifully colored, have flashy chrome and have all this interesting equipment. Fire trucks have very flashy lights, strong and varied horns and sirens and some of them still have bells! Fire trucks are all about public service. They come to help you if your house is on fire or an accident has happened. We honor all fire fighters and rescue workers on this 4th of July 2023 and hope you will enjoy our selection of photos.

*Modelling of Engineering Materials* C. Lakshmana Rao, Abhijit P. Deshpande, 2014-07-02 Modelling of Engineering Materials presents the background that is necessary to understand the mathematical models that govern the mechanical response of engineering materials. The book provides the basics of continuum mechanics and helps the reader to use them to understand the development of nonlinear material response of solids and fluids used in engineering applications. A brief review of simplistic and linear models used to characterize the mechanical response of materials is presented. This is followed by a description of models that characterize the nonlinear response of solids and fluids from first principles. Emphasis is given to popular models that characterize the nonlinear response of materials. The book also presents case studies of materials, where a comprehensive discussion of material characterization, experimental techniques and constitutive model development, is presented. Common principles that govern material response of both solids and fluids within a unified framework are outlined. Mechanical response in the presence of non-mechanical fields such as thermal and electrical fields applied to special materials such as shape memory materials and piezoelectric materials is also explained within the same framework.

*New Approaches for Multidimensional Signal Processing* Roumen Kountchev, Rumen Mironov, Kazumi Nakamatsu, 2022-03-21 This book comprises a collection of papers presented at the International Workshop on New Approaches for Multidimensional Signal Processing (NAMSP 2021), held at Technical University of Sofia, Sofia, Bulgaria, during 08–10 July 2021.
